Thomas Oulton, the Amherst cyclist, again proved his superiority over George L. Prowse, Charlottetown, the Maritime champion, in a ten-mile bicycle race on the Ramblers' grounds last evening. The race was called at 6.30 o'clock with three starters, Oulton, Prowse and Roland Chapman. Chapman is young at the game but for three miles made an excellent showing, leading the other two contestants. At the third mile Prowse forced ahead and maintained a straight lead from the third to the fifth mile but Oulton was pressing him hard all the time. In the fifth mile, Oulton forged ahead and led from the fifth to the seventh mile. From that until the ninth mile there was considerable sawing. The pace had proved too rapid for Chapman and he had dropped out before the last half of the race. Towards the close of the ninth mile Oulton was leading by some yards, when Prowse had a tire punctured and quit the race. We understand that there was a reserve bicycle waiting for him, but he evidently had come to the conclusion that Oulton has such a gain on him, that he could not overtake him. Oulton finished alone, making the last three laps in 33, 32 and 31 seconds, which is certainly travelling some. The time for the ten miles was 30 minutes, 18 seconds. The attendance was not what it should have been.—Amherst exr.
