SUSPECTED BANK ROBBERS ARRESTED

Nova Scotia Election Scheduled For Oct. 23

No. 1 On List
HALIFAX, Sept. 12 — (CP) — Nova Scotia became the third Province slated for a general election next month as Premier Angus L. Macdonald announced today that the Province would go to the polls Oct. 23. Nomination day will be Oct. 9.
Lieut.-Gov. H.E. Kendall today issued a writ dissolving the Nova Scotia Legislature, which was chosen in the wartime election on Oct. 26, 1941, almost four years from the date of the forthcoming election.
The two other Provinces holding October elections are Manitoba, on Oct. 15, and British Columbia on Oct. 25.
Standing of the 30-member House at dissolution was: Liberals 22, Progressive Conservative 4, C.C.F. three, with one vacancy. At the 1941 election, the Liberals returned 23 members, with the standing of other parties unchanged since then. Premier Macdonald, who was sworn into office last Saturday after the resignation of 74-year-old A. Stirling MacMillan, wartime Minister of Agriculture, has the present Premier was Naval Minister in the Dominion Cabinet, also announced that Premier Minister J.D. McKenzie was resigning because of the pressure of private business. His successor has not yet been named.
All the members of the MacMillan Cabinet except Highways Minister McKenzie were sworn into office when the new Premier took over.

Meat Strike Threat Spreads
SAINT JOHN, N.B., Sept. 12 — (CP) — Retailers' Association in Charlotte County, McAdam, Edmundson and Balthurs, at special meeting today, agreed to support a decision of the Association's Saint John branch to discontinue sale of rationed meat if the strike is not withdrawn by Sept. 24.
This would mean discontinuance of retail meat at eight centres in New Brunswick. The Charlotte County meeting at St. Stephen was attended by 33 Association members from St. Stephen, Millville, St. Andrews and St. George, as well as McAdam.
The decision of Saint John meat dealers was reached last night.

U.N.B. ENROLLMENT
FREDERICTON, Sept. 12 — (CP) — More than 700 applications for enrolment have been accepted at the University of New Brunswick—three times as many as in any other year of the university's 145-year history.
The enrolment of 1945 was the largest since 1914, when the war was in its height. Some have brought their wives, making the problem of finding accommodations more difficult. Double bunks were placed in the Lady Beav. stables residence and every available space in the gymnasium.

Coming Events
*Show — Canoe Cove Friday, 9-12-21.
*Show — Crapaud Thursday, 9-12-21.

Tedder Promoted To Highest Rank

Air Marshal Tedder
LONDON, Sept. 12 — (CP) — Air Chief Marshal Sir Arthur Tedder, who was Gen. Eisenhower's deputy supreme commander of Allied forces, has been promoted to the rank of Marshal of the Royal Air Force.
This is the highest rank in the R.A.F.
Only six others hold it. They are Viscount Trenchard, Sir John M. Salmond, Sir Edward L. Ellington and Sir Cyril Newall, all former chiefs of Air Staff, Sir Charles Portal, chief of Air Staff, and the Duke of Windsor, former Governor of the Bahamas.

10,000 Ford Employees Strike

WINDSOR, Ont., Sept. 12 — (CP) — Union pickets patrolled the area of the Ford Motor Company of Canada works tonight after approximately 10,000 employees went on strike today in a collective bargaining dispute.
The strike was called by local 200 of the United Automobile Workers (C.I.O.) and union officials reported the immediate reason was dissatisfaction with the report of a conciliation board which held public hearings here last week in an effort to bring about a peaceful solution.
At 10 A.M. E.D.T. a whistle blew to announce a retreating workers began walking out of plant No. 1 and in a few minutes picket lines were formed at the gates of the three of the company's plants. The office staff remained at work, including members of U.A.W. local 240, and union officials said they would not be disturbed today.
Largest automotive plant in Canada, in recent weeks it has been manufacturing trucks for the United Nations Relief and Rehabilitation Administration, for the war effort board of Canada and for essential civilian uses. A British war order was cancelled only a few ago.

Indian Delegation

Ottawa was invaded today by 100 delegates of the North American Indian Brotherhood coming from all parts of Canada. Maritime Provinces delegates were Ben Christmas of Sydney, N.S., and Thomas Gordon of Dalhousie, N.B. The Indians petitioned Mines and Resources Minister Glen to give Indians full eligibility for old age pensions, a right they do not at present enjoy.
"The Indians from Prince Edward Island to the Queen Charlotte Islands in the Pacific are on the war-path in the white man's world," President Andrew Paul declared. "We've stopped scalping as a method to gain our ends. As a matter of fact most members of Parliament and Senators have so little hair that scalping would scarcely be worth the trouble."
"We are laying our demands before every member and Senator for a better social service, better education and means to care for our aged and infirm."
Resources Minister Glen promised the Indians he would ask the Cabinet to grant their petition for old age pensions and would provide that Indian boys and girls be given opportunity to follow higher education.

Fisheries Report

OTTAWA, Sept. 12 — (CP) — Tail, thin Maj. Frank Bridges, new Minister of Fisheries from Fredericton, N.B., was appointed today to his first report—the distribution of a bounty to fishermen.
The bounty consists of \$1 a ton on vessels with an 800 ceiling and a bounty of \$7.50 to all vessel fishermen.
In the boat fishing class \$1 will be paid to each fishing boat with \$7.15 to each boat fisherman.
The aim of the bounty is "to encourage the development of the sea fisheries and the building of fishing vessels."

Japan's Huge Southern Armies Surrender Formally

Japanese gave back the richest fruits of their swift 1941 conquest.
Surrendered were 85,000 troops in the Singapore area and some 500,000 soldiers and sailors in Southeast Asia and the East Indies, as well as an area of 1,600,000 miles in mineral and agricultural products and inhabited by 128,000,000 people.
In an order of the day to his troops, read after the raising of the Union Jack while bands played the British, American, Dutch, Chinese and French anthems, Admiral Mountbatten told his men they had inflicted six times the number of deaths they had suffered, and expressed his "gratitude and pride."
The S.E.A.C. commander also disclosed that invasion of Singapore, with seven divisions had been set for Sept. 9. After the Japanese surrender, it was carried out as an exercise—and defences were found so negligible, he said, that beachheads could have been taken with "half-a-dozen casualties."
The secret name for this invasion was "zipper operation."

Ottawa Flooded With Protests Re Rationing

Indian Delegation Petitions For Old Age Pensions.
OTTAWA, Sept. 12 — (Special) — While Kenneth Taylor, food co-ordinator of the Wartime Price Board chafed today with a volume of protest against meat rationing from all parts of Canada, Lt.-Col. J.A. Ross, Progressive Conservative member for Bourke, Man., questioned the value of the restored rationing of meat in the House of Commons.
Col. Ross complained that no reasonable explanation has been given to either meat producers or consumers that meat rationing is the proper course for Canada to follow. He recalled that C.P. Anderson, United States Secretary of Agriculture had recently said that rationing might well end in that country this fall because of the cut-backs and heavy runs of grass-fed cattle.
The Souris member said further that owing to the neglect of local rationing authorities to provide for the needs of aiding farmers had been unable to purchase meat needed to feed threshing crews at the height of the harvest season.
In Ottawa itself today farmers at the big Ward market complained loudly about meat rationing, saying the statement of Mayor Ray Forbes of Fredericton that the meat ration had been reintroduced to make jobs for hundreds of people, is ridiculous. He said that it was ridiculous to charge the board with wanting to create more government jobs.
Prices Board officials here were angered by the statement of Mayor Ray Forbes of Fredericton that the meat ration had been reintroduced to make jobs for hundreds of people. His information office said that it was ridiculous to charge the board with wanting to create more government jobs.
Prices Board officials here were angered by the statement of Mayor Ray Forbes of Fredericton that the meat ration had been reintroduced to make jobs for hundreds of people. His information office said that it was ridiculous to charge the board with wanting to create more government jobs.

Promoted to Major

Word has been received by Mrs. J. MacMillan announcing the promotion of her husband from the rank of Captain to Major. Major MacMillan was Medical Officer at Beach Grove Inn in 1943 and also stationed at St. Anne de Bellevue, Quebec. He left for overseas in Feb. 1944. He is now assigned to Army Headquarters in Holland. Major MacMillan is the son of Mr. and Mrs. T.M. MacMillan, Charlottetown. His marriage to Sybil Mallett, daughter of Mr. and Mrs. Fred Mallett.

Truman Gives Strong Support Aid To Britain

WASHINGTON, Sept. 12 — (AP) — Republican criticisms of United States aid to Britain got rough handling today from President Truman, who called them "perfectly silly."
As negotiations for multi-billion dollar financial assistance developed here, the President also stated that American funds would not be used to influence Britain's politics.
His views came out at a White House news conference and strengthened the impression of many officials here that Mr. Truman is ready to support recommendations to Congress for a loan to Britain whenever Anglo-American negotiations can agree on terms.
The President was asked about critical statements by Representative Harold Knutson (Rep-Minn.) and Representative Carl Curtis (Rep-Nebr.). They charged in the House of Representatives yesterday that in seeking an American loan Britain's Labor Government was asking the American people to underwrite the socialization of Great Britain.
The President was asked specifically whether the United States should decline economic assistance to Britain on the ground that to give it would be underwriting socialism.
"Authorizing direct quotation to strengthen the force of his comment," the President retorted: "I think that is a perfectly silly conclusion."

How Members View N. S. Election

OTTAWA, Sept. 12 — (CP) — Emerging from the Commons today, Prime Minister Mackenzie King was handed a dispatch announcing the Nova Scotia election date as Oct. 23.
Adjusting his glasses he scanned the report of the announcement by Liberal Premier Angus L. Macdonald, former member of Mr. King's Cabinet, and said: "good, good."
Other Liberals in the Commons lobby expressed keen interest in the election and drew attention to the fact that Manitoba and British Columbia provincial elections were being held about the same period.
"It will be a good test of party strength," a member said.

Lauzons Taken Into Custody At Races

Held In City With Companion, Also From Windsor, Ontario; Gunplay On Road From Covehead
Ulysses Lauzon, 22, and his wife, Eileen, 21, together with Walter Koresky, about 30, all of Windsor, Ont., were arrested yesterday afternoon at the Covehead races by two officers of the Charlottetown detachment of the R. C. M. P. Lauzon and his wife are wanted for alleged involvement in several bank hold-ups in Ontario. They are also wanted in Quebec. It was not known at the local R. C. M. P. barracks last night whether or not Koresky has a criminal record.
Before the suspected trio had reached the City yesterday evening in the custody of the two R. C. M. P. officers, Csts. W. H. Warner and T. C. Keefe, Lauzon and Koresky fired one shot at point blank range at Cst. Warner before the two men were overpowered. Fortunately Koresky missed.
Their arrest was due to suspicions aroused in the mind of a bright, young Island woman whose wish to have her identity kept a secret is being respected by the R. C. M. P.—who noticed three strangers, two men and a woman, spending large sums of money in the City. With the story in yesterday's Guardian of the hunt in five Provinces for Lauzon and his wife, suspected of being in the Royal Commission on coal today in Cst. Warner and Keefe, the three strangers were asked for their registration cards. Two of the cards ended their bearers were Mr. and Mrs. Joe Jensen of Halifax; the other card was P. Kerr, Chatham, Ont. Later on at the R. C. M. P. barracks, papers on the suspects showed they were Ulysses Lauzon and Walter Koresky, both of Windsor, Ont. The second man was revealed as Walter Koresky, also of Windsor, Ont.

Union Urges Public Control Of Maritime Coal Mines

By JACK WILLIAMS
SYDNEY, N.S., Sept. 12 — (CP) — Public control of Maritime coal mines was recommended to the Royal Commission on coal today in a submission of district 26 of the United Mineworkers of America (U.M.W.) representing Nova Scotia and New Brunswick miners.
The union's 78-page brief dealt with the importance of coal in the national economy and urged a large scale research program in an effort to develop new uses for coal, and operation of the mines at a high rate of production.
"We submit, and confine ourselves to the Maritime industry," the brief said, "that his special circumstances, that such a program will not and cannot be achieved without the extension of social control to administration of the industry here by the same public agency that must provide the capital for that reconstruction, out of which national development and the interests of the consumer, producer and taxpayer will be benefited," the brief said.
There was no immediate definition of "social control" because the day's hearing was devoted entirely to a reading of the brief by C.B. Wade, union research director. Examination of union officers is slated for tomorrow.
At the conclusion of today's hearing, however, Mr. Justice W. Carron, commission chairman, suggested to Mr. Wade that the Government had held a large measure of control over the industry during the war.
"Yes, but they haven't always exercised it," Mr. Wade replied.
The subject came up briefly earlier when Mr. Justice C.C. McLaurin, a commission member, interrupted Mr. Wade to ask whether the union was opposed to private enterprise in the industry and favored public ownership of the mines.
Mr. Wade said the union believed in public ownership, Freeman Jenkins, U.M.W. district president, suggested the brief be allowed to speak for itself.
Recommendations of the union included:
(1) Aggressive experimenting in mechanical loading and its introduction where possible, integrated with a program of full employment in the Maritimes.
(2) Speedy training of more mining engineers and provision of capital to improve living conditions in the mining towns.
(3) Establishment of a guaranteed annual number of work days for all wage earners in the industry and introduction of a five-day week without loss in take-home pay.
(4) An extensive sales program to promote use of Maritime coal for domestic and industrial purposes.
(5) Continuance of the coal tariffs and any necessary "adjustment," not as assistance to the coal industry but as part of a national fuel policy of decentralization of industry."

Constables Suspicious

After a scrutiny of the cards, the officers returned to their answers to their questions, informed the three strangers they were to be taken to Charlottetown for questioning and urged a large scale research program in an effort to develop new uses for coal, and operation of the mines at a high rate of production.
"We submit, and confine ourselves to the Maritime industry," the brief said, "that his special circumstances, that such a program will not and cannot be achieved without the extension of social control to administration of the industry here by the same public agency that must provide the capital for that reconstruction, out of which national development and the interests of the consumer, producer and taxpayer will be benefited," the brief said.
There was no immediate definition of "social control" because the day's hearing was devoted entirely to a reading of the brief by C.B. Wade, union research director. Examination of union officers is slated for tomorrow.
At the conclusion of today's hearing, however, Mr. Justice W. Carron, commission chairman, suggested to Mr. Wade that the Government had held a large measure of control over the industry during the war.
"Yes, but they haven't always exercised it," Mr. Wade replied.

(4) An extensive sales program to promote use of Maritime coal for domestic and industrial purposes.
(5) Continuance of the coal tariffs and any necessary "adjustment," not as assistance to the coal industry but as part of a national fuel policy of decentralization of industry."

Fight Begins

About four miles out of Covehead in the direction of Charlottetown, six miles distant, Lauzon and Koresky were immediately Cst. Keefe stopped the police car. In the meantime, the woman, Eileen Lauzon, had fainted and fallen to the ground. While administering first aid to her, Cst. Warner found himself covered by two guns in the hands of Lauzon and Koresky. Warner grappled with Lauzon who kept yelling for Koresky to shoot. Warner through the head. Koresky fired point blank at Cst. Warner but a fraction of a second before Koresky's gun had exploded into action, the courageous officer had lifted Lauzon up in front of him. This feat of physical strength and quick thinking bewildered Koresky who missed his human target by inches. At the same time, Lauzon's gun had dropped from his hand. Before Koresky could fire again, Cst. Keefe had grabbed Lauzon and Warner took immediate advantage of his opportunity to recover Lauzon's weapon. Koresky dropped his gun and the struggle was over.
When searched at the R. C. M. P. barracks, both Lauzon and Koresky were found to have considerable money in their possession in the form of bills and bonds. The exact amount found on the men was not divulged by Inspector N. J. Anderson, head of the local R. C. M. P. detachment.
It is expected the Lauzons will be taken to Quebec in connection with the \$300,000 worth of bonds, recently uncovered in the Charlottetown district and said to be part of the loot resulting from several Ontario bank hold-ups. Beyond the statement that Koresky, as a result of yesterday's struggle with Cst. Warner and Keefe, has a serious charge to face here, Inspector Anderson could give no information on the Windsor man.
The car Lauzon was driving is believed to have been stolen in Quebec where it displayed Michigan number plates. He had Michigan and Quebec number plates in the car when arrested.
The Lauzons and Koresky are

Royal Assent To Huge Expenditures

OTTAWA, Sept. 12 — (CP) — Royal assent was given in the Senate today to bills authorizing expenditures of \$400,000,000 for war and demobilization purposes in the next two months and of more than \$29,000,000 for civil administration purposes in the next month.
In both the Senate and the Commons were heard suggestions that the Government adopt the single transferable vote system in federal general elections.
Senator John Haig, Progressive Conservative leader in the Upper House, advocated appointment of a committee that would study application of the transferable vote, in the Commons, Col. Ross asked for the 150 members of the present Commons were elected by a minority vote.
Speakers in the Throne Speech debate in the Commons today were Bona Arsenault (Bonaventure) former president of the Progressive Conservative Association of Quebec who was elected as an Independent in the general election of June 11 and now says he is throwing his support behind the Liberal Government; Lt. Col. J.A. Ross (PC—Souris); J.H. Blackmore (PC—Lehrbridge, Antigonish); P.E. Ganong (Ind—Chicoutimi).
FREDERICTON, Sept. 12 — (CP) — Transfer of Inspector R.B.S. Wilson from Saint John to Regina was announced today by B. Hutchings, superintendent of the Canadian Mounted Police in New Brunswick.

Union Urges Public Control Of Maritime Coal Mines

By JACK WILLIAMS
SYDNEY, N.S., Sept. 12 — (CP) — Public control of Maritime coal mines was recommended to the Royal Commission on coal today in a submission of district 26 of the United Mineworkers of America (U.M.W.) representing Nova Scotia and New Brunswick miners.
The union's 78-page brief dealt with the importance of coal in the national economy and urged a large scale research program in an effort to develop new uses for coal, and operation of the mines at a high rate of production.
"We submit, and confine ourselves to the Maritime industry," the brief said, "that his special circumstances, that such a program will not and cannot be achieved without the extension of social control to administration of the industry here by the same public agency that must provide the capital for that reconstruction, out of which national development and the interests of the consumer, producer and taxpayer will be benefited," the brief said.
There was no immediate definition of "social control" because the day's hearing was devoted entirely to a reading of the brief by C.B. Wade, union research director. Examination of union officers is slated for tomorrow.
At the conclusion of today's hearing, however, Mr. Justice W. Carron, commission chairman, suggested to Mr. Wade that the Government had held a large measure of control over the industry during the war.
"Yes, but they haven't always exercised it," Mr. Wade replied.
