They still retain a believing that life is more prosperous now than it did at any time previous. The people here should be satisfied with the conditions existing as they are much better situated than many people seemingly more prosperous.

There is music in the spheres. Music has power to make the savage beasts stand still in their native jungles. It has a wondrous effect on the subconscious mind. The music at New Annan Races has always been a special attraction. Mr. Harry Porter the noted English violinist will give special selections. This will be a rare treat for music lovers.

—TWENTIETH ANNIVERSARY SURPRISE.—A very pleasant event occurred on the evening of July 2, at the home of Mr. and Mrs. Hugh J. Bernard, 158 Grand Avenue, Medford, Mass. when eighty of their friends and relatives took them by complete surprise. The occasion was the twentieth anniversary of their wedding. Mr. and Mrs. Bernard, somewhat appalled by the advent of so many friends rallied to the occasion and entered into the spirit of the party. The evening was very pleasantly spent with engaging amusement, songs by Mr. Fyle of Medford, violin solo by Mr. Ernest Mountain of South Medford and piano solo by Miss Mountain. During the evening the company was called to order by Mr. Joseph Bernard, a brother of Hugh, and in pleasing terms voiced the sentiments of those present by wishing the couple many more years of wedded life. At the conclusion of his remarks he presented the couple with a handsome electric table lamp and to Mrs. Bernard was presented a handsome bouquet of flowers. Mr. and Mrs. Bernard both responded, thanking the guests for their profession of friendship and good wishes, also returning sentiments of gratitude for the handsome present. Dancing was then enjoyed by the party, music being furnished by Mr. Mountain and Mr. Elmer Sudbury. Refreshments including ice cream and cake were served during the evening. ..*PROHIBITION OFFICERS from Charlottetown, made a search of Nausagee territory, Thursday, and succeeded in finding at one man's place, three kegs or cases, two at another's, and some smaller lots, whether they had a right to confiscate salvaged goods from the shore whether contraband or not, is a question.

..*FIRST FRIDAY DEVOTIONS.—The devotions for the first Friday (of the month) in Reparation to the Sacred Heart of Jesus, took place in St. Margaret's church on Friday. P., had no assistance for confessions were he ran on Thursday evening previous, thus giving the pastor more time.

..*THE DRY WEATHER is playing havoc with the grain crops. The oats are now in head some fields not more than six inches high. There will be a great shortage of straw and certainly little grain. Hay proved not much over a half a crop. Feed must surely have to be imported next winter unless the live stock on the farms are reduced by at least half and there is no market for cattle. The potato crop is, however doing pretty well. There is no blight, and bugs are not at all plentiful.

CROP REPORT

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches. The Branch Managers have complete and intimate knowledge of each local situation and are in close touch with Crop conditions in all sections of the districts mentioned.

GENERAL

Heavy rains have benefited all crops in Manitoba and have improved the crops on summer fallow in Alberta and Saskatchewan. Prospects generally are fair to good except in Southern and Eastern Edmonton district. North East Calgary district North East Lethbridge district and in the Saskatchewan district. Fall damage to date negligible in Ontario, Quebec, and the Eastern provinces rains have been fairly general and the results have been beneficial. In Quebec prospects are general and yield will be average. Rain prospects are satisfactory. In Ontario prospects are practically completed and cutting of wheat is general. In Maritime Provinces potatoes are in excellent condition but other crops are light. In British Columbia haying has been completed with yield below average. Peaches, plums and early apples are now being picked. Details follow:—

PRAIRIE PROVINCES

LETHBRIDGE DISTRICT.—Conditions continue satisfactory in South Western section; fair yield may be harvested from summer fallow in South Eastern sections; in North and North East areas the crop is largely a failure. REGINA DISTRICT.—Crops in most districts have benefited from showers. Prospects continue favourable in South but yield in North will be light. Hay and pasture average. WINNIPEG DISTRICT.—All grain crops improved by recent heavy showers. by eating foods that do not heat the blood. Ice cold drinks and electric fans will not cool the person who eats heating foods. Eat Shredded Wheat with milk fresh fruits and green vegetables, and keep cool comfortable and full of pep for the day's work. Shredded Wheat is a wife-saver in summer, because it is ready-cooked and ready-to-serve—no kitchen work or worry. The crisp, flavory shreds of baked whole wheat are the delight of every youngster.

In the Okanagan the smallest crop for years has been cut. Peaches and plums show a light yield. Early apples are morning freely. Pasturage is only fair.

MARITIME PROVINCES
