CARNIVAL LAST NIGHT.—The carnival at the arena last night was well attended considering the stormy weather. Between 350 and 400 skaters in various costumes were on the ice and all had a delightful time. The G. W. V. A. Band rendered a splendid program.

DOUBLE BEREAVEMENT.—The death took place at the home of her son, Mr. James Smallman, O'Leary, at 8 o'clock on Thursday evening of Mrs. Joshua Smallman, while at 11 o'clock the same night, her eldest son, Thomas, passed away. Mother and son will be buried on Sunday at 2 o'clock in Springfield Baptist Cemetery. Mrs. Smallman leaves to mourn the sons and two daughters. The sons are James, with whom she lived at O'Leary, John A. with Sinclair & Stewart, Summerside, and J. Edgar of Dartmouth, N. S. The daughters are Mrs. Robt. Horne, Bloomfield and Mrs. Geo. Horne, O'Leary. The late Thomas Smallman, is survived by his wife, and one daughter and two sons. Much sympathy is felt for those bereaved.

POLICE COURT.—At the Police Court yesterday Justice Gormley, a young lady was imprisoned on the confession of another boy, in the burglary of Mr. McEneaney's shoe store last month. Mr. Bentley, attorney for defendant, pointed out to the Court the flimsy nature of the testimony against the boy and emphasized the fact that no positive evidence in the shape of recovery of stolen goods has been submitted. Two other boys, appearing with young Gormley on the same charge, were dismissed.

WEDDING BELLS.—A quiet wedding took place in St. Dunstan's Cathedral on Wednesday morning, Feb. 2nd when Miss Mirrie Dennis, daughter of Mr. and Mrs. William R. Dennis of Wimbledon, Eng., became the bride of Mr. Henry A. Lund, son of Mr. and Mrs. Jas. Lund. The ceremony was performed by Rev. Maurice McDonald of the Cathedral Staff. The bride who looked charming in a navy blue suit with hat to match, was attended by Miss Alue Oatway, cousin of the groom, who wore a suit of brown with hat to match, while the groom was ably supported by Mr. Camille Gallant. In the evening congratulations being offered, about 60 guests sat down to a sumptuous supper, after which they passed a very delightful evening in dancing and singing at the home of the groom. The many beautiful presents received testify to the popularity of the young couple. Everybody joins in tendering best wishes to Mr. and Mrs. Lund.

WIERD TALE TOLD BY COLOR ED MAN IN A ST JOHN CHURCH.

St. JOHN GLOBE.—As the result of a conversation a St. John preacher had with a colored man, last Sunday he invited the father to speak before his congregation that evening after song service. The colored man complied and told his audience that he had been a Zulu chief and had eaten human bodies and cooked and eaten them before he had been converted. After being converted he has mov

ed to St. John. The church people were much taken with the speaker and the wonderful work that the Missionary Societies had done and after the meeting many of them spoke to the orator and shook hands with him. Later, it turned out that the speaker was a local man, who was born in St. John River. It is not known why he put it over the church as no collection was taken. It is understood that many of the local colored people are now laughing at the joke, while the members of the church are rather put out.

THE S. S. STANLEY IN PORT.—The Sydney Post of Wednesday says: The steamer Stanley this morning made a spurt through the ice in the outer harbor and reached the North Sydney pier about noon. For the past three or four days she made only two miles through the ice in the offing, but this morning she struck it softer and made fair headway.

HANDSOME PHOTO MOUNTS.—In the show window of the Craswell Photo Studio are shown some very striking photo-mounts, hand-made, in three original designs. The work of Mr. G. K. Stanley of this city. The work is of that high-class order which is winning Mr. Stanley quite a reputation as a local artist. This idea is used largely in the leading studios of the larger cities and is of the "advance" the excellent work of the Craswell studio.

DIED IN HOSPITAL.—The death occurred in the Charlottetown Hospital yesterday of Mrs. Joseph Francis, age 24 years, after an illness of about two months. The sad event is deeply to be regretted. Deceased before her marriage was Miss Margaret Campbell and belonged to the western part of the province and was a most sensible young woman. She leaves to mourn besides her husband and parents, one child, a little boy and other relatives. The funeral takes place Sunday from the home corner Queen and Douglas Street.

MARRYING TWO WOMEN LED TO A LIFE OF BANDITRY

MINNEAPOLIS, Feb. 11.—Oscar Hanson, who made the unique plea according to the police that he was driven to a life of banditry because he married two women and had to support two families, was arraigned in the municipal court today.

Hanson was bound to the grand jury in \$10,000 bail on a charge of robbery and pleaded not guilty to a charge of non-support, preferred by Mrs. Elizabeth Hanson, whom the police designated as wife number one. She has three children. The police said Hanson was found at the home of Mrs. Lenore Hanson, who resides with her mother. The second Mrs. Hanson has a ten months old son.

CAN CARBURETOR AIR BE OVERHEATED

D. K. asks: Should all the heat possible be applied to the air entering the carburetor? Is it possible to have this air too hot? I notice that none of the cars that heat the intake air from the exhaust seem to use all the heat available.

ANSWER: From the standpoint of complete vaporization of present day fuel, at least, we doubt if it is practically possible to overheat the carburetor air during cold weather, unless possibly the engine in question has means for fully heating the charge after it leaves the carburetor. From the standpoint of maximum power production it is at least theoretically possible to introduce the charge into the cylinder at too high a temperature and pre-expanded to such an extent as to reduce the weight of oxygen taken into the cylinder at each charge, with a corresponding reduction of output. Furthermore, the charge may be so heated that it will not be cooled sufficiently by the time it enters the cylinder to be compressed with knock and loss of power. These effects may be noticed in engines with over-heated intakes, but we think that you can go as far as you like in heating the entering air, with beneficial rather than objectional results, unless the manifold is kept very hot.

ENGINE WASTES OIL

C. D. J. writes: After having run my car 10,000 miles, I found that I was using one gallon of oil to each 500 miles and getting lots of carbon, so I ordered new pistons, rings put in all around. I have suspicion that this was not actually done, for after 5,500 more miles of running, I am only getting 200 miles to the gallon. Would you recommend new rings or what would I do to put a valve in the pump delivery pipe, so that the flow could be regulated exactly.

ANSWER: If all this loss of oil is up to the pistons, as you would suggest, that you use a special oil-proof or scraper ring in the bottom groove on each piston. Are you sure that you do not need over-size pistons and how are the cylinders as to roundness of bore. Are you sure that you are not using a thinner bodied oil than necessary or one of a quality that will not stand heat properly? We should not advise you to install the valve that you suggest, as there is probability of its causing the eventual loss of oil. Your trouble is doubtless in the piston and ring fit or in the quality of the oil used.

Fire Losses Were In Canada in 1920

OTTAWA, Feb. 11.—The fire loss in Canada in 1920 was approximately \$27,400,000, equal to about \$3.42 per capita on an 8,000,000 population, \$17.10 per family, according to figures made public today by the Commission of Conservation. An analysis of the fire loss says the monthly bulletin of the commission, "discloses certain facts which are not creditable to the business of the country and, which account in part for our high cost of protection in Canada as compared with Europe.

One half of the fire waste was caused by 72 fires, practically all in commercial property. Fires causing damage of \$10,000 and over, numbered 301. The bulletin expresses the opinion that rigid enforcement of the penalties for carelessness in this respect would do more to reduce the fire waste than any other influence that might be brought to bear.

Moncton Niprines Failed to Play Game

DISAPPEARED FROM TOWN AND LEFT NO WORD BEHIND—A MEAN TRICK TO SAY THE LEAST.

Yesterday's Sackville Post says:—The Neptune hockey team, representatives of Moncton city in the Eastern Amateur Hockey League certainly handed Sackville a lemon last evening when they failed to play their postponed game here. Arrangements were made about a week ago for this game to be played last evening. Yesterday morning the management of the Sackville team got in communication with the management of the Moncton team over the telephone and the latter assured the local man that his team would be on hand in the evening to play the game. A number of the Moncton players arrived in Sackville at midday and hung around town all the afternoon, and it is said went to Amherst on the C. P. R. to take in the Amherst-Moncton game in that town last evening. The Sackville team, which was on the ice, and the fans on the promenade waited until about nine o'clock for the Moncton team to put in an appearance and when they failed to do so an investigation was started which revealed the facts as set out above. The local management explained to the crowd that Moncton had failed to put in an appearance and had left no official word of their departure and as a result no game was to be staged. The admission fee was given back to those who wanted it, but most of the fans held their tickets for Monday night when real sports from P. E. Island will cross sticks with the locals.

Moncton should certainly feel proud of their Neptune team.

THE OPENING OF MT. MELLICK SCHOOL

The beautiful new school at Mt. Mellick was opened Monday, Jan. 10th. It is one of the most up-to-date schools in the Province and reflects great credit upon the Contractors, Messrs. McDougall and McAuley, who completed the work in such a short time. The interior is finished with Douglas Fir and has hardwood floors. The building is twenty-two feet wide and thirty-four feet long. It contains two cloak rooms and has a cellar for coal.

A formal reception was held in the school Monday afternoon and the day will always be remembered in the annals of education in Mt. Mellick. Mr. R. H. Rogers, Superintendent of Education, Mr. John Anderson, Provincial Auditor, R. V. Mr. Hazebrook and a large number of ratepayers and visitors were present.

Mr. W. H. Drake in his genial and capable manner acted as Chairman. After reading a letter from Inspector Doyle, expressing his regrets at not being able to attend, the program was opened with a Welcome speech by Charlotte Drake, Chorus, "Happy Children" by the School; Gramophone Selection, "O! Canada"; Recitation, "A Smart Girl" by Frances Wood; Play Drill by six girls. Recitation, "The New Year"; by Hazel McEwen. Gramophone Selection, Recitation by Adele Smith, Pownal. Valhalla—by Louise McKenna.

The Superintendent addressed the Meeting, congratulated trustees and ratepayers upon their enterprise and ambition in building such an up-to-date school; and said that he hoped they would continue their zealous efforts in school work and take a lively interest in the education of their children.

Mr. Anderson was next to speak. He referred to the beautiful location of the school and said it was one of the prettiest if not the prettiest sites for a school in the Province. He encouraged the people to send their children to school regularly and assist them to study their lessons at home. He also advised the pupils to endeavor to get the Public School certificate to pay more attention to the study of English.

Rev. Mr. Pierce gave a lengthy speech in which he pointed out the advantages of a good education and said that a teacher was performing a very noble work in the training of young minds.

Rev. Mr. Lindsay was next called upon to speak. He congratulated the people upon the erection of such an up-to-date building and said he was glad that the parents were so thoughtful of their children, as some parents are liable to think that the school is their care for all time to come, but it was not so with the people of Mt. Mellick. Mr. J. E. McEachern, in his speech, thanked the visiting gentlemen for coming such a distance.

He also spoke in behalf of the teachers.

Mr. A. J. McDonald extended a vote of thanks to the chairman and the teacher Miss Coady, in a few well chosen words thanked the speakers for their complimentary remarks, and said he hoped that the good will which now exists between teacher, parents and pupils would prevail for the remainder of the year, and that they would get along as agreeably in the new school as in the old one.

Fruit and home made candy were served by the ladies during the proceedings. The singing of the National Anthem brought an enjoyable afternoon to a close.

Goal—Kielly. Defense—Craigie, Scantlebury. Forwards—Brynton, Dewar, E. McInnis, A. McDonald.

The Y. M. C. A. hockey yester day met and defeated the Regals of that place, in a fast and exciting game by a score of 7 to 4.

Craigie and Scantlebury are mentioned in dispatches, as playing a stellar game and doing the scoring in the first period for the "Y".

The second period was more exciting than the first; both teams going strong and trying hard for a tally. The locals finally netting one, followed by another for the "Y". Tommy Dewar turning the aggregation going as strong as ever, and finding the net shortly after the period started; taking the lead by a goal, and McInnis, Dewar, Brynton and McDonald increasing it to three more before the bell brought hostilities to a close and the "Y", victors by a score of 7-4.

The visitors remained over, and will play a return game with the Alberton puck chasers tonight.

The following is the Y M C A line-up: Goal—Kielly. Defense—Craigie, Scantlebury. Forwards—Brynton, Dewar, E. McInnis, A. McDonald.
