MANY readers of THE GUARDIAN will regret to learn of the death of Mr. John S. MacLeod which took place at Orwell on 21st inst. Though the deceased had been ailing for some time the news of his death came as a shock and surprise to the neighborhood of which he was one of the oldest and most respected residents. Characterized by integrity and uprightness, a largeness of heart and a readiness to support every good cause, he won and held the esteem of the community and his removal is universally regretted. The large attendance at the funeral in spite of unfavourable weather manifested the regard in which he was held. The services were conducted by his pastor, Rev. A. J. MacNeill who was assisted by the Rev. D. M. Campbell. Reference was made to the character of the deceased as a Christian and citizen and more especially to his triumphant witnessing to a Saviour's faithfulness at the time of his passing away. He leaves a widow, five sons and two daughters. Four sons reside in the United States. The others are Malcolm R. MacLeod on the homestead, Mrs. Samuel Campbell, Kinross and Mrs. Gillis, Montague Head. They have the sincere sympathy of their many friends in their bereavement.

It is reported that Mr. Chas. Buchanan of New Perth while out hunting a few days ago encountered quite a large bear in that vicinity. Bears are scarce in this part of the country.

POSTPONED—The lecture and basket social in aid of the Indian River Church Fund, which was to have taken place at Kensington, on Monday 25th, has been postponed until Tuesday Dec. 3rd. Hon. D. A. McKinnon, M. P., is to deliver his popular lecture on Coles and Whelan. Every one in reach should hear this lecture. There will also be a short program of vocal and instrumental music and the sale of baskets. A special train from Summerside, cheap fares and a good time.

The Hampton Presbyterian Church social, which was postponed owing to the sudden death of one of the church's most active and interested ladies, the late Mrs. Neil Shaw, was held last Wednesday evening and was quite a success. And though it was so apparent amongst those present that kindly sympathetic thoughts of their late friend were not lacking, and everyone felt the presence of a vacant chair, still on they hustled with a pleasant word or kindly action for every one, just as our dear one's gone would have us do, and the hours sped. The social took the form of a donation party and Mrs. (Rev.) G. C. Robertson was the proud recipient of many handsome and most valuable gifts. Mrs. Robertson was heard to say that those beautiful articles were doubly dear to her, given as they were by her numerous friends. We noticed some dollar bills interspersed; those we are sure would be equally valued. The ladies had nothing lacking in their baskets.—J. R.

Cause of Deafness.

The Most Common Cause Only Recently Discovered.

It has been stated on good medical authority that nine tenths of cases of deafness are caused from catarrh or from sore throat trouble.

The little tube, which leads to the ear from the throat is lined with a sort of velvety structure called mucous membrane. This membrane is simply a continuation of the mucous membrane lining the throat. When disease of any sort attacks the mucous membrane of the throat it is very liable to extend into the Eustachian tube and up into the ear.

The history of nearly all cases of deafness is like this: a cold is contracted and neglected, other colds are taken, the throat becomes sore and inflamed, which is aggravated by particles of dust and germs from the air. This condition causes the disease to spread into the tube that leads to the ear. It seems a little far fetched to say that most cases of deafness are caused from catarrh, but it is certainly true, and anyone who has had a severe catarrhal cold must have noticed how the hearing was affected while the cold lasted.

With catarrh sufferers this impairment of hearing becomes chronic and grows worse the longer the catarrh is neglected. You can cure catarrh and deafness by the regular use of an excellent new preparation called Stuart's Catarrh Tablets, composed of antiseptic remedies which act both on the mucous membranes but principally and most effectually on the blood, eliminating the catarrhal poison from the system.

People whose hearing is defective may think it a little remarkable that a simple and harmless tablet would very often remove all traces of deafness, but when it is remembered that catarrh causes the deafness and that the catarrh is easily cured by the regular use of Stuart's Catarrh Tablets there is no mystery about it.

If you are subject to nasal catarrh or catarrh of throat, bronchial tubes or catarrh of stomach and liver, the safest and most effective treatment is the new catarrh specific, Stuart's Catarrh Tablet sold by all druggists at 50 cts. for full sized package.
