	DAM [from a litter of 5] Bred by J. R. Dinnis	SIRE number of litter unknown Bred by J. R. Dinnis DAM number of litter unknown Bred by Holt R. New

## 15 Reasons Why You Should Invest in the John R. Dennis Pedigreed Foxes Limited.

1. BECAUSE John R. Dinnis, the caretaker, has had six years' experience in the raising of foxes.
2. BECAUSE his name is synonymous with success in fox raising. He is simply without a peer on Prince Edward Island. His average last year was about 100 per cent. greater than the average of all P. E. Island ranches.
3. BECAUSE according to this year's Government Returns his ranch paid taxes on more young foxes than any other ranch, although he had less pairs of breeders than many other ranches on P. E. Island.
4. BECAUSE all the pairs of young breeding animals are chosen from the most prolific stock in this large ranch, and one can easily see that \$1,000 in a strain of breeders averaging five to six per litter is very much more profitable than the amount invested where two or three is the rule.
5. BECAUSE over 50 per cent. of the young breeding stock is chosen from litters of sixes and 30 per cent. from strains having litters of fives. The average on P. E. Island last year was, according to Government statistics, two per pair.
6. BECAUSE the animals will remain on the same ranch in which they were born and have the same caretaker and feeder, a very important matter where such valuable and timorous creatures are concerned.
7. BECAUSE prospective investors may inspect the ranch and all the animals on foot at the present time.
8. BECAUSE this highly prolific strain of stock is put into the flotation at practically market value; absolutely no water. You get one hundred cents for your dollar.
9. BECAUSE Mr. Dinnis' reputation is selling the Company's stock faster than that of any other on P. E. Island where people have first hand knowledge of the ranchers.
10. BECAUSE, in a word, the eleven pairs are the choicest foxes in the world with the highest record for fecundity in ancestry of any Company ever floated.
11. BECAUSE it is the only Company which has made any effort to select the breeding stock on ancestral records for both fur quality and large litters.
12. BECAUSE all the animals are eligible for registration in the highest grade "A" of the Fox Breeders' ASSOCIATION HERD BOOK, and the ranch is the best equipped and most carefully guarded of any on P. E. Island.
13. BECAUSE the Company has as assets,—First—The sole use of the name and goodwill of Mr. John R. Dinnis, Second—A directorate composed of men of the highest probity and occupying high official positions.
14. BECAUSE of the cheapness of this high quality young stock in flotation; for a strain of foxes, giving five to six pups per litter, valued at \$19,000 per pair, is a much better proposition for investors than the average strain of foxes where the rule is two to three, even if these are placed as low as \$10,000.
15. BECAUSE J. Walter Jones, who was chosen by the Commission of Conservation, Ottawa, to render a report for the Canadian Government on "Fur Farming in Canada" is a Director in the Company and an advisor in matters of selecting, breeding and mating of stock.

### COPY OF MR. DINNIS'S GUARANTEE TO THE DIRECTORS.

I, John R. Dinnis, stock breeder and fox rancher, of Charlottetown, P. E. I., do hereby agree to place with the John R. Dinnis Pedigreed Foxes, Limited, only stock with the highest ancestral record for fecundity and fur quality, and pledge my honor that not one fox which is not above average quality of silver black foxes shall be placed in the Company, and that none of the ten young foxes will be taken out of litters of less than four young. I hereby agree to give the John R. Dinnis Pedigreed Foxes, Limited, the sole use of my name and good will in so far as the breeding of foxes is concerned.

(Signed) John R. Dinnis.

### Directorate

- President—John R. Dinnis, Esq., Charlottetown Stockman and Fox Rancher.
- Vice-President—Dr. B. C. Borden, Sackville, N. B. President Mt. Allison University.
- Secretary-Treasurer—J. Walter Jones, B. A., B. S. A., Charlottetown, P. E. I., author of "Fur Farming in Canada"; late of U. S. Department of Agriculture.
- W. E. Cameron, B. A., (Oxon.), Charlottetown. Professor of Economics and Commerce, St. Dunstan's College.
- Charles Lyons, Esq., Charlottetown, Mayor of Charlottetown.

# Points to Consider in Regard to The John R. Dinnis Pedigreed Foxes Ltd.

- 1st. The Experience and Skill of the Ranch Manager
- 2nd. The Pedigree and quality of the Stock
- 3rd. The High Standing and Probity of the Directorate

The first issue of \$123,000 Stock was oversubscribed in ten weeks,  
The second issue of \$77,000 was gone in 6 weeks,  
The Directors at their last meeting added the 11th and last pair of the Breeding Stock and offer to the public the last opportunity of purchasing at par.  
Only \$18,000 of Treasury Stock is now issued to cover this last pair,  
Par value of shares \$100.00 till Dec. 20th.

**J. Walter Jones**  
Sec'y Treasurer

**PEN IX**  
Owing to Mr Dalton's absence from P. E. Island at the present time, it was found impossible up to the time of going to press to get the history of the pair in this pen. The following is a copy of the transfer CERTIFICATE.

This is to certify that F. H. Beers of Charlottetown purchased from me in the season of 1912 two black foxes—one male and one female, produced from some of my best stock in my ranch in Tignish,

(Signed) CHAS. DALTON.

**PEN X**  
Copy of certificate from Hon Charles Dalton describing this foxes in the pen.  
This is to certify that in the year 1912 I sold to A. A. Bartlett, one pair of black foxes. This pair was bred in my ranch at Tignish, and were from my best Island stock. They are eligible for registration in Class A. of the Fox Breeder's Association. I do not remember how many were in the litters they came from, but as I always kept breeders from my most prolific stock, this pair are equal to my best in that line.

(Signed) CHAS. DALTON

**PEN XI**  
SIRE (No. of litter of Unknown)  
Bred by C. Dalton

**Male**  
From of a litter of 4

DAM (number of litter unknown)  
Bred by Chas. Dalton

These foxes are described in the certificate in pen IX,

**Female**  
No of litter unknown

History not yet obtained. Bred by Hudson Gordon from his best Stock.
