Daily Selections FOR Guardian Readers

July 21, 1928

A GREAT PURCHASE—Buy the truth, and sell it not; also wisdom, and instruction, and understanding. —Prov. 23:23.

PRAYER—Oh, Thou loving Father, enable us to covet earnestly the best gifts.

July 22, 1928

A HAPPY FATHER—The father of the righteous shall greatly rejoice: and he that begetteth a wise child shall have joy of him.—Prov. 23:24.

PRAYER—For fathers that are happy and children that are worthy we thank the Lord.

THINGS THAT ENDURE.

Honor, and Truth and Manhood,
Those are the things that stand,
Through the sneer and jibe of the cynic tribe
Are loud through the width of the land.
The scoffer may lord it an hour on earth,
And a lie may live for a day.
But Truth and Honor and manly worth
Are things that endure always.

Courage and toil and service,
Old, yet forever new—
These are the rocks that abide the shock,
And holds through the storm, flint-true.
Fad and folly the whims of an hour
May bicker and rant and shrill;
But the living granite of truth will tower
Long after their rage is still.

Labor and love and virtue—
Time does not dim their glow;
Though the smart may say, in a languid way,
"Oh, we've outgrown all that, you know!"
But a lie, whatever the guise it wears,
Is a lie as it was of yore,
And a truth that has lasted a million years
Is good for a million more!
—Ted Olson in "Forbes."

BRITISH SCHOOLGIRLS GET TOUR OF CANADA

LONDON, July 19.—Three school girls have been awarded scholarships of 100 pounds each so that they may join the party of girls from secondary schools who are going to tour Canada in August.

Twenty-five girls have been selected by the Society for the Overseas Settlement of British Women, which is organizing this first tour of school girls in the dominions.

The schools from which the girls were chosen include St. Paul's, the Girls' Grammar school, Watford; Cheltenham, Roedean, Wycombe; St. George's, Harpenden, and Sherborne. The girls have been chosen for their good health, ability to get on with other people, receptive powers, and capacity of sharing experiences with others, which it is hoped they will do when they return to school.

Miss Edith Thompson, the leader of the party, was an officer in the Waacs and is well known to school girls as a hockey player. She has recently returned from a tour in Australia in charge of the English women's hockey team.

The girls are to see Canadian life in all its phases, including harvesting and fruit-packing.

The party leaves on August 4 and returns on October 26 in time for the autumn mid-term's work at school.

DURING BABY'S TEETHING TIME

The Bowels Become Loose

Diarrhoea, dysentery, colic, cramps, etc., manifest themselves; the gums become swollen, and cankers form in the mouth. This is the time when the mother should use

D. L. FOWLER'S EXT. OF WILD STRAWBERRY

and perhaps save the baby's life. On the market for 80 years. Price, 50c. a bottle at all druggists or dealers.

Health Services of Canadian Medical Association

THE IMPORTANCE OF REST

Life consists of alternating periods of activity and rest. To live in a healthy condition, it is necessary that these periods be balanced one with the other.

If activity be too prolonged, there is a loss of efficiency. The tired eye sees less well, the tired muscles do not respond as quickly, the tired workman produces a smaller quantity and a lower grade of work, the tired brain is less efficient.

It is a well-established fact that a much higher percentage of accidents occur in factories towards the end of the day. Even under the stimulus of a patriotic fervour, it was found that the number of shells produced per week, during the Great War, was increased by reducing the hours of work in the elimination of Sunday Work.

A change is a rest. Recreation or play is a change which provides rest in one manner. It does not, however, provide rest in all ways. It is rest in the sense that it is a diversion, but it is not restful in the sense that sleep is. Play furnishes relief from the monotony of work, gives a fresh mental stimulus, but it does not provide for the rest that is needed to rebuild and restore the body-cells broken down by activity.

Periods of activity, either at work or at play, must be balanced by periods of rest, and the ideal form of rest is sleep.

When disease attacks the body, rest is one of the essentials of treatment. The patient is put to bed and is kept as comfortable as possible in order that by means of rest, the body may make its best fight against the enemy-disease.

Persons who are below par, adults and childrn who are underweight, benefit by added rest. Children frequently gain in weight with no other change in their routine of life except a rest period after meals.

Rest costs nothing in money, but it means taking time from other things for the purpose. To do without sufficient rest is to wear out the body prematurely. Rest is required just as much in summer as in winter, which is a truth that people are apt to overlook, both for themselves and for their children.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

In Memoriam

MR. MALCOLM MacAULAY

Mr. John Charles MacAulay of Stanhope received a wire Thursday bringing the sad news of the death on Wednesday afternoon in Baltimore, Maryland, of his son, Malcolm L. MacAulay aged twenty-seven years. There were no particulars given but as Malcolm was a man of splendid physique and when last heard ffom in excellent health it is thought that he may have met with an accident in the steel works where he has been employed for the past four years. The body will leave Saturday for interment in Prince Edward Island. The late Mr. MacAulay has been residing in the United States for the past seven years. He was formerly a student of St. Dunstan's College. His death is the first break in a family of eleven. Besides his sorrowing parents there are left to mourn four brothers: William, Vincent, Joseph and Louis at home; and six sisters: Helen, Dorothy, and Mary in New York, Sister St. Marguerite in St. Joseph's Convent, Charlottetown; Sister St. John of Cicily, of the Congregation de Notre Dame, Montreal and Anna at home. To the bereaved The Guardian extends its sincerest sympathy.

RED POINT.—Twenty-two members and six visitors met at the home of Mrs. G. J. Stewart, for the July meeting. Many different subjects were discussed but nothing definite decided on as yet. Next meeting will be held at the home of Mrs. Ronald McLellan.

EGLINGTON AND HOWE BAY—Answered roll call by conundrums. After the business part of the meeting a pleasant social evening was spent. Next meeting to be held at the home of Mrs. W. B. Mills.

MEN'S WEAR

THE NIAGARA'S PERIL

Canada and the United States are Guarding the Falls Jointly"

Mammoth Undertaking.

Historicus.

Readers of The Guardian will peruse with deep interest the extracts we propose to place before them from time to time on the subject of preserving the Great Niagara Falls from ruination by erosion of the banks of the mighty cataracts. Light, therefore, on the subject will be hailed with delight by all patriotic Canadians, and the fact that steps are in progress to check further destruction. No doubt the cost will be heavy, but no one in Canada will grumble at a reasonable and necessary expenditure on saving the greatest scenic wonder in the world.

The document from which we quote is the Special International Niagara Board appointed by the Government of Canada and the United States to investigate and report upon the Falls "begs to submit herewith the following on initial remedial measures which might with advantage be undertaken at the Falls during the following season."

Scope of Activities.

"The membership of the International Niagara Board of Control which since 1923 under the instructions of the two governments, has supervised and controlled the diversion of the water permitted to be diverted under Article V. of the boundary waters of 1909-10, was enlarged from two to five and constituted into a special International Niagara Board for the purpose of carrying on this investigation. Joint terms of reference were agreed upon by the two governments in October, 1926, and were referred to the Board for action.

"The objective of the Special Board's investigation was, in brief, the determination of how the scenic beauty of the Niagara Falls and Rapids can be maintained and by what means and to what extent the improvement thereof by erosion can be overcome and consistent with the preservation and consistwith the preservation of the beauty of the Falls and River of determining what quantity of water additional to that permitted to be diverted by the Boundary Waters Treaty, might be diverted either temporarily or permanently.

'Scope of Report.

"While the investigation of the Special Board are not complete, they are sufficiently advanced to permit of the submission at this time to the two Governments of certain conclusions and recommendations with respect to initial remedial measures which might be profitably undertaken in the immediate future.

"Conditions at the Falls

"The general appearance of the Falls has been the subject of serious consideration by the two governments since 1905. General conditions have been developing which have rested directly upon their scenic beauty.

"Survey made in 1764, 1842, 1875, 1906, 1917, 1925 and 1927, indicate a continuous recession of the central portion of the crestline of the Canadian or Horseshoe Falls. The effect of this reunion has been to lengthen the crest and to leave the flanks of the Horseshoe on either shore more or less denuded of water, the degree depending upon the total volume of the flow over the flows." And much more comment which we cannot quote at present.

It apears that the damage being done is diverted in the two Horseshoe Falls—Canadian and American—so that the proposed rebuilding must be done conjointly.

Both nations and the Home Government are speaking of the necessity of the work quite harmoniously which augurs well for amicable and substantial carrying out of the project.

It will stir up patriotism on both sides of the work——— which felt regret at the reports which have gone abroad of the decadence of the great natural wonder which for centuries have been one object of pride for both nations.

Central Guardian

ARRIVES HOME — Mr. Jack McLeod arrived home last night on a visit to his parents, Mr. and Mrs. John McLeod. Mr. John McLeod and Mr. Arthur McLeod went to Moncton to meet him.

ARANMORE SAILS — The D. G. S. Aranmore, Captain Rhude, left yesterday afternoon for the Straits of Belle Isle with light house supplies furnished by Messrs. N. Rattenbury & Co., R. E. Mutch & Co., DeBlois Bros., and others.

TRINITY UNITED CHURCH — Early prayer meeting at 9.15 a. m., Sabbath School at 10 o'clock. Rev. Dr. Ramsay preaches at both Services, his morning subject being "The Secret of Power". At morning service, Mr. Ben Acorn will sing "A Purer Soul" and "Beautiful Garden of Prayer." The evening soloist will be Mr. Roland Phillipson, his solos being "Heaven is My Home," and "He Wipes the Tear From Every Eye."

WORDS OF PRAISE — "For its size, I believe that Prince Edward Island is the finest farming country in the world." This was the verdict of Thomas A. Barrett, of East St. John, who, with Mrs. Barrett and Mr. and Mrs. Lawless, of Little River, N. B., have just returned after a motor tour of the "Garden of the Gulf." While on the Island Mr. Barrett called on a number of the larger breeders of Yorkshire hogs and dairy cattle and selected some fine young breeding stock to supplement his own herd. The field crops on the Island, Mr. Barrett said, were well advanced and the farmers were optimistic regarding this year's yield. Some of the producers had as many as 150 acres in potatoes on one farm, and agricultural conditions generally seemed to be most prosperous, he added. The amount of clover grown by Prince Edward Island farmers had greatly increased in the last few years, Mr. Barrett said, and this season's crop seemed to be a most abundant one.—**St. John Telegraph Journal.**

ENTERTAINED — A very pleasant event took place at the residence of Mrs. Malcolm Mathieson, 4 Hillcrest Ave., Thursday evening, where her daughter, Miss Della and Miss Mildred Mutch gave a miscellaneous shower in honour of Mrs. Walter Wilson, nee Miss Jane Heartz, who was recently married. Miss Jean Macdonald, the seven-year-old daughter of Mr. and Mrs. Reuben Macdonald, and Master Ernest McCarey, the seven-year-old son of Mr. and Mrs. Ernest McCarey, who had distinguished himself when winning first prize in the baby show over five years ago, acted as bride and groom. Both were elaborately attired for the occasion and they did their part well. They hauled into the drawing room a "covered waggon," gaily decorated in white and gold bearing a large number of gifts for the bride, each gift having attached a card inscribed with a humorous verse. After the presentation of the gifts, fittingly acknowledged by Mrs. Wilson, refreshments were served, and an enjoyable evening was brought to a close by the singing of "For She's a Jolly Good Fellow."

WEDDING— WIGMORE —RHYNES— A very pretty wedding was celebrated at Dunstaffnage on Thursday afternoon, when Miss Anna Rhynes, elder daughter of Mr. and Mrs. Robert Rhynes became the bride of Mr. Robert Pierce Wigmore, Toronto, son of the late Mr. Josiah Wigmore, Graham's Road and Mrs. Ross, Wheatley River. The ceremony took place in the living room, and was performed by the Rev. W. Bruce Muir, St James Church Charlotte town. The bride, who looked most charming in a blue voile, was given away by her father, and was accompanied by her sister Miss Elsie, as bridesmaid. The best man was Dr. George Green, Charlottetown. There were many lovely gifts from friends here and in Toronto. The bridegroom's gifts to the bride were a white gold necklace, ruby pendant and gold bracelet; to the bridesmaid gold bracelet; to the best man, amethyst tiepin set in white gold. The father's gift was a handsome cheque. After the ceremony, luncheon was served in the dining room, Mrs Bruce Muir pouring tea and Mrs. Burnett cutting ices. In the evening a most enjoyable time was spent in music, recitations and dancing. Dr. Green delighted the guests with several readings in his inimitable style. At a late hour the happy couple left to spend their honeymoon visiting the bridegroom's relatives, and later they will proceed to Toronto where they will reside.

PERSONALS

Mr. and Mrs. L. B. Miller have returned from a visit to Nova Scotia and New Brunswick.

Mr. and Mrs. Leo Macdonald, Fitzroy Street, City, left by train Thursday afternoon for Winnipeg, where Mr. Macdonald will attend the Convention of the Canadian Teachers' Federation.

Mrs. Guy Johnson of Montreal, Mrs. Colman Wilson, Montreal; and Mrs. Harry E. Miller left yesterday by the Hochelaga for Wentworth Lodge, Pictou, where they will spend a few days.

Mr. and Mrs. G. Herbert Parker who have been visiting at Lower Montague this summer left yesterday morning on return to Medora, North Dakota. They were accompanied by Mrs. George A. Poole, sister-in-law of Mrs. Parker. Mr. Poole and Mr. G. Herbert Poole accompanied them to the city.

Mr. E. W. Bowness, B. A., and Mrs. Bowness are guests at the Beach Grove Inn. Mr. Bowness, who is a son of Mr. Andrew Bowness of Kensington, and a cousin of Mr. W. A. Stewart of this city is on the engineering staff of an electrical company in Edmonton. He was formerly a teacher in West Kent School.
