

ING FOR MONTANA LANDS

GLASGOW, Mont., Sept. 23.—Under the supervision of the officers in charge of the Government land office in this city the drawing was held today to determine the order in which the applicants for settlement upon the recently opened lands of the Fort Peck Reservation shall be permitted to make their choice of location.

A CHILD'S LAXATIVE IS "SYRUP OF FIGS"

MADE FROM FRUIT—CAN'T HARM TENDER STOMACH, LIVER AND BOWELS.

If your little one's tongue is coated, it is a sure sign the stomach, liver and bowels need a gentle, thorough cleansing at once.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle.

TO NOMINATE JUDICIAL CANDIDATE

NEW YORK, Sept. 23.—In response to the call issued by the Republican State Committee a Republican State Convention is to meet at Carnegie Hall this evening for the purpose of selecting a candidate for Chief Judge of the Court of Appeals and a candidate for Associate Judge of the same court to be voted for at the next general election in November.

WIRELESS STATIONS FROM LAKES TO COAST.

OTTAWA, Sept. 22.—With the completion of three new wireless stations at the great lakes this fall, Canada will have the largest single stretch in the world covered by wireless. The complete chain of wireless will be from Port Arthur to the Atlantic coast, Cape Race to Port Arthur over the whole St. Lawrence system, a distance of 2,900 miles will be under wireless control.

On Queen Charlotte Islands the two wireless stations are being connected with the interior by telephonic lines and thus secure an outlet. This shows the advantage of the wireless as there is no cable service from the Queen Charlotte Islands to the mainland.

STATE PRIMARIES IN MASSACHUSETTS

BOSTON, Sept. 23.—State primaries are held today throughout the State of Massachusetts to select the candidates for the various places upon the State ticket to be voted on at the coming State election in November. The absence of national features at the November election this year naturally has a tendency to diminish the general interest of the voters in the election and, in a greater measure even in the primary election preliminary to the general election. Yet it would be wrong to assume that there is no interest manifested in the outcome of the primaries. The political situation is sufficiently interesting to bring out partisan feeling and it is believed that a large vote will be polled today.

PICTURESQUE SASHES.

(Boston Advertiser.) But there is nothing in the new fashions more picturesque than the sashes. The true harem note is reproduced in a single sash end hanging about the centre front or at the side, weighed with a handsome lined, about 12 inches in width, produces the best effect.

Then the tunic sash, which is shown below on the right, is not only graceful, but also serves completely to transform an old skirt, and may be made of ribbon caught under the folded girdle in the back. Or for a tailored suit the sash ends are often caught at the under edge of the girdle on each side and tied loosely at the back, as pictured in the illustration on the left.

"The store for Eastern Caps is Moore & McLeod's all new—all late styles—and the real thing. Every Eastern cap we sell gives a chance to capture the mysterious Moore's man. Get a receipt Moore & McLeod. 1692-9-24M11

THE CENTRAL GUARDIAN

It pays to buy in this Province.

POULTRY MEETING.—Mr. T. A. Benson, Dominion Poultryman, will address a meeting in the Hall, Grand River, on Friday, September 26th, commencing at 8 p. m. The subject for discussion will be the marketing of eggs and all those interested are invited to attend. Ladies are especially invited to be present.

THE MORWENNA.—The S. S. Morwenna arrived in Charlottetown on Monday night at 12 o'clock with a good general cargo of freight from Montreal. She sailed again at 11 o'clock yesterday morning for St. John's, Nfld., with a large cargo consisting of 500 bags of potatoes, 400 bags turnips, 400 bags other vegetables, 100 packages of butter, 450 bales of hay, 50 head of cattle and 30 sheep.

W. C. T. U.—A very enthusiastic and successful meeting of the W. C. T. U. was held in the Hearts Memorial Hall, Charlottetown, on Monday night. Mrs. R. H. Campbell, Charlottetown, President of the Union, read a most satisfactory report of the Conference recently held in Summerside. A number of visitors and members of the Temperance Alliance were present. Rev. W. D. Wilson, Field Secretary of the Alliance, addressed the meeting urging the W. C. T. U. to take up more aggressive work and also congratulated them on the work they were doing.

TUPLIN FOXES.—Mr. Frank F. Tuplin, Summerside, will be in Charlottetown today and tomorrow with his Pierce Arrow Motor car, the largest and finest car in the province. While here he will have his headquarters at the office of the Turf Farming Bureau and Fox Exchange, Victoria Row, opposite the Post Office. He will be glad to meet any one interested in foxes, particularly in Tuplin foxes and arrangements have been made by the Fur Farmers' Bureau and Exchange with the Charlottetown Silver Block Co., Mr. John Andrews of the Belmont Farm and Mr. W. A. Miller to show their foxes and ranches to visiting strangers. These ranches all have Tuplin foxes. 17062id.

MORE P. E. I. HONORS.—In the list of prizewinners at the Fredericton Exhibition the name of Miss E. A. M. MacMurray of Charlottetown holds a conspicuous place—conspicuous places in fact, she having captured four first prizes, one each in Irish Point Lace, Battenburg Lace, Honiton Lace and Dessert Dolles. This is by no means Miss MacMurray's first achievement, her name having figured among the firsts in art needlework at many recent exhibitions at home and in the neighboring provinces. Miss Bessie Burke, also of Charlottetown, won third prize in punch work.

ACCOMMODATION WANTED.—In view of the large influx of visitors and the possibility that strangers may experience some difficulty in securing accommodations during their stay in Charlottetown, a Bureau of information was organized yesterday evening by a number of prominent citizens. Persons who can accommodate one or more boarders with meals and rooms, or with either, are requested to report to the Apothecaries' Hall stating what accommodation they are able to provide. Strangers are invited to call at the Apothecaries Hall where they will be given such direction as will be available. It is important that all visitors be accommodated and it is hoped the Bureau will receive the hearty support of all citizens.

PERSONAL

Mrs. L. Laird of Valley Station, N. S., is in Charlottetown attending the Exhibition.

Mr. Frank E. White of Vernon Station is the guest of Mr. Reginald Fitzgerald during exhibition week.

Miss R. J. Watson, St. John, N. B., has arrived in Charlottetown on a visit to her sister, Mrs. John Gavrick, Hillsboro St.

Children shop here with the confidence that they are getting a square deal all around. We give even the tiniest lot the same personal, courteous care accorded grown-ups—in fact more so. You can send your child here with the assurance that you will get what you want of the right quality. It is part of the Rexall all service. The MacKinnon Drug Co., Corner Great George and Kent Sts. MEM.

PROVINCIAL EXHIBITION

(Continued from page three.)

vices which the advance of modern science has brought to the assistance of the agriculturist and the dairyman. On this account it is necessary to draw attention to the booth to which reference is made above. There are on display several classes of mechanical goods of the utmost value to the farmer. In the first place there is the Sta-Rite engine, an excellent engine for farm use, in fact, for any use for which mechanical power is necessary. Simplicity, economy and durability are the features of this engine, which is of the largest type. One of its principal advantages is that it starts without cranking. Testimonials to the qualities of this engine can be furnished by many of our best farmers, among them Clark of Victoria, Charlie Wyand of Mayfield, Andrew Horton of Bethel, John McGillivray of Vernon, men who are well-known mechanics. These engines are procurable in capacities varying from 14 to 16 horsepower. Besides these engines at this booth are displayed the latest thing in cream separators, the Empire cream separator, an improved machine, which hardly needs any recommendation, so well known is its reliability. For the small dairyman with a few cows, the Baltic cream separator is just the thing. It sells from \$25 up, and is certainly good value for the money. Mr. A. E. Wood, of Pownall, is the manager of the P. E. I. agency for these goods.

IN MACHINERY HALL.

In this building an outstanding feature is the display of gasoline engines and marine motors made by the Associated Manufacturers of Waterloo, Iowa. On exhibit, too, are three of the firm's famous Imperial motor marine gasoline engines, of 3, 4 and 5 horse-power, respectively. The fame of the Imperial engine has spread far and wide. They are the most economical and best constructed engines of their class on the market. They are in use from Newfoundland to Prince Rupert, British Columbia, and their fame has also gone down to the West Indies, and even further away, New Zealand. An interesting part of the exhibit is one of these engines with a section cut out of the cylinder, showing the inner construction of the machine and demonstrating its working and the stability of its construction. In connection with the Imperial engine are exhibited propellers, spark coils and other accessories for motors and motor boats. With these engines at work most of the time, this booth is very attractive one. A small pump

GET style, of course, but - get fit and wear too. If you don't get all three you don't get your money's worth. To make sure ask for 20.h Century Brand. We are Exclusive Agents.
