

INDIGESTION Troubled Him For Two Years

Mr. H. C. Harvey, Novar, Ont., writes: "I have been troubled with indigestion for the last two years. I have taken everything I have seen advertised, but have never had any of them do me so much good as BURDOCK BLOOD BITTERS."

"I have taken six bottles and haven't had an attack since. It is the finest medicine you can take for the blood."

Gaelic songs are sung and the old tales of their forefathers—the grey ocean breaking about the misty Hebrides and the heather purpled mountains of their Highland home—are told once more.

The clansman who made these memories live again were: John MacKenzie, Malcolm MacKinnon, Angus MacDougall, John G. MacFadyen and Donald MacLean.

A step dance was gracefully performed by the nimble feet of Master Clarence Doucette. Such dancing is to many a great relief to watch after viewing the monotonous succession of the customary ball room steps.

Miss Barbara MacNeill, whose consummate artistry both as elocutionist and vocalist, needs no praise here, gave, by request, her delightful reading "A Half hour on the Sea Shore."

Those who were so fortunate as to hear this selection previously welcomed this opportunity of hearing it again. She also rendered a lovely song in her own inimitable manner.

One must add that, in this number she was accompanied at the piano by Miss Roberta Spencer with a superb taste and artistic restraint equal to that of the vocalist.

The concert could not have been the outstanding success that it was, were it not for the most capable direction of Prof. W. E. Fletcher, who accompanied most of the vocal and instrumental numbers in his usual tasteful manner.

Captain MacDougall is also to be complimented on the splendid banjo music that he furnished for the dancers.

Very great credit devolves upon the committee, composed of Messrs. T. White (chairman), S. A. MacLeod, D. J. Macdonald, John K. MacKenzie, John Anderson, Aben MacLean, George P. Nicholson and T. M. MacMillan, secretary. Their painstaking attention provided the audience with a delightful entertainment.

The concert will be repeated to-night—also, one may be sure of a full house.

F. Worthy 141 112 154 Total—2553. Majority for Y.M.C.A. 721 pins.

CITY LEAGUE PLAY-OFF The Y. M. C. A. succeeded in defeating the Telephone by a majority of 715. The "Y" team rolled the high records of 1053, 1041 and 1173. This latter is just 18 pins short of the alley record. The total of 3267 made by this team advances the alley record by 143 pins. The former high record was held by United Church team of last year. J. A. Bentley had extra high single of 315 and total of 741. The scores are:

Table with 2 columns: Name and Score. Includes J. Cameron (172 184 241), R. L. Day (141 150 179), T. Howatt (162 242 218), R. A. Pendleton (182 171 225), J. A. Bentley (232 303 172), Total—3267.

L. O. C. BOWLING Last night on the L. O. C. alleys a good game was rolled when the Victorias met and defeated the Anchors by a margin of 117 pins. The game was one of the best and most exciting ones rolled in the tournament and the Victorias took up a big lead in the first two games but the Anchors made a nice attempt in the last game to overcome their opponents but their attempts proved unsuccessful although they put up some splendid scores in the past game they were only able to decrease their big lead by ten pins. In last night's game G. Essory had high total of 335 while G. Essory and C. Kelly tied for high total both having 639 pins.

Following are scores: Victorias J. Hughes 170 140 198, C. Kelly 208 228 203, V. Kelly Holman G. M. 203 213, C. Howatt 185 223 184, W. Carmody 165 151 143, Total—2794.

Anchors J. Chandler 140 131 169, B. Poole 163 174 193, V. Kelly Holman G. M. 167 199 190, G. Essory 235 192 212, V. Gay 137 167 186, Total—2677.

Tenight at 8 o'clock sharp a still better game is expected when the Invincibles meet the Ramblers.

After last night's game a touching solo was rendered by Master Tierney and Harley entitled (Sweet Adeline).

I went in to see her every twenty minutes. The little girl called me at 12.30. She started down stairs. I asked her where she was going. She said the baby was dying. I went in about 10 minutes to one. She looked at me and laughed and died. She was lying in bed gasping when I first looked at her. That's what awakened me, the gasping and tossing. I was 11 years of age. The baby got no other medicines and I know I saw her at 10 o'clock; she spoke to me and appeared the same as when she went to bed.

Irene Bell—I went to bed with the baby at 7 o'clock, and stayed with her. I went to sleep about 10 o'clock; the baby was sleeping all that time. She woke me tossing around in the bed and gasping. I got up and looked for help. I called for Gladys and when we got back to the bed again, the baby was taking her last breath. I have two sisters and a brother left. They were all in the same room. They were awakened too, and when I got up they got up. I didn't go back to bed.

Thomas Malone (sworn). I am a regular qualified druggist. An manager of the Rankin Drug Store. I remember Mr. Bell coming for the medicine on Tuesday last. He asked me for some medicine for a sick child, 3 1/2 years old. He said she had a wheezing in her chest and choking. I gave him six tablets of calceidin, 1/4 of a grain in each. I gave him the directions, 1 tablespoonful in hot water every 15 minutes. The medicine was a baby's cough syrup. I made it myself for simple cases. For the child a teaspoonful every 3 or 4 hours. I wrote the directions on an envelope and put the box with the tablets inside. That's all I remember for simple cases. For people who come in there is a law governing the prescribing of narcotic drugs and other poisonous medicines. I only prescribe for simple cases, such as coughs, colds, etc. There is nothing in the Druggist Association regarding the prescribing of medicines. I prescribe calceidin quite often for croup. If I thought the child had pneumonia I would have advised getting a doctor. Mr. Bell told me he had two children and that she was running around the house. There would be any possibility of a misplaced bottle. I made the tablets myself. Here the witness gave the amount of ingredients making up the composition of the tablets. One could take two grains at one time and I don't think anything serious would result.

Dr. R. J. Ledwell (sworn). I am a regular qualified physician. Witness said Mr. Bell rang at 10.30 a. m. asking me to come down to 211 Water Street. Person said that the baby was dying. I told them to get the family doctor. They said their own doctor was away. In that event I said I would go down. I went down. When he found there was a lady there who I am acquainted with but forgot her name. There were also two younger persons in the house. The child was dead. I would say life was extinct about 3 hours. I told them to get the coroner. I telephoned the coroner to come explaining the case to them. I went back with the coroner to the house. I might say that the abdomen is very much distended. The head was drawn to one side and the jaw drawn. This might have made the children think the baby had smelt at them. The child might have had convulsions. In small doses Calceidin isn't poisonous. I often administered two grains to a child of three or four years of age. I spoke of another child who had a sore throat. I examined the child in question and found quite the negative. There was nothing wrong.

Q. Doctor, if Mr. Bell came you the same as he did to Mr. Malone, would you prescribe without seeing the child?

A. No I would prefer seeing the patient first. It is really not the right thing for even a doctor to do.

Coroner—Gentlemen, I am a qualified registered druggist. I do not prescribe medicines. I am not qualified to do that. I know the drug Calceidin. It is not a very poisonous drug. One third of a grain is usually given a child of three and a half years of age. One tablet every ten or fifteen minutes will relieve it. It is a drug commonly prescribed for croup and known as croup tablets. Any person asking for croup tablets I give them Calceidin. They are sold something like the so-called Aspirin Tablets. There is nothing in the pharmacy regulation in regards to prescribing. However, druggists do not prescribe the medicine. It is uncommon for unqualified druggists to prescribe as Mr. Malone did.

Mr. George Reddin (sworn). Coroner: Would you prescribe for a child under the same conditions?

A. I do not prescribe as a rule, but I think Mr. Malone's treatment is all right. We (the druggists) have a narcotic list. It is very binding. In cases such as this there is nothing to stop the druggists from prescribing. It is grain every twenty minutes for ten doses to a child of three years is usually the prescribed amount. I don't think the tablets had anything to do with the child's death.

J. G. Jamieson (sworn). I am a regular qualified druggist. I heard Mr. Malone's evidence. I know the drug Calceidin. I would not prescribe as he did under these conditions. We don't interfere with the doctors. Calceidin is a harmless drug. There is no value to guide us in this matter of prescribing.

Dr. George L. Dewar (sworn). Am a qualified physician. Coroner:—What would you do if you were in the same position as Mr. Malone?

A. I would go to see the patient. Q. Isn't croup a serious thing?

A. Yes, very dangerous. Witness—If the child was playing around as Mr. Bell says, I

"NOT GUILTY" VERDICT OF JURY IN ROSS-STEVENSON CASE

"Not Guilty"—Was the verdict brought in yesterday afternoon at 2.30 in the case of William Stevenson and Hubert Ross charged with stealing.

The jury after being eloquently and ably addressed by both counsels for the defence and crown were then charged by His Lordship Justice Arsenault. The jury retired at 12.50 during which the court took recess to resume at 2.30 p. m. when the above mentioned verdict was brought in.

The following was His Lordship's charge to the jury: Mr. Foreman and gentlemen of the jury, this case is a charge for some considerable length. You have heard a great many witnesses and you have listened attentively to the able addresses by both counsels for the defence and crown. Therefore there is little left for me to say. The law is for you to judge the facts. I don't think it is necessary for me to express my opinion in this case. The prisoners are charged with stealing and the evidence before you is not convincing. You are charged with stealing doesn't mean the prescribing of medicines. I essentially mean that they took money from Simpson or entered his house for that purpose. The pocketbook was picked up on the street by a person or persons. I have better had two or three in that they were running around the house. There would be any possibility of a misplaced bottle. I made the tablets myself. Here the witness gave the amount of ingredients making up the composition of the tablets. One could take two grains at one time and I don't think anything serious would result.
