W.B. Robertson, Ch'town, who has just returned from the St. John Exhibition informs the Guardian that the Baldwin aeroplane was by long odds the greatest attraction there. The ascensions were made under the management of Cecil P. Cote, a 17 year old boy and were witnessed by admiring thousands. In some of the flights the aeroplane went up 1200 feet and was always under perfect control. Mr. Robertson is delighted with the prospect of the great attraction being brought here and thinks the enterprising citizens who suggested it are entitled to the thanks and the co-operation of all. He says it is the greatest attraction ever brought to the province and those failing to see it at close range will miss the chance of a life time.

Laura Merrill, 2.14, is always a good contender in every race in which she starts, while Spooney Boy, 2.10, will have lots of admirers on the strength of his recent race at Halifax with Frank Patch. All these speedy ones are well known to provincial horsemen. A new factor in the races will be Banner B., 2.04, which has been brought here from Quebec, for this meeting. Men's Handsome Sweater Coats in From England

Charlottetown's Greatest Showing of New Autumnal Models in Ladies' Coats

YOU ARE MOST CORDIALLY INVITED TO inspect to-day the largest collection of autumn coats that this store has ever placed before you.

We want you to come in—look round—examine the garments—criticise the showing as severely as you can—make a comparison with any such line shown anywhere by anyone.

The coats this fall are distinctly different from any past season. Warmth, and comfort in every garment have been the points aimed at. But in addition to these there never has been so much smartness and style in fall coats since we remember.

Soft, heavy, "wooly" tweeds are very much used—many handsome reversible tweeds—cut loose and full length. Some very effective coats show a belt of leather or cloth.

But there is no use talking to any greater length about them—one visit will do more for you than all the descriptions that we could write in a month.

Will you come—today

LOBSTERS EXEMPT FROM REGULATION.

OTTAWA, September 11—British Columbia salmon canners are confronted with the possible embarrassment of their operations in France as the result of a bill now pending before the French parliament. Some France suffered severely from imitations of such fish as pilchards, sprats and small herrings being tinned in the same manner. In 1906 a law was passed directing that in the case of sardines, tinned vegetables and tinned plums, the name of the country of origin should be stamped on the bottom of the receptacle in letters at least four millimetres, about one-sixth of an inch. A bill now is pending in the French chamber, brought forward by Deputy Brard and backed by a number of deputies mostly from Brittany, extending the law of 1906 to all foreign fish preservers entering France. It was at first proposed to include lobsters in this enactment, but this has been dropped. The British Columbia canners take the ground that it would be impracticable so to mark their cans, their trade with France amounts to only six per cent. of their total output. No accusation is made in France against the quality of Canadian salmon. It is understood that the French authorities take the ground that it would be impossible to discriminate in favor of Canada against other countries.
