CABLE CONNECTION IS BROKEN

(Special to The Guardian)
LONDON, Sept. 30.—A despatch from Copenhagen says the cable connections between Sweden and Germany have been interrupted since yesterday, as a consequence, it is stated, of the great gale prevailing.

The Danish Government is issuing a domestic state loan of \$15,000,000.

EXCELLENT RECITAL AT ST. JAMES'

In St. James' church last evening, before a large audience, a magnificent organ recital, under the able and masterly direction of Professor Frank T. Watkins, was given in aid of the patriotic fund. A silver collection was taken at the door and the handsome sum of \$70 was realized. The programme was brisk and exceedingly well rendered, and throughout the evening there was not a single dull moment. The contributors all gave an excellent account of themselves, and abundant praise is due Professor Watkins, whose untiring efforts and exceptional skill were undoubtedly responsible in a great measure for the success of the performance. Miss Helen Hughes (violinist) and Miss Marjorie Gane (vocalist) were both splendid, and their contributions were received with liberal applause. Mr. Robt. T. Rice, of Toronto, who at the last moment kindly consented to take part in the programme, proved a big surprise. His songs were given a loud, long and hearty applause.

The first organ solo was the celebrated "Pillgrim's Chorus" from Wagner's opera "Tanhauser." It was a masterpiece and was excellently rendered. Two lovely "cradle songs," one Norwegian and one Polish, representing very faithfully the characteristics of both nations, were given and were both loudly applauded.

The "Rustic Dance" and "Thanksgiving," taken from the Suite by the French composer Debussy, were splendid examples of the modern French school. The "Narcissus," by Noyon, was a transcription of a well-known popular piano solo, while the "Scherzo," by J. S. Bach, written in the form of a canon, was a notable contrast. The finale, "Fanfare," by Lemmens, as its name indicates, was a trumpet piece of exceeding brilliancy and formed a fitting conclusion to the programme.

Miss Marjorie Gane's violin solos were all excellent. "The Legend," by Bohm, and "Romance," by the Swedish composer Svendsen, both being splendid examples of emotional writing. These were both executed with the utmost brilliancy and fervour by Miss Gane, who proved to be a consummate artist, in her second solo especially electrifying the audience.

Miss Helen Hughes was at her very best in the Schubert songs, "Hark, Hark the Lark," the "Serenade," the latter taking an unusual turn through the sympathetic violin obligato of Miss Gane. Miss Hughes also sang "Love's Coronation," by Florence Aylward, with great charm.

Mr. Robt. Rice, of Toronto, the last-hour addition to the programme, came as a welcome surprise to the audience. His magnificent voice was heard to great advantage in a patriotic song, "A Song of Canada," by Semon. This roused the audience to a high pitch of enthusiasm, bringing forth loud and well-deserved applause. His second song, "Down the Vale," by Mohr, was equally well given and was thoroughly enjoyed by everyone.

Following is the programme:

GERMAN SOLDIERY DOESN'T LIKE HEROISM

LONDON, Sept. 30.—German tales of tragic episodes of the war were issued by the Official Press Bureau to-night. The stories taken from a book called "Kriegschronik" which was seized from aliens entering English ports. The book consists, according to the Bureau, "partly of a highly untrustworthy chronicle of the war, and partly of soldiers' letters from the front."

"As showing the methods of thought of the enemy these last have considerable value," continues the Bureau. "It is not the truth or falsity of the tales that matters, but the applause and self-congratulation of the writers on deeds of gross treachery and cruelty, claimed to have been done by themselves or comrades."

The narrative of an artillery officer, on the extermination of a Belgian village, was given out by the Bureau, follows:—
"The countryside was full of our troops. Nevertheless the stupid peasants must need shoot at our men, as they marched by, from lurking places. Day before yesterday morning the Prussian troops surrounded a village, put the women, children and old people aside, and shot all the men. The village was then burned to the ground."

"The story of the shooting of a boy scout is given as follows:—
"A traitor has just been shot. He was a little French lad, belonging to one of the gymnastic associations which wear the tri-coloured ribbons, a poor young fellow who, in his infatuation, had taken to the Germans."

"As the German column was passing along a wooded delfle he was caught and asked whether the French were about. He refused to give any information. Fifty yards further there was a fire on the cover of the wood. The prisoner was asked in French if he had known that the enemy was in the forest, and he did not deny it."

"He went with a firm step to a telegraph pole, and stood against it, a green vineyard at his back, and received the volley of a firing party with a proud smile on his face. Infatuated wretch, it was a pity to see such wasted courage."

It is now confirmed that the first Lord travelled to Portsmouth and left on a battleship for the North Sea where he visited the British fleet and conferred with Admiral Jellicoe.

The two Lords of War have thus been to the front. Lord Kitchener to Paris and Mr. Churchill to the North Sea.

BRITISH STEAMER SUNK.

LONDON, Oct. 1.—The German cruiser Leipzig sank the British steamer Burt's Hotel off Peru. The crew was saved.

VON KLUCK'S FORCES IN PRINCE COUNTY EXHIBITION DIFFICULT POSITION

The Allies are Apparently Tightening the Girdle That is Either Going to Surround the German Army or Going to Drive it into Germany. Indian Troops Have Landed. Situation Improving for the Allies.

6,000 WOUNDED GERMANS.

LONDON, Oct. 1.—The Copenhagen correspondent of the London News wires that 6,000 wounded Germans have arrived in Cologne. The great Exhibition building has been transformed into hospitals, where the wounded are being cared for. Most of the wounded are victims of the progress for the last sixteen days along the Aisne. In many instances they had legs blown off by exploding shells.

The correspondent adds that Cologne is in a panic, fearing raids by British aeroplanes. The city is also suffering from spy fever, 20 suspects having been shot in one day.

INDIAN TROOPS NOW IN FRANCE.

LONDON, Oct. 1.—The War Information Bureau made it known today that Indian troops were landed in France last Friday. The point of landing is not stated, but it is presumed the troops disembarked at Marseilles.

RELATIONS WITH TURKEY.

LONDON, Oct. 1.—The Foreign Office issued a statement tonight stating that the report published in London today saying the situation between Turkey and Britain and the Allies was critical, was not authorized and did not represent the views of the Government.

CHURCHILL VISITS FLEET AT SEA CONFERS WITH ADMIRAL JELICOE.

LONDON, Oct. 1.—The navy character of England's First Lord, the Right Hon. Winston Churchill, was demonstrated long since when he flew in an aeroplane and obtained his pilot's certificate.

Now he has gone a step further. For a week there has been no mention of his movements. No paper in England chronicled the fact that he had left London, though it was generally known that he had left.

It is now confirmed that the first Lord travelled to Portsmouth and left on a battleship for the North Sea where he visited the British fleet and conferred with Admiral Jellicoe.

BATTLE AT CRACOW.

VIENNA, Oct. 1.—The battle of Cracow began today, when the advancing Russian army arrived at the outlying forts and were immediately attacked by the combined German and Austrian armies. Indications are that the battle will be long drawn out and bitterly contested, as the German forces are very strongly entrenched and well equipped.

SUMMARY OF THE SITUATION

Although the war news is meagre and in many ways unsatisfactory, there are indications that the battle of the Aisne, the most sanguinary battle in the world's history, is nearing an end and that the end will be the defeat of Von Kluck's army. The censorship is very strict, but enough has come through to show that important developments are pending, and with these developments the arrival in France of Indian troops in addition to the reinforcements going through from England will have much to do.

The battle of Cracow has begun, and military experts predict it will be a long and bloody one, the Austrians and Germans being strongly entrenched.

Train loads of wounded Germans, 6,000 in the last lot, are bringing the truth home to the Germans. Italy has not yet entered the field. Turkey is openly showing her sympathy with Germany, while Roumania has all but defied Germany. Roumania will likely be in the field shortly, and with her probably the remaining Balkan States.

CONTRABAND OF WAR.

WASHINGTON, Oct. 1.—The United States Ambassador Page, at London today called the State Department that the British Government intends to treat as conditional contraband of war the following:—Copper, unwrought; Lead, pig, sheet or pipe; Glycerine; Ferrocene; Haematite iron ore; Magnetic iron ore; Rubber. Hides from skins, raw or rough tanned (but not including dressed leather).

"WE'LL SPEND XMAS IN BERLIN," RUSSIAN GENERAL TELLS MEN.

ROME, via Paris, Oct. 1.—"Cheer up, we'll spend Christmas in Berlin," is the encouragement which General Rennenkampf has offered to his men according to a report received here from Russian headquarters. The general professed this word of cheer for the purpose of helping his officers and soldiers stand fast during the present discomforts and sufferings of winter.

BRITAIN SERVES NOTICE ON THE UNITED STATES.

WASHINGTON, Oct. 1.—Great Britain's intention to seize goods which may be classed as conditional contraband of war, specifically destined for Germany or Austria, even when such shipments are carried to neutral ports, was announced at the State Department yesterday by Sir Cecil Spring-Rice, the British ambassador.

The ambassador called to explain despatches stating that two cargoes of copper shipped from the United States to the Krupp gun works in Germany, via Holland, had been seized and diverted to England. He said it was said the copper was to be used in connection with the manufacture of torpedoes, and it came distinctly under the classification of conditional contraband. Payment for the full value of the cargoes has been remitted to the American shippers, and it is understood that a similar course will be pursued in such cases in the future.

Earlier in the day the senate had passed a resolution, introduced by Senator Smoot, asking the State Department to report whether the British Government was interfering with shipments of American copper in neutral ships to Rotterdam.

BELGIANS DRIVE GERMANS BACK.

ANTWERP, Oct. 1.—Belgian troops in a series of successful sorties from the southern forts late today captured artillery and killed and wounded a large number of Germans. The Germans had been shelling the forts, which, after a time, in accordance with a prearranged agreement, apparently ceased firing. The Germans rushed forward to an assault, only to be met with a withering fire from the forts that caused them to retreat hurriedly.

MOVEMENTS OF ARMIES IN BATTLE OF AISNE

who successfully carried out an attempt to bend the French line at this point. Other offensive movements of the French between Verdun and Toul were according to German reports repulsed. In Lorraine and in Vosges there is no change in the situation and here the armies seem awaiting the result of the contest further west, where the British Military experts believe the Allies have at last firmly set their left in the German right wing under Gen. Von Kluck. The Russian armies continue to sweep through Galicia. According to a report from Rome tonight the province of the Austrian Empire is clear of Austrian troops. What is meant is that the field armies of Austrians have either gone into the fortresses of Przemyśl and Cracow or retreated to the south and west. The Russians come across the country in great parallel lines and making Przemyśl, have swept the country clear as far as the line drawn from Douklo to the south to the neighborhood of Rzeszow in the north, while other forces pushed through the Passes of the Carpathians into Hungarian territory. They have only to go a little further to get possession of the railway from Sandec through the Mountain from Sandec through the mountains to Lublana, thence through the heart of the country to Budapest. If they accomplish this they will be able to join hands with the army approaching Cracow. According to Petrograd correspondents they intend to treat Cracow as they did Przemyśl and continue their march into Silesia. In the meantime they have for a week been fighting the Germans along the river Niemen, between Kovn and Grodne and have so far held them in check, while reinforcements have been reaching them. The battle is described as a further one, no details being allowed to leak out. The German object in sending a strong force in this direction is to attempt to cut the railway line from Warsaw through Vilna and Grodne to Petrograd.

The Germans are busier than ever in France and Russia they have begun an attack on the outer forts of Antwerp. For two days they have been shelling the forts which cover the road from Malines to Antwerp. Behind Waeshem are waterworks to supply Antwerp but even the devastation of those would not be fatal to the fortress as a good supply of water has been provided from another source. Concerning the progress of this attack official reports give wide different accounts.

The Belgians say the German attempts to advance have been repulsed and their shells had no effect on the forts. On their part the Germans declare that Belgian sorties have been driven back. Probably will be some days yet before the Germans will bring a full force of artillery to bear and not until then can it be judged whether the forts can stand the fire of big modern siege guns. The Germans agree not to damage or destroy historical monuments or churches, if the Belgians agree not to use them for military purposes. Sowing floating mines by Austria's warships in the Adriatic resulted in the sinking of an Italian fishing boat and the Italian Government ordered a protest in Vienna. The incident has created bitter feeling in Italy where it is said mines have drifted from the Austrian to the Italian side of the Adriatic Terrorizing the fishing industry.

The Marquis De-San-Giuliano for eign Minister and one of the chief friends of the Triple Alliance in Italy is seriously ill. Premier Salandra has taken charge of the foreign office. It is suggested in London that this might be about some change in the policy of Italy as the Premier is said to be in favor of Italy joining with the Allies to which the Marquis De-San-Giuliano is strongly opposed. Several important Austrian towns opposite Belgrade, which the Serbians captured several weeks ago but evacuated when the Austrians threatened them in another quarter, has again fallen into Serbian hands. This will return Belgrade from almost incessant cannonading to which the city has been subjected.

Summerside was crowded with visitors yesterday, the second day of the Prince County Exhibition, and the weather was ideal in every way. The morning was principally devoted to shopping, the stores being widely patronized throughout. Brace, McKay & Co., Ltd., had a fine display throughout their entire store and treated their visitors to sweet music from their lovely gramophones. The trains from the west brought crowds of people from Alberton, Tignish and surrounding districts while a goodly number were in attendance from Charlottetown arriving by special train about 12.15.

During the day the Exhibition building was crowded with interested spectators who spent many pleasant hours looking over the exhibits indoors and out.

The order throughout was all that could be desired and the Exhibition management who were always on the alert and most obliging in every way are to be heartily congratulated on their splendid exhibition of 1914, which was one of the most largely attended for some years.

RACES AT SUMMERSIDE

(Special by Phone)

SUMMERSIDE, October 1.—Good weather attended the race meeting at Summerside yesterday in connection with the Prince County Exhibition. The track, however, was heavy and the time was slow. The races were witnessed by a large and excited crowd.

There were three classes, viz., free-for-all, 2.24 and three-minute. In the free-for-all there were three starters, viz., Vesta Boy, Premier and Helen A. Premier drew the pole in the first heat, the horses getting away on the first start. There was a keen race between the Premier and Vesta Boy, the former winning the heat, the finish being a close one. In the second heat of this race, Premier led till the three-quarter turn, when Vesta Boy came up with a fine burst of speed and took the pole the horses finishing in the following order: Vesta Boy, Premier and Helen A. Premier was set back to third position for interfering with Helen A. Premier's stretch. In the third and fourth heats of this race Vesta Boy won easily, with Helen A. second and Premier third, Vesta Boy thus carrying off the race.

Three horses started in the 2.24 class—King Brazilian, Happy George and George Crecesus. After considerable scoring they were sent away for the first heat, Happy George took the pole, King Brazilian second. At the first quarter King Brazilian made a bad break and George Crecesus pulled up to second position. The three horses bunched up in the finish, Happy George winning with Crecesus second and King Brazilian third. In the second heat the driver of Happy George did not hear the word "go" and pulled up his horse; under the circumstances he was allowed to go the course and start again; there was a good race between King Brazilian and George Crecesus, the former winning the heat. In the third heat King Brazilian early took the lead with George Crecesus second. This was the most exciting heat of the day, the three horses being neck and neck until the half was reached, when Crecesus made a bad break and fell, finishing in third position. King Brazilian after a hot fight with Happy George won the heat. The fourth heat was between King Brazilian and Happy George, Crecesus making a number of bad breaks. The heat was won by King Brazilian, with Happy George second. The race was thus won by King Brazilian.

In the three-minute class there were five starters. It took considerable scoring to get them away. Patty Kingword drew the pole, which she held to the finish. There was a good race between Vessey Crecesus and Arkola for second position, when coming down the home stretch Vessey Crecesus came up and finished second, Arkola being third, White Sox fourth and Fernando fifth. The second heat also went to Patty Kingword, an easy win. Patty Kingword led in the third for most of the way but Arkola in the home stretch came up with a burst of speed taking the pole and winning the heat. The second heat making a bad break and falling back. In the fourth heat Patty Kingword which was in fifth position at the start took the pole at the first turn and held this position to the three-quarter turn, when Vessey Crecesus came up and took the lead, winning the heat, with Arkola second, White Sox third, Patty Kingword fourth and Fernando last.

The officials were: Starter, Fred J. Wright; Judges, Harry Darby, Fred Cameron, Theodore Waite; Timekeepers, Roy Silliphant, D. B. McDonald.
