MANION SAYS BEST BRAINS OUTSIDE GOV'T

Present Liberal Cabinet Would Not Qualify For National Government, Conservative Leader Claims.

WINNIPEG, Feb. 25.—(CP)—Right now there are "a number of the best Liberals" ready to join in the formation of a National Government, Conservative leader Manion announced here Saturday night. Prime Minister Mackenzie King could tell the country he and his cabinet would not enter a National Government, Dr. Manion said, but they had not been asked. Anyway, that Government would be formed of only the best brains in the country and most of the present cabinet would not qualify, except perhaps three or four. "Most of the best Liberals are outside the Government and a number of them are ready to join me in forming a National Government," Dr. Manion said. "The Government can guess who they are."

Members of the Canadian Legion and the Boy Scouts and Girl Guides, who were celebrating the birthday of Lord and Lady Baden-Powell, also paraded to the church. Rev. Dr. R. Moorhead Legate, Rector of St. James Church, delivered an eloquent and appropriate sermon for the occasion. The text of Dr. Legate's sermon appears below. Veterans attending yesterday's services were: Col. (Dr.) H. D. Johnston, Major J. S. Walker, Privates: J. Poolie, Fred Furze and Harry Hyde. Veterans from outside the city were unable to be present due to the condition of the roads. Col. Johnston read the lesson and a wreath was placed on the communion table by comrades Hyde and Walker. The choir sang the anthem "Dear Lord and Father of Mankind" by Fletcher with Miss Marguerite Cudmore and Mrs. H. S. Henderson singing the solo and duet.

MR. MACLEAN ELECTED IN FIRST KINGS

Judge Gives Decision To Conservative Candidate Following Appeal After Recount.

Mr. John R. MacLean, Conservative candidate for the First District of King's County, was again elected, this time by Hon. Austin Fraser, Judge of the County Court of King's County, in a decision handed down in the Court on Saturday. Judge Fraser decided Mr. MacLean was elected to the seat by a majority of 1, the score being MacLean 1023; Kitchham (Liberal) 1024. The majority is the same as reported on declaration day. The total scores, however, are different. In Bothwell poll, Mr. Kitchham lost 10 votes, the "X" on one ballot credited to him being marked against each name. The ballot with counterfoil attached was also credited to him and disallowed by the trial judge. In North Lake poll Mr. Kitchham lost 1 vote, the "X" being on the blank line between the two names. At Priest Pond poll, one ballot was added to each candidate's score, which had been previously rejected. At Souris and Souris East the score was the same as given at the recount. At Souris River the score was the

Friday's Montreal Gazette has gone back on the Mackenzie King regime and prophesies its defeat at the polls on March 26. It says:—"The further the electoral campaign proceeds the less certainly there is of an outcome that will justify the expense involved and the disturbance which a national political contest invariably occasions. Present indications are that the political situation after March 26 will be more expressive of disunity than was the situation at the time when the Prime Minister sank the parliamentary ship. Mr. King himself seems obstinately determined to risk his chances of a new mandate upon the maintenance of a partisan administration, whereas if he were to meet the general public desire for a more representative government, and an abler government, there can be no doubt that he would be strengthening his own position and that of his party. If he succeeds it will be, in all likelihood, by a very much narrower majority than any one party government charged with the vital responsibility of conducting a war should have at its command. He may even bring about a stalemate with the compulsory formation of a Union Government as the only exit. He is expected to lose heavily in the Western Provinces in consequence of the uprise of socialism in the wheat areas, and to sustain substantial losses in Ontario, although conditions in that province are curiously confused. He will have to depend largely upon the provinces east of the Ottawa River—upon the doubtful Maritimes—the rest of the country splitting its support between the C. C. F. and a Conservative party. . . . "The conclusion must be that the electors will base their judgment less upon Dr. Manion's promises than upon the extent of their dissatisfaction with what the Liberal Government has given them. If hostility toward the Government is deep enough and broad enough it is quite possible for the electors to send the Liberal party out of office without giving much thought to the alternative. Whatever happens it is becoming more and more unlikely that political and administrative conditions will be improved, more and more evident that a general election should not have been called at this time."

By Sam Robertson Canadian Press Staff Writer

AT A PORT IN NORTHWEST ENGLAND, Feb. 25.—(CP CABLE)—The aerial cooperation arm of the Canadian Active Service Force's First Division landed in England today singing "We've Got A Lovely War To Win." Safe arrival of this first squadron of the Royal Canadian Air Force ever trained for overseas duty evoked these words of confidence from representatives of the British Government who brought official greetings and messages of welcome. Captain Harold Balfour, Parliamentary Undersecretary for Air, "Today must be an unpleasant one for Herr Hitler and his gang." Lord Derby—"I cannot wish you a happy time, but I would wish you as happy a time as you can get. I would wish the Boche something I know he will get, and that is a hell of a time."

NO PEACE WITH NAZIS

Chamberlain Pledge Great Britain To Fight For Independence Of Czechs And Poles.

BIRMINGHAM, Feb. 25.—(CP)—Prime Minister Chamberlain ruled out any peace with the Nazi government Saturday as incapable of guaranteeing future security to Europe and pledged Great Britain to fight to the finish to win independence for the Czechs and the Poles. Winding up a series of speeches by members of the war cabinet before an audience in his native city of Birmingham, the Prime Minister reviewed the empire's war effort and predicted that the United Kingdom expects to spend more than \$45,000,000 in Canada during the first 12 months of the war. He said that since the war started Britain had bought nearly 4,000,000 tons of wheat from Canada and Australia, 437,000 standards of soft wood from Canada and 300,000 fathoms of pit wood from Canada and Newfoundland. In one of his most forceful addresses since the war began, the prime minister described the Nazi aims as the destruction of Britain and "domination of the world." He said that since the war started, he said, is lighting a "crusade" for freedom and to abolish the "spirit of militarism and the accumulation of armaments, which is paralyzing all Europe and not in the least Germany herself." "How in concrete terms are these aims to be secured?" he asked. "First, the independence of Czechs, Poles and Czechs must be assured. Secondly, we must have some tangible evidence that will satisfy us that any peace or armistice given will be fulfilled. Under the present German government there can be no security for the future."

Hitler Breaks Silence To Make Boasting Speech

By Edwin Shanke Associated Press Staff Writer

MUNICH, Feb. 25.—(AP)—Adolf Hitler cried out Saturday night that Germany will fight "until the terror of the plutocrats has been broken" and declared the "third reich" of Russia, Italy and Japan to be his friends and proclaimed his trust that God is with him and his Nazi Reich. To his old guard, in an hour's speech Hitler asserted "the hand of providence" saved him from death in a bomb explosion here in Munich city last Nov. 8 and declared the same providence "has especially blessed us" for six years. "Do you think providence would have blessed us only to drop us now?" he asked. "There is a God—he creates people with equal rights." Today's Germany, he said, is stronger in every way than the Imperial Reich of 1914—just, especially in its leadership. Preceded by the blood-stained flag which headed his marchers in 1923, Hitler came to Munich's Hausbrau Platz to commemorate the founding of a 25-point program 20 years ago. It was his first speech in Munich since the Burgerbrauhaus explosion wrecked the scene of the original beer cellar putch of 1923. Hitler gave a defiant war message threatening to smash anyone who seeks to deny Germany her right of living space, jeering at "the Chamberlains and their top hats," sneering at Winston Churchill and demanding to reveal his specific war aims. He did mention his terms prior to the start of the war and described them as modest—"security of our living space, return of our colonies."
