BENTLEY AND JUPP NUPTIALS

MR. G. W. BENTLEY AND MISSE. D. JUPP AND WEDDING PARTY

(Crystal Palace Advertiser, England)
A picturesque wedding took place at Christ Church, Gipsy Hill, on Saturday, the contracting parties being Miss Edna Dorothy Jupp, second daughter of Mr. and Mrs. George T. Jupp, of 33, Durring

Road, Upper Norwood, formerly of Montreal, and Mr. George Whitefield Bentley, youngest son of Mr. and Mrs. T. W. Bentley, of Charlottetown, Prince Edward Island, Canada.

The vicar, Canon C. E. Wilson, officiated and Mr. E. T. Patterson A. R. C. O. was at the organ. The bride was given away by her father. She wore a gown of white satin and lace with a coronet of orange blossom. She carried a bouquet of carnations and white heather.

The two sisters of the bride, the Misses Gladys and Margaret Jupp, were bridesmaids. They were attired in pink lace dresses, gold skullcaps and gold shoes, and carried bouquets of daffodils and heather. The bride's mother was in a black costume trimmed with gold braid.

The best man was Gunner Albert Nixon, who is serving in the same regiment as the bridegroom.

Reception of friends was held after the ceremony at the Crystal Palace Hotel ballroom. The guests included Mr. and Mrs. G. Clarke (jun.), Mr. H. Clayton and daughters, Mrs. F. Carlton, Miss J. Clayton, Gunner J. A. R. Bentley (brother of the bridegroom), Mr. and Mrs. H. Clarke (sen.), Mr. and Mrs. Garrod, Mr. and Mrs. J. Murray, Mr. F. Morse and daughter, Mrs. Duncan and daughter, Mrs. Bradley, Mr. and Mrs. Roffey and daughter, and five Canadians of the bridegroom's regiment (Sergeant M. E. Campbell, Bombardier L. H. Ives, Gunners G. E. Bonnell, C. A. E. Wallace and I. A. Clarke).

Living & Leisure - The Woman's Realm

GIVE YOUR BEST

For life is the mirror of king and slave,
The just, what we are and do;
Then give to the world the best
you have
And the best will come back to you.

A new glass which is said to be ten times as strong as automobile shatterproof windshield glass is a sandwich which consists of a plastic film between two sheets of glass.

The recipe for a colorless varnish to paint over polished brass to keep it bright for 6 months is 1 oz pure shellac dissolved in 1-4 pint methylated spirits. Clean brass with metal polish first and then apply varnish with soft brush.

Of all the heavenly bodies, says an astronomer, the sun is the only one indispensable to the earth.

THIS IS A QUICK ONE

For an emergency dessert, just right for unexpected company, beat one cup cream and fold in one cup mints that have been crushed, and one package chocolate snaps that have been crumbled. Serve mixture in small glasses. Sufficient for 6 servings.

Black dresses are shown for street and afternoon wear, invariably with a bright pin, bright buttons, gold nail-heads, or cut steel.

PRIMERS ARE OFTEN USEFUL

Well-aged brick, concrete and concrete require no different paint from other exterior work. If these surfaces are not well-aged, however, they should be given special primers which usually contain tung oil varnishes. Any high quality house paint may then be used for the finishing coats.

LEADING THE AUTUMN ADVANCE

Alaska sealskin jacket of dark Martara-brown, with baum-marten mitt of natural Himalayan. Yellow—not just a Summer acquaintance—goes on triumphantly with black.

The chemise dress—take off its belt and gaze upon a narrow night-shirt. Unbroken color—from top to toe—basis, a suit or two-piece dress.

The dinner dress of stiff black faille, a-gleam with shiny jet tassels.

Stockings (both nylon and silk) this Fall reflect the trend toward brown and taupe shadings. For example, there's a brilliant copper shade that you'll wear to sparkle against black, navy, dark green and dark brown. Another beautiful shade is a warm amber tone. Then there's a light, warm beige, a mellow, soft brown-beige, a grey taupe, burnished copper, and a warm brandy-brown shade.

HATS ARE "MUSTS"

Hats are definitely "in" this Fall, for the school girl's wardrobe. She may have been a curl tossing rebel until now, because hats were too fussy for the casual clothes she loves, or because they didn't set firmly enough on her head, or because she just wanted to look carefree. But the picture has changed.

New this Fall are stocking caps, in bright solid colors or stripes.

Favorite Spread of the Maritimes

Old friends are best. For a hundred years the people of the Maritimes have known they only had to say Schwartz to be sure of the finest food products. Like a tradition this assurance has endured through all the years.

Schwartz Peanut Butter proudly carries on this Schwartz reputation for quality. You will find it best for cooking, for sandwiches, for children's lunches. Its delicious, mellow smoothness makes it their favorite spread. Say Schwartz—and be sure!

1841 A CENTURY OF PROGRESS 1941

Your Individual HOROSCOPE

By Frances Drake

For Monday, Sept. 29th.

MARCH 21 to APRIL 20 (Aries)—Oodles of beneficent rays predominate throughout the morning, but this afternoon asks more consideration in important moves, changes and decisions that may affect your future or your country's welfare. Be calm, re-organize, honest.

APRIL 21 to MAY 20 (Taurus)—All major industries, banking and brokerage business, manufacturing of all present urgent commodities are highly favored from early morning. After 1:30 P.M., and until midnight, think more carefully and calmly before you speak or act.

MAY 21 to JUNE 21 (Gemini)—Work and everyday affairs now running smoothly should be continued with increased speed-up if possible. New, unnecessary undertakings had better be deferred until leisure time.

JUNE 22 to JULY 23 (Cancer)

A progressive day for energetic ambitious Cancer-folk. Use keen imagination and intuition to good advantage. Make new, valuable connections; sell yourself and your product.

JULY 24 to AUGUST 23 (Leo)—You must advance, not one step but many, and here and now is the time to prepare and fight for that goal. Planning is not enough, you must complete those plans. You yourself make or mar your future. Good influences especially today for practical needs.

AUGUST 23 to SEPTEMBER 23 (Virgo)—Put money worries behind you—other and more important matters need your assistance, advice and ideas. We are in need of strong minds, stout hearts, faith and willing hands.

SEPTEMBER 24 to OCTOBER 23 (Libra)—Deliberate sufficiently before you act to avoid errors. Be cautious in agreements, contracts, estimates. "An ounce of prevention" you know. A M. favorable for dealing with superiors, government or industrial concerns.

OCTOBER 24 to NOVEMBER 23 (Scorpio)—Mixed influences with the most advantageous star vibrations emanating during the morning and evening. Favors may be sought and granted; conferences held. Cooperation between management and labor urgent.

NOVEMBER 23 to DECEMBER 22 (Sagittarius)—Fresh opportunities and good advice offered today, especially if you are eager and decisively when the occasion demands. Industrial businesses under beneficent rays.

DECEMBER 23 to JANUARY 21 (Capricorn)—Scales tip in your favor, especially if you are eager to make headway and unite your efforts with those working for general good. New ways and means for personal achievement shown.

JANUARY 22 to FEBRUARY 20 (Aquarius)—Strong aspects sponsor mechanics, technicians, builders, carpenters; all useful trades; army, navy and aviators; in fact, all who wish to succeed CAN make some gain today.

FEBRUARY 21 to MARCH 20 (Pisces)—Your greatest help will come from within yourself, and you've heaps of common sense, intuition and ability at your command. No halfway measures! Give your better self leeway.

A CHILD BORN ON THIS DAY Affable, gentle-mannered, humane, industrious, intelligent, affectionate. Will do a conscientious job given authority. Driving this individual will not do, but sane reasoning and appealing to its intellect and fairness will. He, or she, is capable of unusual achievement in any worth while endeavor.

Dorothy Dix Says—

SEGREGATING CHILDREN NO ASSURANCE OF SAFETY

Parents Make Grave Error When They Refuse To Allow Young Daughters To Associate With Boys

A great many parents think that they are protecting their children when they segregate them, as far as it is possible to do so, from members of the opposite sex. Even in this day of emancipated youth there are plenty of households in which the girls are never allowed to have boys call on them or to go out on a date until they are 20, and where the boys are required to come straight home from school without loitering on the way with any little cutie, and to mind that they keep their eyes before them.

The fathers and mothers believe that by keeping their children from associating with the opposite sex, they are protecting them from the perils of sex attraction, on the principle that if you have never tasted caviar you wouldn't hanker for it. Also, that if boys and girls were not exposed to each other in their adolescence, they would escape the contagion that nearly every one gets in their teens and be able to make a judicious choice of a wife or husband in later life. There is nothing new about this theory except that it violates every principle of human nature, and that it won't work. For it is eternally true that forbidden waters are sweet, and that we are all willing to risk our necks climbing for the peach that is the light on the tree. No youngsters with a drop of rich blood in their veins ever forbore to do a thing because it was dangerous, and the surest way to rush a boy and girl into a premature marriage is to clothe it with dark, mysterious portents and taboos that pique their curiosity and make them feel they want to try it.

Making Wallflowers No girls are so boy-crazy as those who have never had a beau. Because they have never been permitted to have a little boy bring home their books from school, or take them to ball games, and they always escorted them to such parties as they were invited to where they peeped the wall until some member of the family came for them, they long for these attentions as a lost soul does for Paradise, and are ready to fall at the feet of any boy who will deign to look at them.

The girls who have played around with boys since their mud-pie days take them in their stride. They see Johnny Jones as he is—a nice little snub-nosed chap, but no world-beater—and they go places with him when his father will lend him the car, and dance and quarrel and fight with him and never think of such a thing as falling in love with him. But to the girl who has never been allowed to have a boy friend even a little ordinary pipsqueak is a Fairy Prince and she falls for him like ripe wheat before the sickle.

Where Girls Learn Life Most parents want their daughters to marry, because, when all is said, marriage offers a woman the greatest security and the best chance at happiness of any career that she can follow, but they take the surest way of making them old maids by refusing to let them have the romantic dates when they are growing up. For it is then, if ever, that a girl acquires a technique in handling men.

She learns on the campus, in the school room, at the soda fountain how to lead a boy on and how to let him in his place; how to tell the difference between near-love-making and the real thing; how to laugh off sentimentalities; how to make a date heavy or light. But the girl who has never been permitted to have a beau until she is 20 years old never learns these things. She is always too eager or too stoic. She thinks an invitation to dinner is a proposal of marriage. She has no adaptability. In a word, she has never learned how to play the love game and she is too old to learn.

Should Know Each Other Parents should realize that no part of their children's education is more important for them to know each other, and this invaluable information can only be acquired by personal association. For like Mr. Kipling's hero, every little boy learns about women from the Marv and

(Continued on page 8, Col 7)

Needlecrafts - For The Home

Surdy corduroy makes the jacket of your little girl's new suit; gay plaid is just right for the comfortable suspender skirt. She'll learn them together or she'll learn them on over her dress for those in-between days when a full-length coat is too warm. The skirt will go with any blouse, sweater or shirt in her wardrobe. She'll love it rosy cut that gives her plenty of room for action, and the suspenders that hold it in place so neatly.

Style No. 3138 is designed for sizes 4, 6, 8, and 10. Size 8 requires 1 1/4 yards of 54-inch fabric for jacket; 1 1/8 yards for skirt. Pattern includes jacket and skirt only.

Send Twenty (20¢) coin is preferred, for Pattern Write plainly your Name, Address and the style number. Be sure to state the size you wish.

A Morning Smile

The curate was playing golf with the bishop. He was by no means an expert. On one of the greens the curate struck at the ball three times and missed. In exasperation he exclaimed, "I shall have to give it up."

"Don't do that," said the bishop, "have another try."

"But," replied the curate, "I mean I must give up the ministry—I want to swear."

The sergeant raged as his squad of recruits turned left when they should have turned right and vice versa. Private Higgins was the greatest offender, and the sergeant, going up to him bawled in his ear:

"Haven't you ever drilled before in your life?"

"I once drilled for three years," "I'm indred, and where?" snapped the sergeant.

"In a quarry," grinned Higgins.

With Clear Piano Chart You Soon Learn to Play

Beau is Proud to Claim You

So nice to play the piano, feeling your beau is proud of you! Other men congratulate him: "Quite a girl! How well she's learned to play! And only you know how easy it really was, if you learned the quick way with a keyboard chart."

How is it done? You've probably noticed that on a piano the same seven white and five black keys are repeated all up and down the keyboard, so there aren't many keys to learn. But you've probably wished that the music note for each key could be printed right over it, much as in our diagram.

Well, that's what your keyboard chart does for you—pictures life-size the four most-used octaves on the piano and the note right with each key. On placing the chart behind your real keyboard you see at once which key to play for each note.

You quickly learn to read music then—and when you've learned some harmonizing chords you can play pieces a short-cut way.

Our 24-page instruction book, with "life-size" keyboard chart, shows you how you can play pieces without long hours of practice. Teaches rhythm, elements of music. Has table of chords; three tunes or practice.

Send 20c in coins for your copy of "Quick Course in Piano Playing" to The Guardian Home Service. Be sure to write plainly your Name, Address and the Name of booklet.

She thought her little girl's nightie was white... till she took her to stay with a RINSO-user

You'll wonder why you were satisfied with anything else when you see Rinso-whiteness

MOTHER: I've always prided myself on getting my wash white—now look at Rose's nightie against your sheets. It looks quite dingy... And with all my washing experience, too!

COUSIN BEMMA: Don't blame yourself. I know you're just as "particular" as I am. The difference is that I use Rinso! It not only gives a whiter wash but the very subtlest wash. And such wonderful rich suds—clothes just soak clean.

MOTHER: Do you mean you don't have to rub and scrub them? COUSIN E. Goodness, no! Rinso gets white things white so safely things, too. It keeps colors so much brighter!

MOTHER: Wonderful! I'm going to try Rinso myself—this very washday. COUSIN E. Mark my words—you'll be so amazed at the difference it makes you'll never again be satisfied with anything else! Don't forget to get the GIANT package for extra economy.

Rinso gives the whitest wash!

THE COOK'S CORNER

TOFFEE CRISPS

2 1/2 cups (2-oz. size) 1 tablespoon cream 1/2 teaspoon butter 1 1/2 cups cornflakes 1-2 cup chopped nuts

Method: Place toffee bars in top part of double boiler along with the cream and butter. Heat over boiling water until the toffee melts stirring often. When melted, remove from heat and pour over cornflakes and nuts which have been placed in a buttered bowl. Drop by spoonfuls onto sheets of waxed paper, or spread in a buttered pan and cut in squares when cold. Set in refrigerator for a few hours to harden. Please note: No baking here either!

QUICK NUT COOKIES

1-1 1/2 cups (1 can) sweetened condensed milk 3-4 cup chopped nuts 1-1 1/2 cups dry bread crumbs 1-2 teaspoon salt 2 teaspoons cinnamon

Method: Combine sweetened condensed milk, chopped nuts, bread crumbs, salt and cinnamon, and stir until thoroughly blended. Drop by spoonfuls onto a buttered baking sheet and bake in a moderate oven (375 deg. F.) for about 12 minutes. Remove from pan immediately on taking from the oven. This makes about 2 1-2 dozen cookies.

The next two are simplicity itself to make. The first requires heating a mixture to the boiling point, mixing in the rest of the ingredients and then allowing to harden in the refrigerator—that's all. They're delicious.
