**Insidious Eye Strain**

We use this adjective advisedly. Sufferers from Eye Strain may have perfect vision and therefore do not suspect the presence of any evil defect.

The motive power of the entire human organism is Nerve Energy.

Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eye Strain is present, a much larger proportion is required. Hence defective eyes through their consumption of an excessive amount of Nerve Energy may seriously affect the functioning of other organs of the body and produce ill health.
