WILD HORSES

By Henry Herbert Knibbs

(Continued)

"Mighty pleasant to have you ride over and visit our camp," Johnny was saying. He nodded and smiled at Julia, then turned toward Grace Percival. "That's the draw I was telling you about day before yesterday. We aim to lay a concrete road across that stretch. Nothing else'll hold against high water. And say Grace—about that liddle of Turner's, it's genuine hardware, and I think it would suit you. If you just straw, I can get it for you for fifty dollars, which is mighty reasonable."

"If you think it would suit me—" Grace Percival was smiling down at Johnny, and it was only too obvious that she was not thinking of ladders.

"So sure don't know Julia Baker, it's Johnny and Grace now!" A sudden hot anger flamed in Julia's face. The woman from Chicago was playing with Johnny—leading him on, making a fool of him. Yet Johnny did not look so very much like a fool as he stood, hat in hand, talking with the stylish clad girl. He looked, in fact, rather masterful and independent. Julia herself felt utterly negligible, insignificant—a toy in the hands of so clever a person as Miss Percival. If Johnny only knew how heartless and unscrupulous these society women were!

Grace Percival turned, noticed an expression of Julia Baker's face and smiled. "I don't mind, Johnny can ride home with you. Of course all father go with you—but you haven't any horse, have you?"

"That was the last straw," Julia pulled her horse round. Her pretty flushed face betrayed her anger. "Just as you wish, Miss Percival. I'm sure Mr. Trent will not object." And she lifted her pony to a lope.

"What's it all about?" queried Johnny, grinning. "I'm sure don't know Julia. Is she displeased about something?" "I don't see what made her mad," declared Johnny—although he did see, with all his eyes. And then: "Grace, when you're dressed like that you look prettier than I ever thought a girl could look. I just want to tell you that. Let's ride over to the juniper where there's some shade. Say, you ought to have a real horse, that could step the little bay is all right, but he ain't up to your style."

Grace Percival laughed. Johnny Trent was so utterly frank and sincere and they stood on his horse and they rode slowly across the golden meads toward the distant juniper, the cowboy sitting his horse like a young conqueror, his gaze fixed on the eastern hills, for the moment oblivious to the shimmering sunlight, the girl riding beside him, the workmen down the road.

Presently she reined her horse close and touched Johnny's arm. "What are you dreaming about, liddle?" "You," he said, without turning. "In the shade of the big juniper they dismounted, dropped the reins, stood gazing out across the spaces. The meads grass, as yet untouched by summer rains, moved in gentle undulations of pallid gold as the breeze ran lightly down the slope of the far hills. The naked buttes, wind-worn and sharply defined in the clear light, were magic fortress-like, enchanted citadels of amethyst, of sapphire, each in its isolated majesty a perfection weirdly beautiful and each of individual hue and charm. South ran the Blue Range, its several canons sealed with black shadows. And over all

ECZEMA IN RASH AND BLISTERS

Had to Keep Hands Bandaged. Cuticura Healed! "Eczema broke out in a rash and blisters between my fingers and on the backs of my hands. The skin was red and swollen and used to peel off. It itched and burned badly and was awfully sore especially when I put my hands in water. I had to keep my hands bandaged."

"I sent for a free sample of Cuticura Soap and Ointment and it helped me. I purchased more and after using one cake of Cuticura Soap and one box of Cuticura Ointment, my skin was completely healed." (Signed) Miss Nettie Keeso, R. R. 1, Listowel, Ontario.

Cuticura Soap, Ointment and Talcum are all you need for everyday toilet and nursery purposes.

MORE HUMOURS OF HISTORY

A. D. 1087. The feudal system accom... plished, William, in order to keep the owner of the barons within bounds, exacted an oath of fealty from their dependents and vassals. He developed his system of taxation, one notable item being the exacting of a penny on the succession of an heir, on similar lines to the death duties of the present day. Under the feudal system, the condition of the people was one of slavery. They were either "attached" to the estate or could be bought and sold in the open market.

NO TRACE OF STOMACH TROUBLE FOR SEVEN YEARS

Health restored by "Fruit-a-tives".

"For years I was a martyr to Chronic Constipation and Dyspepsia. I tried various Cathartics, salts, and so-called vegetable laxatives, but without relief. Finally I decided to try 'Fruit-a-tives', and in a short time found they were all that is claimed of them. They always act naturally, never causing griping, or nausea, nor having that weakening effect which so many other laxatives have. I have been using 'Fruit-a-tives' now for seven years and have never had a trace of constipation or stomach trouble since."

a turquoise sky, and light indescribable which revealed in infinite detail, and yet lacked the imagination, cheating the gaze that sought to measure distances, and playing with reality until all became unreal, mysterious.

Grace Percival, her eyes alight with a new interest, experienced for the first time the actual charm of Arizona. She felt free to do as she pleased to journey forever, with no objective and no thought of time or of returning. She yearned to live as the folk of the open country live—to be honest, to find beyond the farthest range, another land, even more wonderful than the land upon which she gazed.

Johnny Trent, standing close to her, was speaking. "I know the horse for you! He's the gray stallion that beats that band of wild horses up in the high country. He's like a streak of mist when the wind drives down a canon after the rain. Silver-gray, with a dark mane and tail. I reckon his dam was a white mustang, and his sire must have been a thunder-cloud. He's just come over the top, leading his band of roustabouts, and he's the proudest animal I ever laid eyes on. But he's wild! I've laid twin on a few wild horses."

Grace Percival heard him, his voice low, intense, an accompaniment to her vision of limitless spaces over the freedom of the wild. Yet she could not withdraw her gaze from the golden meads, and his changing hues of sapphire and shadowed wall. "Wild horses!" she whispered, echoing his words.

"That horse—they call him Stubby Gray. He's never been caught. Sometimes they can be tamed, I don't know. I've seen a horse like that let a woman handle him when he wouldn't let a man come near." Johnny pushed back his hat. His young face was radiant, his blue eyes glowing with admiration, sentiment, enthusiasm. He could picture this girl riding the great gray stallion, the unnamed horse of the high country. Slowly Grace Percival turned her head. Her eyes were wide, filled with a dream. A horse like the silver mist of rain blown by the wind! A brute uncomprehending, a fierce danger, a delight! She breathed deep, nor did she realize that the spell of his land was upon her, that not until that moment had she ever been herself, untrammelled, by convention, the heritage of wealth and artificiality. And then she was in Johnny's strong young arms, his face upturned to his, her lips parted, trembling.

"And now," she said, drawing away from his embrace, leaving his arms empty, his heart hungry for another kiss, "catch the gray stallion for me! Break him! I want to see him fight and see you master him! I want him as I never wanted anything in my life!" "Yes, mam," said Johnny quietly. "That will be my next job."
