Toyland is Joyland

Holman's Toyland is the most delightful place in Prince Edward Island to bring children. It simply fills their hearts with abounding pleasure and admiration.

The moving and mechanical toys—games—steam and electric engines—ingenious devices—novelties of all kinds for boys cannot be excelled for quality, quantity, and low price.

Then for girls the Lithographed, Enamelled and Aluminum Tea Sets, Sewing Sets, Toy Furniture, Books, Toy Ranges, Washing and Ironing Sets as well as other educative and instructive toys for the coming women of Canada.

The variety and vastness of display beggars description, and is without question the most extensive to be found in P. E. Island.

You'll be interested in Holman's Toyland—and we'll be looking for you and the "Kiddies."

Can you realize that it is only matter of days—a few short days until Xmas—when it will be too late to act in accordance with the promptings of the heart—to forget yourself in the truly christian spirit of giving to your loved ones and friends.

Would it not be a cold, sad cheerless world if it were not for Xmas and all it means to every person, of every age, in every country?

If we do not respond to the sentiments of the season we ourselves are the losers. The giver is the most benefited person. He enjoys the knowledge of having done his duty—of having given tangible expression to that beautiful old quotation "Peace on Earth—Goodwill Toward Men."

Automatic Bargain Section

Everything in this department at your own price. The tickets on each article in the Automatic Bargain Section show the dates that the prices will be reduced further until they will be near the disappearing point.

You will find goods from every department of the store in this section—Boots and Shoes—Dry Goods—Clothing—Furniture and House Furnishings—Hardware and Groceries. In fact it is difficult to imagine a display more complete—more attractive—more appealing from an economical view point.

And besides it is so interesting watching how prices shrivel up during their downward toboggan.

But visit the department and see things for yourself.
