

Campbell's Asthma Cure

This remedy is prepared from a prescription of a distinguished doctor, which was left with us and cannot be obtained elsewhere. It has made some wonderful cures of this very distressing trouble in many instances, the trouble being of many years standing. We know parties who were unable to work that are now alright again after using this remedy.

Price 45 cents. We can put up larger size bottles if desired.

J. G. JAMIESON DRUGGIST

THE CHARLOTTETOWN GUARDIAN

WEDNESDAY MORNING, JANUARY 15, 1908.

THE JAPANESE TROUBLE.

The Japanese trouble on the Pacific coast of Canada is very serious. The brown men show a disposition to come in growing numbers and the white population—the working portion at least—view with alarm the coming of the Axatics. The reason for this alarm was explained by Mr. Smith, a British Columbian member, in Parliament the other day. "The Asiatic can under-live and under-sell the white man," he said. "Today we do not want the Japanese in, not because he is inferior, but because of very different reasons; because industrially and commercially he is our superior."

Why not shut out these troublesome competitors by act of Parliament, imposing a high tax as we do upon the Chinese? The answer is that by treaty with Japan to which Canada became a party we have given to the people of Japan the right to travel, settle and live in Canada and enjoy all the rights of liberty and holding property which British subjects have. Under the treaty a Japanese may claim all the rights and privileges which a citizen of France, Germany or any other foreign country may claim in coming to Canada. The Japanese may come in thousands, or in hundreds of thousands, and remain Japanese and subjects of the Emperor of Japan to the end of their days—under the treaty.

There was some kind of an undertaking or promise given, or said to have been given by the Japanese Consul General in Ottawa, that only a limited number of Japanese would migrate to Canada. This does not bind the Government of Japan. It is the treaty that holds. A written agreement between principals cannot be set aside by the mere word of a subordinate. In any case that promise only related to direct emigration from Japan to Canada. Most of those who have come here have entered Canada from the United States or from Honolulu. Whatever Mr. Lemieux may have effected during his mission to Japan, it is most improbable that Japan has consented to give up her treaty right.

What then can Canada do to keep back Japanese invasion? It is claimed that we can do several things. Among these things it is claimed that we can prohibit immigrants coming to Canada from any country except that in which they were born—that is we may insist that they shall come direct. It is also claimed that we may apply what is called an educational test, for instance we may insist that those who come shall be able to speak the English language. But such tests must be applied to the people of all countries alike. We may not discriminate against Japan, or her people, or apply any test as to race

or color. Such are some of the serious difficulties. The Japanese in Canada or elsewhere are intensely patriotic and will make common cause together to insist on their rights. The present real danger is that further riots may occur on the Pacific coast that will result in blood shed. Canada is responsible and must pay for damage done to Japanese property by mob violence. It ought also to be stated that our right to limit Japanese immigration by insisting on an educational test, or that the immigrants can only come direct is not so clear as to be beyond question. The United States in its treaty wisely had a clause inserted making clear its right to regulate immigration. By a strange oversight the treaty between Japan and Canada contains no such provision.

Toronto Globe.—There is perhaps no greater folly than that of the public man who plays fast and loose with the growing Canadian public opinion against the vicious life.

The Mayor and members of the City Council may well feel proud of the splendid financial showing, completed with the notable civic improvements made during the past year. It is a pleasure to record as it must be a pleasure to our citizens to read the facts as stated in the annual report.

Nova Scotia reports the largest returns ever secured in money value from her farms, orchards and fisheries. At the same time her coal output for the past year is valued at fourteen millions, her steel and iron products at the same figure and other manufacturers at forty millions. This is a splendid showing.

The moving picture entertainments based on low prices for pleasing and often educative or artistic appeals to the eye, have had a marked effect in repressing the theatrical companies. The latter complain that all the theatres and halls are engaged, so that only here and there at wide distances can they get a chance to put on a play. These conditions prevail all over the Maritime Provinces and beyond. The result is a prolonged dearth of the theatrical entertainments which were formerly enjoyed by many.

Public ownership is rapidly gaining ground in Canada, and especially in Ontario. Four years ago sixty-three cities and towns controlled their own water supply and thirty-nine controlled their electric lighting. These numbers have since been steadily increased. The Province has also built a Government railway through Northern Ontario. The vote of Toronto, four to one in favor of the light and power by-law the other day, and the purchase of the telephone lines by the Government of Manitoba all tell the same story.

Minard's Liniment Cures Garret in Cows

HOT AIR HEATING

Was your home comfortable last winter? If not you'll face a chilly opposition again shortly and one of our Improved Hot Air Furnaces will prove a warm friend with the glass below zero. With one of these you can keep the entire winter at an even temperature day and night. On a cold winter's night, the cheerful effect of a well-heated home more than repays you for the cost. It is economical too in the small amount of fuel it consumes for the heat it radiates. Come in and talk the matter over.

Fred H. Trainor, Grafton St. Opp. The Opera House

Against the bad record of the licence towns we place that of Charlottetown with but a single arrest for drunkenness in the first fourteen days of the new year.

Mr. Lewis who represents West Huron in the House of Commons, has proposed that at the next general election two questions shall be submitted to a vote of people. Shall the Senate of Canada be abolished? Shall the methods of appointment of Senators of Canada be altered? The idea of a plebiscite on these questions is a good one, as it will bring the matter of Senate reform into the arena of practical politics. It is not at all likely that a majority would be found in favor of abolition outside of the larger Provinces, if there. But there is a widespread feeling in favor of Senate reform of some sort.

LIFE'S ELIXIR.

A laugh is just like sunshine, It freshens all the day; It tips the peak of life with light, And drives the clouds away. The soul grows glad that hears it, And feels its courage strong— A laugh is just like sunshine, For cheering folks along. A laugh is just like music, It lingers in the heart, And where its melody is heard The ills of life depart. And happy thoughts come crowding, Its joyful notes to greet— A laugh is just like music, For making living sweet!

PREVENT TAKING COLD.

Often you come home, cold and shivering—feet as wet, throat is raw, chest a little sore. A had cold is just beginning. Put a Nervine Plaster on your chest, rub your throat with Nervine, and take a stiff dose of chill, and checks the cold instantly. No remedies so useful to the home, so sure to prevent, serious illness as Nervine and Nervine Plaster. Sold by all dealers 25c each, but be sure you get the genuine and refuse any substitute.
