The Ideal Laxative for Children

Mothers cannot be too careful in what they give children to move the bowels. Calomel, cascara, senna, salts, cathartic pills, castor oil, and purging mineral waters irritate the bowels—upset the stomach—and eventually lead up to chronic non-action of the bowels—Constipation.

Fruit-a-tives

(OR FRUIT LIVER TABLETS)

are the finest medicine in the world for children.

It is just like giving the little ones apples, oranges, figs and prunes—because "Fruit-a-tives" ARE the juices of these fruits—but so combined that the medicinal action is increased many times.

Fruit-a-tives are perfectly safe for the children. Keep a box always in the house.

SOME REASONS WHY the confidence of the Canadian public in

THE GUARDIAN COVERS THE FIELD

The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.

With a daily circulation of its morning and rural edition—over about 8,000 and growing from day to day, it has broken all records as a daily publication in a small community.

Charlottetown has a population of 12,000 and Prince Edward Island has 108,000. The Guardian's daily circulation is therefore 1 to 14 of population in the city which it is published, or 1 to 13 of the population of the Province. This is, the management believe unequalled by any daily newspaper published in Canada.

Take one or two comparisons with other leading newspapers in other cities and Provinces.

St. John has a population of 40,000 and the Province of New Brunswick 320,000. St. John has five newspapers and among these The Telegraph and The Sun are perhaps the foremost. Each claims a circulation of about 8,000 or say as 1 to 5 of the population of that city and 1 to 40 of the population of the Province.

Or again: Toronto has a population of some 220,000 and the Province of Ontario about 2,225,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 20,000. That is as 1 to 5 of the population of Toronto and 1 to 4 of the population of Ontario.

The point is this that The Guardian covers the field of its circulation three and a half times as well, if compared with population of the city and over three times as well, taking the population of its Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.

These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertising patrons like. They have a right to know how completely their favorite Journal is endorsed by the reading public among whom it circulates and how completely it covers the field of an advertising medium in this City and Province.
