POTA TO MARKETING SCHEME IS FAVOURED

BREAKS OWN SPEED RECORD

Italian Air Ace Sets New Mark of 437 Miles An Hour.

(A. P. By Guardian's Special Wire)
DESSINZANO, Italy, Oct. 23.—The "Crazy Boy" of Italian aviation, 32-year-old Lieutenant Francesco Agello, scooped through space today faster than ever man has flown before.

In the crisp autumn air over Lake Garda he roared his low-winged, big-nosed seaplane, constructed in greatest secrecy, at 437 miles an hour, unofficially, to better his own world's speed mark by 13 miles an hour.

Agello, who won his nickname "Crazy Boy" in death-defying aerial performances of the past few years, set the old mark of 82.078 kilometres (42.322 miles) an hour April 10, 1933.

The ship was the same one Agello used in setting his last record, but it had undergone secret alterations to prepare it for another speed attempt. A new Fiat A 8-V type motor, developing 3,500 horsepower, drove it in today's flight.

Agello, who won his nickname "Crazy Boy" in death-defying aerial performances of the past few years, set the old mark of 82.078 kilometres (42.322 miles) an hour April 10, 1933.

BUSINESS TREND STEADILY SHOWS IMPROVEMENT

Canada Facing Last Quarter Of Year With Increased Business Activity Bank Letter States.

(C. P. By Guardian's Special Wire)
MONTREAL, Oct. 23.—Canada has entered upon the last quarter of the year with conditions in production, distribution and consumption distinctly better than during the previous two years, says the monthly business summary of the Bank of Montreal issued today. Volume of business in general has been well maintained.

While crops the country over are again below average, the summary proceeds, they are somewhat larger than last year and selling at higher prices, so that the buying power of the farm population should be increased during succeeding months to the advantage of the trade generally.

JAPAN BASES NAVAL PLANS ON EQUALITY

(C. P. By Guardian's Special Wire)
LONDON, Oct. 23.—The long awaited naval discussions opened today with the Japanese laying down before the British their claim to the right to equality in principle with the navies of Britain and the United States. The Japanese next meet the United States representatives and later will see the British again.

At a meeting presided over by Prime Minister Ramsay MacDonald the Japanese today told British officials they desired to put in place of the existing Washington Treaty an entirely new treaty under which navies would be limited by total maximum tonnage, instead of on the ratio system for different categories of vessels, by which Japan at present is restricted on a 5-5-3 ratio with Britain and the United States.

STRATOSPHERE BALLOON CRASHES

Picard Flight Termed a Success As Instruments Escape Damage.

(A. P. By Guardian's Special Wire)
GADIZ, O., Oct. 23.—The stratosphere flight of the Jean Picard came to an end in a treetop today. The balloon was badly torn but the gondola and valuable instruments were undamaged and the Picards themselves were unhurt.

The Picards, saying they believed the purpose of their flight had been accomplished, brought the huge bag down after a flight that started from Detroit and carried them an estimated 10 miles into the air.

Long Delay In Hauptmann Trial Seen

(C. P. By Guardian's Special Wire)
FLEMINGTON, N. J., Oct. 23.—Bruno Richard Hauptmann, who will be arraigned tomorrow on the indictment charging him with the murder of the infant son of Colonel Charles A. Lindbergh, may not be brought to trial before the first of the year.

The date of the trial will depend largely on whether the prosecution agrees to the request of defence counsel for a delay of four or five weeks. If this is allowed, the trial could not start before Dec. 1, and in that case it would likely be held back until the new year so as not to interfere with the Christmas holidays. The trial is expected to take about three weeks with the state calling 70 witnesses.

DUTCH PLANE CAPTURES SECOND PLACE

(A. P. By Guardian's Special Wire)
MELBOURNE, Oct. 24.—(Wednesday)—A big airliner flying the Dutch flag flashed past the pylons at Flemington race course at 10.52 a.m. today (7.52 p.m., Tuesday, E.S.T.) to capture second place in the England-to-Australia air derby.

In front of wildly cheering crowds which many hours before had greeted the British winners, K. D. Parmentier and J. J. Moll set down their big plane at the airport in an exciting finish to the world's greatest air race. A few hundred miles ahead of Colonel Roscoe Turner and Clyde Pangborn, who were forced down by motor trouble on the last lap to Melbourne.

Growers May Ask For Proclamation By Federal Board

(C. P. By Guardian's Special Wire)
OTTAWA, Oct. 23.—A decision to apply for the setting up of a scheme under the Natural Products Marketing Act to regulate the marketing of potatoes in Eastern Canada was practically reached at today's session of the potato conference. Representing growers, dealers and governments in Nova Scotia, Prince Edward Island, New Brunswick, Ontario and Quebec the conference is attempting to work out a plan of orderly marketing for the present bumper crop in order to ensure the farmers as good as possible a return.

After long discussion it was decided compulsory inspection of potatoes marketed in Ontario and Quebec would be practicable. Compulsory inspection is already in effect in the Maritime Provinces and has been for some years. With this latter applied to the two central provinces it is hoped to bar low grade potatoes, the small ones and the over-sized ones from the market and thus remove a part of the potato surplus. The consumer would get a better product and the farmer a better price for his good potatoes.

ANNOUNCEMENTS, COMING EVENTS, MEETINGS, ETC.

- Announcements are inserted in this column at 2 cents per word strictly payable in advance.
- Show—Bradabane Thursday, L-1425-10-24-31.
- Show—Cance Cove Friday, L-1425-10-24-31.
- Show—Mt. Stewart Saturday, L-1425-10-24-31.
- Chicken supper, Lot 65, Wednesday, Oct. 24th, L-1381-10-20-41.
- Dance in Forest Hill Hall, Friday, October 26th, L-1488-10-24-11.
- S. P. C. A. meeting Wednesday at 8 P. M. in City Hall, L-1420-10-24-31.
- Masquerade Dance, Lorne Valley Hall, Friday, October 26th. Prizes awarded, L-1440-10-24-31.
- Chicken Supper and Dance in Iona Hall, Monday, October 29th, L-1460-10-24-31.
- Chicken Supper in Afton Hall, October 25th instead of 24th. Note change of date, L-1445-10-24-11.
- Mushrooms for sale, St. James Hall, Wednesday, tickets at door, 40 cents, L-1444-10-24-11.
- Delicious Candy and Christmas Novelties for sale at St. James' Guild Tea, Thursday, 6 to 7, tickets 40 cents, L-1410-10-23-21.
- Special big dance, Victoria Hall, Wednesday, 24th. Old time and modern dancing, Chippewa, L-1471.
- Borden Line Club loading hogs, hams, calves, Albany, Wednesday, Oct. 24th. Bacon hogs for sale, L-1396-10-23-21.
- Disposing of quilt and program in Sea View Hall, Thursday, October 25th. Admission 15 cents. Weather unfavourable, Friday, L-1383-10-23-21.
- Brackley Hall, Wednesday, October 24th. Chicken Supper from 5 to 10. Musical entertainment. Admission 30 cents, children 20 cents. If stormy, Thursday, L-1391-10-23-21.
- I will be buying live and dressed poultry every day except Saturday, also buying eggs on grade. Paying highest market prices. Signs graded while you wait. (Signed) H. B. Culliffe, L-1461-10-23-31.
- Young Man if you will deny yourself cigarette smoking you can pay for three thousand extra insurance. Why not make the exchange. Consult J. A. Moore, Mgr., Sun Life, Charlottetown, L-10-10-11.
- Livestock Marketing Board meeting during week of October 29th to 31st. Officers: W. G. H. Murray, Murray River, Souris, S.K. Peter, usual hours, Wednesday, noon, Kensington. Hog and lamb prices on upward trend. Livestock Secretary, Full cars better returns, L-1468.

Wheat Marketing

Wheat marketing in the Prairie Provinces since Aug. 1 has been slightly larger than last year. 64,203,000 bushels against 63,806,000 in 1933, but exports have been smaller. 32,193,000 bushels against 36,949,000 bushels last year. As a consequence the visible supply became 234,728,000 bushels on Oct. 12, compared with 242,995,000 bushels at the same date last year.

Newspaper production in Canada during September was down in August, but 16,172 tons greater than in Sept. 1933.

Exports of motor vehicles and parts in September had a value of \$1,860,000, a 51 per cent increase over Sept. 1933. In the six months ended Sept. 30, exports amounted to \$11,847,000 against \$5,399,000 in 1933.

Value of building contracts and building permits were down in September, compared with August, but that is a seasonal trend. At \$3,019 long tons, pig iron production in September was higher than in the preceding month or in Sept. 1933.

Car Loadings

Car loadings in the five weeks ended Oct. 6 were 247,528, an increase over 231,551 cars in the same weeks last year.

Retail sales of merchandise advanced three percent in August over July, although the usual seasonal trend in August is downward.

The United States dollar has increased in value on foreign exchange, the discount in Montreal declining from three percent to two percent. Sterling declined from \$4.86 to \$4.81, while French francs advanced from 6.48 cents to 6.51.

Demand Change

The present changes putting Japan's navy on an inferior ratio basis to those of the United States and Britain are no longer acceptable to Japan, it was stressed. The ratio policy she considers derogatory to her national security. She wants the right to raise her naval forces to the level considered necessary for her national security.

The Japanese intend to abrogate the Washington treaty by agreement with other powers, the Japanese said; but if this agreement is impossible, then Japan will abrogate the treaty unilaterally. The treaty may be abrogated on two years' notice, which cannot be given before Dec. 31.

OLD COINS STOLEN

(C. P. By Guardian's Special Wire)
WOLFVILLE, N. S., Oct. 23.—Theft of a collection of valuable French and English coins in circulation when the French-Canadians were expelled from Nova Scotia was discovered today by the caretaker of the Grand Pre Memorial Church. The coins were kept inside the church. Their exact value is unknown.

Catholic Youth Protest Against Nazi Church Rule

COLOGNE, Germany, Oct. 23.—Revolt flaring against Nazi church rule spread today to the Catholic youth, recently claimed for Hitlerism, as 30,000 delegates to Catholic youth day here staged tumultuous demonstrations of fealty to their leaders.

The meeting, one of the most impressive held in years, gave abundant evidence that Roman Catholic youth are rebelling against Hitlerism. A police ban on outdoor activities of the Catholic Church was lifted as authorities granted permission for the procession. Observers saw in today's celebration direct challenge to Hitler's youth leader, welcomed to Cologne "sons of thousands" of Von Schirach and his Hitler youth, which demonstrated at Cologne, entering the altar, but today the latter's youth.

SHIPS RUSH TO AID OF OIL TANKER

(A. P. By Guardian's Special Wire)
SAN FRANCISCO, Oct. 23.—Two rescue ships pounded through today to the aid of the oil tanker Larry Doherty, with 40 men aboard, which wrecked on a reef, but went ominously silent as mountaineers battered her to helplessness.

Nearest was the Gold Star, United States naval transport, 260 miles away from the stricken craft, but able to make only 11 knots—nearly a day away. Some 650 miles distant was the Olympia, bound out from Tacoma and able to make only 10 knots, three days away.

Ominous Silence Follows SOS Flash From Tanker In Typhoon Area.

(A. P. By Guardian's Special Wire)
SAN FRANCISCO, Oct. 23.—Two rescue ships pounded through today to the aid of the oil tanker Larry Doherty, with 40 men aboard, which wrecked on a reef, but went ominously silent as mountaineers battered her to helplessness.

Nearest was the Gold Star, United States naval transport, 260 miles away from the stricken craft, but able to make only 11 knots—nearly a day away. Some 650 miles distant was the Olympia, bound out from Tacoma and able to make only 10 knots, three days away.

DR. HARVEY AGNEW INJURED

TORONTO, Oct. 23.—Either slipping or losing his balance while removing a box of geraniums on a ledge outside his office at 184 College Street, Dr. Harvey Agnew, Secretary of the Department of Hospital Service of the Canadian Medical Association, was injured today. He fell from the ledge, twenty feet to the ground, suffering a fractured spine on Saturday morning.

The fracture, however, occurred at a point on the spine where no permanent injury will result, but Dr. Agnew will have to undergo a long convalescence.

When picked up on the lawn, Dr. Agnew was in an unconscious condition, and was rushed to the Toronto General Hospital in an ambulance. He recovered consciousness soon after admittance and is reported to be resting fairly comfortably.

Dr. Agnew was removing a window box of geraniums from a three-foot ledge outside. He was attempting to climb out the window backward when he fell. He luckily escaped hitting some steps directly below the window and struck the lawn.

Several medical associates hurried to the hospital to offer their aid.

Power Gone

"Power going, please hurry," was the first message from the Larry Doherty, at 9:10 a. m. P. S. T. "You are the nearest ship; please proceed with assistance as possible haste," said the second message addressed to the Olympia, 21 minutes later.

"Our lights are going out; bridge going; will stand by until power is gone," was the last message, at 9:50 a. m.

Owned by the Richfield Oil Company, the Larry Doherty, of 7,088 gross tons, left San Pedro, Calif., for Manila Sept. 22 under command of Captain Charles Wilder.

GLAD TIDINGS FROM GLACE BAY

Mrs. C. C. Ogilvie, Glace Bay, writes: "The batters lighter and a more even texture. I can heartily endorse it."

HEAVY RAINS DELAY FLYER

(A. P. By Guardian's Special Wire)
SUVA, Fiji, Oct. 24.—(Wednesday)—Air Commodore Sir Charles Kingsford-Smith, famous Australian flyer, and Captain P. G. Taylor, navigator, hopped today from Albert Park for Nasesel Beach, 20 miles, preparatory to taking off for Honolulu in continuance of their flight of 7,865 miles from Brisbane, Australia, to Oakland, Calif.

At Nasesel Beach they planned to take a full load of fuel aboard their plane, the Lady Southern Cross, and leave within a few hours for Honolulu, 3,197 miles over a waste of the south Pacific, sparsely dotted with coral and volcanic islands.

The aviators have been held at Suva since Sunday evening by heavy rains, after completing a hasty flight of 1,760 miles from Brisbane.

Sir Charles hoped to reach Honolulu in continuance of their flight of 7,865 miles from Brisbane, Australia, to Oakland, Calif.

At Nasesel Beach they planned to take a full load of fuel aboard their plane, the Lady Southern Cross, and leave within a few hours for Honolulu, 3,197 miles over a waste of the south Pacific, sparsely dotted with coral and volcanic islands.

The aviators have been held at Suva since Sunday evening by heavy rains, after completing a hasty flight of 1,760 miles from Brisbane.

Turnip Marketing

With this year's potato crop 7,500,000 bushels larger than last year, the turnip crop is expected to be 10 per cent larger than last year.

Minister May Act

The delegates had an interview with Minister of Agriculture Robert Weir today and expect to meet the Dominion Marketing Board tomorrow. A tentative marketing scheme has been drawn up but some discussion has arisen as to whether a speedier and more satisfactory action might be obtained by having the minister proclaim a scheme on his own initiative rather than act on the application of representative groups of producers. The minister has power to recommend a scheme to the cabinet of his own initiative if he considers trade and commerce in a commodity is injuriously affected.

Reported Down

Meanwhile from the interior came a flash that Turner and Pangborn were forced down at Bourke with engine trouble, not more than a third of the distance from Charleville to Melbourne.

Island Delegates At Ottawa Conference Give Assurance Of Favorable Attitude In This Province - Turnip Marketing System Also Discussed.

(C. P. By Guardian's Special Wire)
OTTAWA, Oct. 23.—A decision to apply for the setting up of a scheme under the Natural Products Marketing Act to regulate the marketing of potatoes in Eastern Canada was practically reached at today's session of the potato conference. Representing growers, dealers and governments in Nova Scotia, Prince Edward Island, New Brunswick, Ontario and Quebec the conference is attempting to work out a plan of orderly marketing for the present bumper crop in order to ensure the farmers as good as possible a return.

After long discussion it was decided compulsory inspection of potatoes marketed in Ontario and Quebec would be practicable. Compulsory inspection is already in effect in the Maritime Provinces and has been for some years. With this latter applied to the two central provinces it is hoped to bar low grade potatoes, the small ones and the over-sized ones from the market and thus remove a part of the potato surplus. The consumer would get a better product and the farmer a better price for his good potatoes.

Trial Shipment Of N.B. Tubers To Egyptian Market

ST. JOHN, N. B., Oct. 23.—The trial shipment of New Brunswick potatoes sent recently to Cairo, Egypt, met with a favorable reception, according to advice received by J. K. King, chairman of the New Brunswick Marketing Board, in a cablegram from the Canadian trade commissioner at Cairo, who also asked for a further consignment of 4,000 bags of Cobblers by the next steamer.

Premier Tilley said the cablegram had read as follows: "Re: trial shipment. Potatoes arrived in excellent condition. Favorable reception. Net to shipper, \$8, 50, 00 a ton, C. I. F., near ruling price. Can you consign first steamer 4,000 bags Cobblers, same pack. Prospect limited as local crop on the market middle of November. Egypt prefers yellow tawny Canadian potatoes."

Mr. King's comment regarding the cablegram, the premier stated, was that the prices named in the message would be New Brunswick growers considerably more than local sales.

BATTLE EPIDEMIO

(C. P. By Guardian's Special Wire)
INVERNESS, N. S., Oct. 23.—After a week of battling epidemic of measles, Dr. James Proudfoot, town health officer, reported tonight that many school children were still under medical care and the date of reopening the town schools was uncertain. The schools were closed last week.

P. E. I. Favorable

Prince Edward Island delegates were able to assure the conference of good support from that province. They stated there was no danger of the thing being made a political issue as Liberal senators had supported the application of the Marketing Act to potatoes at several meetings of the growers and in the Legislature. The Liberal leader had endorsed the enabling legislation to permit the Marketing Act to operate in the province.

Ontario delegates were not so confident and were somewhat fearful of political complications. No provincial enabling legislation to make the Marketing Act operative had been brought into effect there and the Ontario government had shown a disposition to have nothing to do with this federal enactment.

Turnip Marketing

With this year's potato crop 7,500,000 bushels larger than last year, the turnip crop is expected to be 10 per cent larger than last year.

Medico - Legal Expert Testifies At Murder Trial

(C. P. By Guardian's Special Wire)
QUÉBEC, Oct. 23.—Second trial of Nelson Phillips, 19, Gaspé, Que., on a charge of murdering his 15-year-old cousin, Maud Asch, at Gaspé, on August 19, 1933, got underway in the Court of King's Bench here today with evidence from Dr. Rosario Fontaine, Montreal medico-legal expert and Jeremiah Bonin, the fisherman who found part of the girl's body floating in Gaspé Bay.

Maud Asch with her cousin Marguerite Asch, 18, disappeared during the night of Aug. 31 last. Some time later the torso of the younger girl was recovered by Bonin but the body of Marguerite has not been recovered. Phillips stood trial here, was convicted and sentenced to be hanged by Chief Justice R. A. E. Greenfield, Montreal. The youth appealed and was successful in obtaining a new trial.

After Valmore Bienvenue, K.C., Crown prosecutor, outlined what the prosecution intended trying to prove against accused, Dr. Fontaine was called to the stand. He said bloodstains found on the seat of a rowing boat Phillips was supposed to have used on the night of the disappearance of the girls were human. Under cross-examination, however, he testified the stains might possibly be the blood of fish mixed with some oily substance.

Bonin related how he had found the torso of the girl when fishing on Oct. 28, 1933 in Gaspé Bay.
