GIVES LIE DIRECT TO STORIES ABOUT THE CANADIANS  
MONTREAL, March 3.—Laying as-

**Men in Training**  
Fighting isn't the only duty of a soldier, and exposure to bullets is not as serious as exposure to all kinds of weather and dampness. Rheumatic aches, sore and stiff muscles, strains and sprains, chilblains and neuralgia, all are enemies of the soldier, and the relief for all these pains and aches is Sloan's Liniment. Clean and convenient to carry or use; does not stain, and penetrates without rubbing. Generously sized bottles at all druggists.

### War Bread is Now Being Made In Canada

OTTAWA, March 3.—Bakers throughout Canada began upon the new bread making regulations March 1, the only exception being in the case of the regulations regarding the use of standard flour, the date for which has been postponed until March 15.

The following was issued to-day from the offices of the Canada Food Board:

Statements have appeared recently in certain newspapers to the effect that the Canada Food Board, in its regulations standardizing wheat flour, was making it necessary for the bakers to buy an inferior product which was costing them thirty cents a barrel more than the patents which they had been using. In the past flour has been divided into a number of grades with prices differing for each grade. The finest flour was sold as the best patent, naturally at the highest price.

The bakers, in making their principal kinds of bread, used what was known as "second patents" or "strong bakers," employing the finest flour only in the manufacture of their fancy loaves. As a matter of fact the new standard flour, instead of being inferior, is of a slightly higher quality than the "strong bakers," which has been used generally in bread-making establishments for their principal loaves.

### CURLING

After more than a week's enforced rest, owing to ice conditions, the Wright Trophy competition advanced another stage yesterday afternoon, when the holders retained possession of the Cup, winning handily from the challengers.

### IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is sign you have been eating too much meat.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent, lithia-water drink.

### NO DIPLOMATIC CONVERSATIONS

(Continued from page one.)

a quarrel with us for purely ambitious purposes. She was promised by Germany the possession of Egypt. Would the interest and happiness of the population of Egypt be best conserved by Turkish conquest of Egypt?

"The Germans in the search for the greatest happiness of these populations would have restored Egypt to the worst rule the world has ever known. They would have destroyed Arab independence and abandoned Palestine to those who had rendered it sterile all these centuries.

#### Hertling's Russian Policy.

"I cannot, however, leave Von Hertling without making some observations upon the Russian policy which he defends. That also is a demonstration of German methods. He tells us the recent arrangements with Russia were made on the urgent appeal of the populations for protection against the Red Guard and other bands and therefore undertaken in name of humanity. We know that the East is the east and the West is the west and that the German policy of the west is entirely different from the German policy of the east.

The German policy in the east recently has been directed toward preventing atrocities and devastation in the interest of humanity, while German policy in the west is occupied entirely in performing atrocities and devastation.

#### Necessity And Humanity.

"If she invades Belgium, it is military necessity; if Courland, it is in the interest of humanity. It is impossible to rate very high the professions of humanity, international righteousness and equity in regard to those populations which figures so largely in the speeches. I am quite unable to understand how any body can get up in the Reichstag and claim that Germany is waging a defensive war."

Secretary Balfour then contrasted the different methods pursued by Germany and Great Britain in the expansion of their empires, and asserted that Germany's policy has been more deliberately ambitious than that of any nation since Louis XIV.

#### The General Crime.

"I am convinced that to begin negotiations unless you see your way to carry them through successfully would be to commit the greatest crime against the future peace of the world and, therefore, while I long for the day when negotiations may really begin, negotiations which must have preparations for the bringing of ideals closer together. I do believe I should be doing an injury to the cause of peace if I encourage the idea that there is any use in beginning these verbal negotiations until something like a general agreement is apparent in the distance and until the statesman of all the countries see their way to that broad settlement, which, it is my hope, will bring peace to this sorely troubled world."

### Races At New Annan

The races held on Saturday, Feb. 24th, under the auspices of the New London Ice Racing Club were largely attended. Although the day was unpleasant the racing was keen and exciting.

There were two classes, 2.50 and 3 minute. The 3 minute was the first called and when started George Woodside saw ten horses facing him for the word go. He certainly realized that he had a job on hand but if ever a veteran of the Grand Circuit got a bunch of chiefly green horses and drivers away in good style, the spectators would like to shake his hand. The horses got away on the 3rd score. Nellie D. soon captured the lead which she held throughout this heat, Nellie C. a good 2nd, Lady Fair 3rd, Happy Kidd 4th.

In the second heat of this race Kidd broke his hoppers and narrowly escaped serious injury. It looked as if he would have been a winner in this heat as he was pressing Nellie D. hard for 1st position, Nellie D. winning Lady Fair 2nd, Happy Kidd 3rd. The 3rd heat was a repetition of the 2nd.

The 2.50 class had 4 starters. Nellie D. also starting in this race, and winning 2nd money, a fact that if we are not mistaken has never been accomplished before. Spider certainly showed well winning 1st money the last 3 heats in easy style. Hasty Lad showed some great bursts of speed but being short of work was a little unsteady. Nancy Mac. was not in good form, having had a change of shoes which did not suit her.

Following is the summary:

#### LICENSES FOR RETAIL GROCERS

OTTAWA, March 3.—An order has been issued by the chairman of the Canadian Food Board bringing the retail grocers of the Dominion under license. On and after May 1st it will be illegal for any retail grocer to carry on business without a license from the Food Board. The licenses in regard to this trade are similar to those covering the licensing of other retail dealers, except that the last day for licensing of retail grocers has been fixed at May 1st while the other trades will not be under license until May 15th. The regulations contain provisions against speculation, restriction of supply or attempts to monopolize food products. Destruction of food fit for consumption and

waste or failure to prevent waste of deterioration where such is preventable, are prohibited. Licenses are uniform with those for other retail dealers in food products, namely: \$2.00 on turnover of \$20,000 or less per annum and an additional \$2.00 for every additional \$20,000 or fraction thereof of turnover. Approximately 22,000 retail grocers will be affected by this licensing arrangement.

OTTAWA, March 3.—In view of the urgency of the food situation, the Canada Food Board makes a public appeal to all owners of vacant lots that they place the same freely at the disposal of local cultivation committees.
