HAVANA, Aug. 11.—Cuban military forces, the army, navy and flying corps, in a swift and bloodless revolution late today demanded the resignation of President Gerardo Machado within 24 hours, climaxing demands by political leaders that the Executive step down.

Increasing Alarm Caused By New Fire Outbreaks

NOVA SCOTIA
Incendiarism Is Suspected in Forest Fire Areas.

(Canadian Press)

HALIFAX, N. S., Aug. 11.—Two outbreaks in Cumberland County today added to the forest fire menace in Nova Scotia. These fires were under control tonight, however, while men were trying to prevent other outbreaks from spreading in Hants and Pictou counties.

Police investigation of incendiary suspicions continued. Piles of stacked brush were found by rangers at fire scenes in Hants County, and traces of incendiarism were reported in Pictou.

The situation was most dangerous in these two counties, but prolonged work by rangers and residents appeared to be successful.

The first fire in Cumberland County started in the Shulee district and was handled by 40 men. Another blaze was reported later at Harrison settlement. It was believed these outbreaks would be extinguished unless a high wind arose.

The association, it was announced, is being organized "for industrial, economic and legislative purposes in general and in particular to oppose the present unjust and unwarranted wage cut proposed by Canadian railways."

NORMAN ON MYSTERY MISSION

Bank of England Head Arrives At Quebec Enroute to New York.

(Canadian Press)

QUEBEC, Aug. 11.—"You have no right to be here."

Thus Montagu Norman, Governor of the Bank of England and celebrated for his ability to dodge newspapermen, greeted an eager group of newshawks who surrounded him late today as he left the liner Duchess of Atholl. Attired in his characteristic slouch hat, Mr. Norman left almost immediately for New York, where he is expected to attend to matters of high finance—exactly what, nobody knows.

Some Questions

But nothing can be a rebuff to newspapermen imbued with the importance of their duty to the public. They prodded Mr. Norman with a running fire of questions. What are present conditions in the United Kingdom? What about the U. K. pound and the United States dollar? When, if ever does the U. K. return to the gold standard? etc., etc.

Mystery Smile

But the Governor of the Bank of England smiled his own mysterious smile and said: "I very much fear I can't stop your questioning. I'll make a bargain and answer you with a question: Do you think we are going to have a bad storm?"

Mr. Norman was accompanied by Mrs. Norman and for the first time in many years of trans-Atlantic travel registered under his own name.

ROOSEVELT HAS NEW ORDER FOR TROUBLED CUBA

HYDE PARK, N. Y., Aug. 11.—President Roosevelt turned toward Washington tonight to speed a new order for troubled Cuba which was disclosed to be nearing solution through State Department negotiations.

A four fold plan to bring better times for the war-torn island Republic is ready centring about a complete reorganization of the Government's debts to put them on a lower scale and a sugar production allotment to stabilize this key industry.

Apparently all that is wanted by the administration to bring this to fulfillment is the resignation of President Machado and the restoration of political tranquility. But Mr. Roosevelt maintained a strictly silent vigil today on the Cuban crisis.

The administration discounts to the limit suggestions that foreign creditors of Cuba are interfering or promoting the political disturbance on the island.
