## NEW LAND DISCOVERED

Commander Richard Byrd Reports 20,000 Square Miles in Antarctic.

(Canadian Press)  
WASHINGTON, June 30.—A report from Commander Richard E. Byrd, made public by Secretary Adams, reports that during his south pole expedition he discovered approximately 20,000 square miles of hitherto unknown land in the Antarctic. The flights to the new land were made during the winter long before the summer season. The major part of the report of the Secretary of the Interior, which was the discovery and partial survey of the Rockefeller Mountains Range, which one of Byrd's airplane parties discovered in January and was surveyed principally from the air in the two months following. These mountains, he reported, appear to be stragling to the westward above the snow, which covers all but the highest patches of rock here by the wind. Commander Byrd mentioned the sighting of other peaks including one which resembled Matterhorn.

## Jubilee Services

### Very Impressive Services Commemorating 60th Anniversary of St. Peter's Largely Attended Yesterday. Powerful Sermon Preached by Rev. Bishop MacKenley.

With all the ceremonial grandeur and splendid ritual of the historic Church of England, St. Peter's Cathedral of this city yesterday celebrated its Diamond Jubilee. The Cathedral was founded sixty years ago, June 29th, 1869, as an outcome of the Oxford Movement which in the middle of the 19th century, exerted such a potent influence on the character and creed of the Church of England, seeking to model it on the early Church of the Apostles. St. Peter's, since its foundation, has enjoyed a vigorous and progressive existence, contributing greatly to the religious life of the community. The services yesterday were attended by large congregations which crowded the Cathedral to capacity.

## Bishop MacKenley's Sermon.

Speaking from the text, "The people that do know their God shall be strong." (Daniel 11, 32), His Lordship Bishop MacKenley in opening his sermon, declared his great pleasure in being present at the celebration and in being intimately associated with the Cathedral since early times. "Review and look back upon the lives of men and women who have 'crossed the bar,'" said his Lordship, "and contemplate their zeal their earnestness and their great strength on behalf of those great principles that form a foundation of our faith. This is a Diamond Jubilee with many a diamond of saintly character and brilliancy."

"Daniel in his imprisonment," continued Bishop MacKenley, "realized the great privilege of knowing his God so intimately that he recognized the blessing of that new and dear relationship which exists between Humanity and Humanity's God—the God of Love. By reason of forgetfulness and neglect his people had been carried into bondage and in their heart-searching moments of reflection, their thoughts went back to Zion, far, far away they could not meet as families and individuals in God's Holy Temple for worship. But we are gathered here this morning with hearts thankful and proud to worship God with eye, ear and voice, worship that ought to strike to the depths of the human soul."

Sir John Stayner's setting of the Holy Communion service was excellent.

(Special to The Guardian)

## DAMPER ON CONFERENCE

(Canadian Press)  
LONDON, Eng., June 29.—The Associated Press today says: "A damper has been thrown on expectations of an imminent conference of the naval powers on disarmament and naval reduction." Some quarters had been led to believe that an early call for a meeting of the nations was indicated by the prompt actions of Premier Ramsay MacDonald, Charles Dawes, United States Ambassador to Great Britain and Hugh S. Gibson, United States Ambassador to Belgium in initiating conversations on the subject. But news despatches from Washington last night coupled with a speech here by Premier MacDonald, implied this was not the case and that extensive preparations would be undertaken before a call is finally issued for a conference.
