GOLF

Today, July 19th, at the Charlottetown Golf Links, at 2.30 the first stage of the Vice President's Match, Ladies' Singles, Medal Play, handicap will be played. Each stage of these matches will be played for points, five points to the winner, four points to second, three points to third, two points to fourth and one point to fifth. Where ties result players will be credited with points won. At the conclusion of the series the player having the most points will be declared the winner.

GOLF

Few golfers took advantage of the links on Wednesday for the weekly 18 hole medal play competition. However four war-horses enlisted and handed in fairly enviable scores, especially Gordon Hughes, who will soon be operated upon by the handicap committee. The high spot of this week's golf will be when Vic Saunders and Morris MacKinnon meet in the final of the McLure and MacKinnon competition.

Grattan Bars Won \$25,000

KALAMAZOO, July 18.—Grattan Bars, fleet bay pacer owned by Fred Throver, of Kerwood, Ont., and masterfully driven by the veteran Vic Fleming yesterday won the \$25,000 American Derby.

In winning the feature event of the Grand Circuit program, the son of Grattan Royal twice lowered the record for the race. He took the first heat in 2:00 3/4 and came back to win the second in 1:59 1/2. The old mark was 2:02 1/4.

Winnipeg, another Canadian horse, was second. Highland Scot third and Berry the Great fourth. Winnipeg won the third heat to take second money from Highland Scot. The time of the third heat was 2:02 1/2.

Grattan Bars in winning today's classic brought to three the number of \$25,000 purses he has won thus far this season. The Canadian stallion won the recent Pacing Derby at Stamford, Conn., and the \$25,000 stake at Toledo last week.

In the first heat, as the field swept into the stretch, Highland Scot was holding the lead but Grattan Bars found an opening and pacing like a well-oiled machine, drove through to victory, setting the new mark. The previous mark of 2:02 1/4 was made by Margaret Spangler in 1924 and was equalled by Hollywood Walter in 1926.

The flashy Canadian horse came back in the second heat to upset his own record and thereby equalling his sensational mile last week at Toledo.

In the money division Grattan Bars won \$15,000; Winnipeg, \$4,000; Highland Scot, \$2,000; Berry the Great, \$1,500; Jean Grattan, \$1,250; Patchen Boy, \$750.

Donald A., driven by Cartnal won a straight heat victory in the free-for-all trot, opening event of the bill.

TWIN BILL

TODAY AT A. A. GROUNDS

Amherst And Abegweits Play Double-Header; Afternoon And Evening Game.

The Amherstonians who play the Abegweits here today in a twin bill, are a likely looking lot of ball players and if appearances count for anything the locals are in for a warm time, both the afternoon and evening.

However the Abbies are confident of holding their own with the fast and scrappy Nova Scotians, therefore two hard and fast ball fixtures are promised.

Now that the Abegweits management are having outside ball teams coming here it is hoped that the fans will show the right cooperation by whole-hearted attendance.

Tex Hates To See Precious Tunney In Plane

SPECULATOR, N. Y., July 18 (U. P.)—Gene Tunney announced today that he would fly from Speculator to New York on the morning of July 26 for his heavyweight title bout with Tom Heeney.

It will be the first time in the history of pugilism that a heavyweight champion has flown from his training camp to the scene of the fight. Tunney flew from Stroudsburg, Pa. to Philadelphia in 1926 for his bout with Jack Dempsey, before he won the title.

Tex Rickard was a little perturbed over Tunney's announcement. "I guess it's all right if he gets a good pilot."

Tunney hopes to get Commander Byrd to pilot the plane.

PALEN CONTINUES TO HOLD LEAD

CLEVELAND O., July 18.—With three weeks of the 1928 Grand Circuit in history, the Indiana driver, lead he took at the opening meeting. He is closely pressed by W. K. Dickerson and C. Valentine, W. R. Cox after a poor start, has moved into fifth place. Thirteen drivers have won two, or more, races, with minor positions as follows:

Table with columns: Driver, 1st, 2nd, 3rd, 4th. Rows include Pallen, S. F., Valentine, W. K., Dickerson, C. A., Stokes, H. H., Cox, W. R., White, B. F., Fleming, V., Childs, M., Egan, F., Parshall, H. M., McMillen, W. N., Ray, N., Dill, C.

These drivers have won a race each: E. Edman, R. McMahon, W. Malow, H. Martin, R. Flaxio, R. Stout, B. Shively, H. Walton.

Race winners at the Toledo meeting which closed July 4: W. R. Cox, 2; W. K. Dickerson, 2; S. F. Pallen, 2; N. Ray, 2; C. A. Valentine, 2; while C. Dill, V. Fleming, W. N. McMillen and H. H. Stokes won a race, rain stopping racing three of the six days.

Best performances at Toledo: trotting, 2:02 1/4, Doane (C. Becker) the season's record, to July 15 and world record for a 4-year-old gelding, Pacing 1:59 1/2, Grattan Bars (V. Fleming), also the season's record to July 15.

Fastest 5-year-old trotter, 2:04 1/2, Nellie Signal (N. Ray), the season's record for that age. Fastest 4-year-old trotter, 2:02 1/4, Doane (C. Becker). Fastest aged trotter, 2:03 1/4, Hazelton (W. R. Cox).

Fastest 3-year-old pacer, 2:06 1/2, Col. Strong (Valentine, C. A.); aged pacer, 1:59 1/2, Grattan Bars (V. Fleming).

Average time, trotting 18 heats—2:05.25; pacing, 22 heats, 2:05.51. Total purses, \$58,230.

Golf At Jasper Park

JASPER PARK LODGE, Alta., July 18.—For the second time this season history has been made on the Jasper Park Lodge Golf Course.

Another amateur has made a hole in one. This time the honor and due Charles G. E. Nourse, Winnipeg, Man., who made his bid for fame on the 175 yard, 7th hole popularly known as "Collinscut," when playing a foursome with Dr. Egerton, P. C., also Edmonton and Roley McLeod of Winnipeg.

Mr. Nourse is certain now of his right to belong to the hole in one club as this is the second time he has accomplished the impossible. Earlier in the season May 30th to be exact, Mr. Robin Bell Irving of Powell River, B. C., started the fashion by being the first amateur to accomplish this feat on the Jasper course, which according to the lucky golfer today, "must be paved with four leaf clover."

Apparatus that can be carried on any motor vehicle has been invented that generates steam quickly for cleaning machinery or vehicles with hot spray at a pressure of 100 pounds.

Plans Are Made For Golf Tourney

TORONTO, July 18.—Officials of the Royal Canadian Golf Association have completed arrangements for the inter-provincial championship of Canada to be held on the course of the Royal Montreal Club on August 11. His Excellency, Viscount Willingdon, Governor-General of Canada, has donated a trophy to be known as the inter-provincial challenge cup.

Teams of four players, from each province are expected to compete, and the match will consist of 36 holes medal play. The team having the lowest aggregate score will be the winner. For the purpose of the competition the Maritimes will be considered a province.

French Sprinter Makes Good Time

PARIS, July 18.—Running 800 metres a full second faster than the official world's record for the distance, Seraphin Martin, French sprinter, made a big boost at the Columbus stadium Saturday.

Finishing alone 30 yards ahead of the second man, Martin was forced to make his own pace for the last 400 metres, yet was clocked in the hitherto unbelievable time of one minute, 50 and three-fifths second.

The world's record now on the books is 1:51 3/5, set by Dr. Otto Peltzer of Germany in 1926.

The record-shattering performance came as a great surprise as Martin finished in second place in his qualifying heat a few hours before in the slow time of 1:58. The

Spraying Questions Answered

During the recent farmer's picnic at Charlottetown, numerous problems bearing on spraying were discussed, views on the subject were exchanged, and wrong impressions corrected.

The value of these discussions are inestimable, and it is certain that the potato growing industry will profit accordingly. For the benefit of those who were unable to attend this gathering, an attempt is made herein, to review the consensus of opinion on the questions brought up at the picnic last Saturday.

This year a fine grade of hydrated lime has been placed on the market, and as stone lime has been used in the past, there is some doubt regarding the correct amounts to use of the former. The practice in the past has been to use half as much again of hydrated lime. Tests performed very recently at the Laboratory in Charlottetown indicate that the fine quality of hydrated lime used this year renders it unnecessary to use an extra amount. This will effect an appreciable saving on the cost of spraying. Soak hydrated lime in a thin paste for an hour or so before adding the required amount of water. Bear in mind that the efficiency of Bordeaux mixture is inversely proportional to the amount of lime in excess. Similarly, the quality of the mixture is affected by an excess of lime in the slow time of 1:58. The

the formula 4-4-40 if better results are desired. Rather use more pressure and more nozzles to the row and go back over the rows if the tops are heavy.

The test for sufficient lime is a few drops of potassium ferrocyanide. A brownish-red discoloration indicates the need of more lime. Bear in mind, also, the absolute necessity of keeping the leaves coated with Bordeaux. This involves the necessity of spraying when the tops are small. This is GOOD SPRAYING. BAD SPRAYING is waiting until the tops are so heavy that the spray cannot be forced down through the leaves even when the heavy pressure is employed.

Eighty gallons should be sufficient to spray one acre of potatoes. The amount used, however, will vary according to the pressure generated, the speed of the horses, the size of the disc openings, and the care exercised by the farmer to prevent clogging. In this connection, it is wise economy to renew the discs when they show signs of rusting.

Those using dusters will be well advised to make the application in the early morning or in the early evening. Heavy rain tends to wash newly applied dust from the leaves, thus reducing efficiency. It is necessary to use a light canvas spreader to confine the dust to the plants.

An English scientist has discovered that the white corpuscles in human blood, the duty of which is to combat disease germs, gain and decrease in number regularly twice each day.
