STRATHCONA'S STRONG DENIAL

Re the Trading Company—Prominent Montreal Lawyer Suspended and Appeals.

MONTREAL, April 30.—(Special)—The Star's London Cable quotes an interview with Lord Strathcona in reference to the statement made in the Canadian Commons that he has been connected with the North Atlantic Trading Company, saying, "I declare absolutely and unreservedly that I have not and never had any interest in or connection with the North Atlantic Trading Company. It was not I who arranged the contract and I never cordially approved of it."

CHIEF JUSTICE TASCHEREAU

Has Resigned, Fitzpatrick to Succeed With Aylesworth Min. of Justice.

OTTAWA, April 30.—(Special)—Chief Justice Taschereau of the Supreme Court of Canada has resigned. It is understood that Hon. Mr. Fitzpatrick, Minister of Justice, will be offered the appointment, though this may not be done until after the conclusion of the session.

HOW PNEUMONIA STARTS. You catch a little cold to-day, by to-morrow it has reached the throat, next day the lungs are affected and you wish you had used "Catarrhoxone" which kills colds in five minutes. In the first place Catarrhoxone soothes the irritated membranes and relieves congestion, then it cuts out the phlegm and destroys the germs. It enables the blood to retain a natural supply of oxygen, lung-foot, and vitality. In any cough, bronchitis or lung affection it's guaranteed to positively cure. Decline any substitute for "Catarrhoxone."

THE LABRADOR EXPEDITION

Returns in Good Health, A South African Veteran Among their Number.

QUEBEC, April 20.—(Special)—The members of the Dillon Wallace expedition who have spent the winter in the wilds of Labrador arrived here yesterday by the steamer King Edward. They all look the picture of health. With the party is Lieut. Stanton, a Canadian belonging to Halifax and a South African veteran, having been a member of the first Canadian Contingent.

PARIS IS LIKE AN ARMED CAMP

PARIS, April 20.—Premier Sarrien, in a speech delivered here today, gave warning to the disorderly element that the Government proposed dealing firmly with any outbreaks on May 1. This is the first speech the premier has made in the course of the electoral campaign, and it dealt with all kinds of questions, but the principal interest attaches to that portion of it giving the Government's attitude toward the exacting labor situation. "The first duty of a Government worthy of the name," said Mr. Sarrien, "is to ensure order in the streets and freedom to work without interruption. We are resolved to apply the law without passion and without weakness to the disturbers of the peace, whoever they might be, whatever names they assume, or whatever the end they seek."

OFFICERS MAKE PRESENTATION

SENATE REFORM DISCUSSED IN THE HOUSE OF COMMONS

Resolution Moved to Fix Fifteen Year Term with Age Limit at Eighty—Laurier Favors Election by Legislatures in Proportion to Party Strength—Borden Thinks Liberals and Conservatives Should be Appointed Alternately.

OTTAWA, APRIL 30.—(Special)—An interesting discussion on Senate reform took place in the Commons today. Mr. McIntyre of South Perth opened the debate by asking the House to endorse a resolution reducing the term of senators from life to fifteen years and a regulation age limit of eighty years. The Senate he said was not living up to its pay, or what people expected of it. He favored a Senate of which a majority would be appointed by the federal Government and the others by the provincial Legislature. Retired governors and representatives of colleges might also be given seats. The Senate had missed its opportunity to win public approval by not holding up the Indemnity Bill of last session. Mr. Sheell of Oxford seconded the resolution. He thought the Senate was necessary and could be made a more useful body. Sir Wilfrid Laurier sketched the history of the Senate and referred to the repeated demands for its abolition or reform. Personally he did not favor abolition, not because he thought the Upper House provided a useful check upon legislation, but because it was necessary to the smaller Provinces to prevent the invasion of their rights by the larger Provinces. Representation in the Senate was fixed and not by population. He would not be averse of seeing each Province have the same number of Senators as in the States. Regarding reform, he didn't favor an elective Senate, but was inclined to approve the system of election by the provincial Legislatures, which he claimed had proved a success across the border. He thought a more representative Upper House would be provided by this system if the selection as to politics were based on the comparative number of Liberals and Conservatives in the Provincial House. For instance, Ontario, with thirty Liberals and sixty-six Conservative members, would return one Liberal Senator and two Conservatives. In other Provinces the result would be different and the result would be a fair party division in the upper house. Leader R. L. Borden compared Sir Wilfrid Laurier's previous promises of Senate reform with his failure to carry them out. The best remedy was one he (Laurier) had previously advised, namely alternate federal appointments from either party. Mr. McIntyre withdrew his motion.

GRAND JURY AND INSURANCE MEN

NEW YORK, April 30.—(Special)—The Grand Jury for April has returned a presentment declaring that it had failed to investigate the political contributions by the insurance officials because it had been so advised by District Attorney Jerome, who had opposed immediate action because he wished first to secure an opinion from the appellate division Supreme Court as to whether political contributions constituted larceny as Justice Greenbaum had ruled. Recorder Goff accepted the presentment remarking that the whole responsibility of action now rested on the District Attorney. Mr. Jerome promises to bring the matter before the May Grand Jury.

IMPRISONED BY THE HOLY SYNOD

ST. PETERSBURG, April 27.—Friends of Father Gapon claim to have information that the former priest has fallen, not into the hands of the revolutionists but into those of the Holy Synod, which condemned him for forsaking the priestly orders to indefinite imprisonment in one of the many gloomy monasteries used by the Church as prisons. The most famous of these is the monastery of Solovki, on an island in White Lake, in the far north, where the Metropolitan Philip was imprisoned and killed in the sixteenth century. There have been many other cases of men being immured and disappearing forever. Father Gapon's common law wife, it is alleged, petitioned the synod to name his prison and for mitigation of the sentence.

BOTH FOOD AND MEDICINE.

We like best to call Scott's Emulsion a food-medicine. It is a term that aptly describes the character and action of our Emulsion. More than a food, yet combining the vital principles of both. It is for this reason that Scott's Emulsion has a distinct and special value in all wasting diseases. There is nothing better to remedy the troubles of imperfect growth and delicate health in children. The action of Scott's Emulsion is just as effective in treating weakness and wasting in adults. HAMILTON PIPE WORKS BURNED

HAMILTON, ONT., April 30.—(Special)—The Toronto and Hamilton Sewer Pipe Works were destroyed by fire today. The loss to the building and stock is two hundred and twenty-five thousand dollars.

VOW THEY WILL KILL BONVICT

MONCTON, April 27.—According to a Dorchester despatch received here the sympathy shown by the officials and others to young Higgins, the St. John boy murderer, was painfully wasted, as is evidenced by his recent attempt, in conjunction with another convict, to escape. That the two young scoundrels intended to "do up" the night watchman, Amos Robinson, in the yard was very evident, as they left their cells in their night clothes, intending of course to go to the tailor's shop and there equip themselves with citizen's clothes. They now vow that they will have the life of the convict who made their attempt to escape known to the night watch. It is not improbable that the department of justice will show clemency to the convict in question as a premium on good discipline.

MOUNT HECLA IN ERUPTION

Scattering Ashes Over Iceland But Not Yet Serious—Its Past Record.

EDINBURGH, SCOTLAND, April 30.—(Special)—A steamer which arrived at Leith today from Iceland reports that Mount Hecla harbor is in eruption the ashes being scattered over a wide area. The disturbance however was not serious. Hecla is a conical mountain, 5,110 feet high, standing 20 miles from the coast. A record of its eruptions since the tenth century tells of 43, always very violent and usually continuing for a considerable time. One of the worst was in 1783. It then remained quiescent till 1845 when it burst forth with terrific energy and continued active for over a year. At this time the torrent of lava at a distance of two miles from the mountain was a mile wide and 40 to 50 feet deep. Iceland has a population of about 70,000.

OPEN VERDICT AT THE INQUEST

MONTREAL, April 30.—(Special)—The coronor's enquiry into the death of the late W. Watson Ogilvie, whose tragic death with a revolver shot startled Montrealers yesterday, resulted in a verdict that Mr. Ogilvie shot himself. No jury was called in the case. The evidence showed he was shot in the left temple and the revolver was lying on his left side. Mr. Ogilvie was left handed.

WOMEN ATTENDED FUNERAL IN A BODY

HALIFAX, April 30.—Florence T. Wallace, past chief ranger of Companies Court "Stairs," L. O. O. F., took place from her late residence, 101 Robie street yesterday afternoon to Camp Hill cemetery. The service was in charge of the Foresters, every lodge in the city being represented. The service at the house was conducted by Rev. Mr. Hiltz of St. Mathias church, in which the deceased lady took an active interest. A striking feature of the funeral procession was the attendance in a body of 150 lady members of Rebekah lodge who marched directly behind the hearse. This is the first time in the history of Halifax where women have appeared in a funeral procession. The pall bearers also composed of members of Rebekah lodge, each lady carrying a floral tribute. The floral offerings were beautiful.

REDUCED A HARD SWELLING.

Mr. Gus E. Geroux, writing from Pembroke, tells how he was injured in a lumber camp. "A heavy log rolled against my leg and I was laid up with stiffness and a hard swelling. When I applied Polson's Nervine I got relief. A few rubbings with this good liniment cured me." In the bush, Nervine is indispensable; it cures neuralgia, colds, rheumatism and internal disorders too. No person can afford to be without Nervine. Useful for all internal and external pain. Large bottles 25c. at all dealers.

CHICAGO, April 29.—Standing unsteadily and with great effort before an audience of 2,500 persons in Zion Tabernacle this afternoon, John Alexander Dowie charged his traductors, if any were present, to make their accusations before the whole congregation. The following of Voliva, the new leader in Zion City's affairs, however, were at that moment attending a revival meeting at the Zion College building. There 5,000 of the city's inhabitants were gathered with the Zion choir, band and orchestra. Those who listened to the words of Dowie were for the most part visitors brought in by electric cars and railway trains. In front of the platform and in the choir loft were probably 150 faithful Dowites. Dowie was borne bodily by two stalwart negro attendants from an anteroom to the platform and deposited upon his feet before the altar. He was attired in a new apostolic robe of white, gold and purple. On his head was a turban of marvellous pattern, embroidered in purple and gold. He delivered his address seated before the altar. Only occasionally when roused to an unusual pitch of earnestness did he rise.
