U. S. EMISSARY TO PRESS FOR WAR CLAIMS

In Behalf of Shippers who Suffered from the War-time Block- ade— Fifty-fifty Set- tlement Hoped For

(Special to the Guardian)
LONDON, Sept. 17.—The British government hopes to get a "fifty-fifty" settlement of the war claims which Captain F. K. Hill, head of the United States Naval mission, who arrived here last night will present to the Admiralty and other British government departments.

The war claims will raise the question of the United States war-time shippers "blockade" and will bring before a round-table conference, the date of which has not yet been fixed, the matter of services and supplies extended by the United States Navy to the British Admiralty, and service rendered to the United States Navy by the British.

The British government will meet United States claims with various counter-claims, but whether the British bills for reconditioning United States ships at the time of the war will equal the great sums which the United States emissary is expected to ask in behalf of the shippers who have suffered from the blockade is a subject on which little official comment can be obtained.

Plant of Elevator Co. Sold For One Million Dollars

(Special to the Guardian)
FORT WILLIAM, Sept. 17.—The plant of the Fort William Elevator Company with a capacity of 1,750,000 bushels has been sold to the British Empire Elevator Grain Company at a purchase price of approximately one million dollars.

The head office of the new company is at Winnipeg.

Send Out Special Pidgeon Trains

LONDON, Sept. 17.—Weekly special pigeon trains are provided for bird fanciers throughout the home season by the London and North Eastern Railway.

One night alone, to give an idea of the interest in this sport in England, seven cars carrying 42,000 birds left King's Cross Station to be liberated the next day at various points, most of them at Scarborough, 180 miles away. Many of the pigeons' owners are working men.

Artificial Light Do Not Affect Magnolias

WASHINGTON, D. C., Sept. 17.—Flowers—at least Magnolia—can not be kept awake by means of artificial light, investigators of the Department of Agriculture have found in motion picture tests.

Using an automatic time lapse camera to record the growing stages of the flower, the investigators were treated to an unexpected sight when the Magnolia, set in a room flooded with electric light, closed its petals when natural darkness arrived, to open again only with the arrival of daylight.

Terrific Storm Passes Over Turks Island

(Canadian Press)
TURKS ISLAND, Sept. 17.—Enormous damage to property was caused by a tropical storm of hurricane force which passed over Turks Island yesterday. There were no fatalities. Nearly all the lighters in port were lost.

Knife-Throwing Incident At British Embassy

(Canadian Press)
TOKIO, Sept. 17.—A knife was hurled toward Princess Louise of Sweden, Sir John Tilley, British Ambassador, and Albert De-Beal, Belgian Ambassador yesterday while a luncheon was in progress at the British Embassy. The weapon struck Robert Tilley, son of the ambassador, near the heart but was deflected by a gold cigarette case. Young Tilley was injured. The would-be assassin escaped.

Both British and Japanese officials are reticent concerning the incident.

Swims Across English Channel

(Canadian Press)
DOVER ENGL., Sept. 17.—Norman Leslie Dereham of Southend, Eng., today finished a swim across the English Channel from Cap Gris Nez, France. Dereham made the swim in 13 hours 56 minutes.

King's Building Fund Continues To Grow

HALIFAX, N. S., Sept. 17.—At a meeting of the Executive Committee of the University of King's College, held here last evening, the Rev. Dr. Moore, President, reported that several subscriptions to the Building Fund had been received since July 15th, when he reported to the Advisory Board of the Carnegie Corporation for the Maritime Provinces that a total amounting to 325,000 had been pledged. The largest recent contribution is for \$25,000 from the Rev. Dr. and Mrs. W. H. H. Morse, of Lynn, Mass. Dr. Morse is a native of Nova Scotia, and has a beautiful summer home at Paradise, N. S. As a result of Dr. Moore's visit to St. Andrews, N. B., in August, the ladies gave a ball at the Algonquin Hotel, under the energetic leadership of Mrs. Henry Joseph of Montreal, and raised \$200, which will be added to the quota from that parish towards the fund. Among the contributions received is one of \$150 from Mr. and Mrs. Featherstonehaugh, of Toronto, who listened to Dr. Moore's appeal at Chester, N. S., in all upwards of \$5,000 have been added to the fund during the summer.

Mr. A. E. Nash, Bank of Montreal, Halifax, who is Treasurer of the fund, reports that payments due on pledges on Sept. 1st are coming in very well. Dr. Moore stressed the importance of having these payments in hand when due and pointed out that the upwards of 6,000 subscribers to the fund can assist greatly if they will be so kind as to remit promptly to the Treasurer at the above address.

The committee learned with great satisfaction that the Carnegie Corporation has signified its willingness to continue the annual grant of \$30,000 for the academic year 1929-30. The entire staff has been re-engaged and everything is being made ready for the opening of the University on October 1st. Nothing definite can be announced yet as to the extension of time for the raising of the \$70,000 yet required to qualify for the \$600,000 offered by the Carnegie Corporation. The Corporation will consider the matter at the next meeting of its Trustees Board in October, but there is every reason to believe that a reasonable extension of time will be given, since the \$30,000 grant has been renewed. Now that the goal is so nearly in sight the Executive Committee is confident that the friends of King's and of higher education in the Maritimes are not going to let the magnificent offer of \$600,000 lapse because a paltry \$70,000 is still required. Such a contingency is unthinkable.

Regarding the prospective entry of new students for 1929-30, Dr. Moore reported that the residence is filling up rapidly and the prospect is that it will be filled to capacity. Already a larger entry than that of last year has been listed.

AMERICAN CITIZEN BRUTALLY MURDERED

Jacob Rosenthal Held by Mexican Captors for \$10,000 Ransom, Was Viciously Killed When Cash Not Forthcoming.

MEXICO CITY, Sept. 17.—Jacob Rosenthal, a United States citizen was murdered by his bandit captors on Wednesday night when the ransom failed to arrive. The 000 ransom demanded and being hampered in their flight by the weak old man, the criminals killed him rather than let him be rescued alive by the Federal troops with whom they were engaged in a running fight.

The tragedy occurred in a wild country less than forty miles from Mexico City. The Federal troops had tracked down the band and had killed two of the bandits when the pursuit was halted by the recovery of the body of the captive. Later the pursuit was resumed after the bandits, who are believed to be only a small group.

Officials admitted in Mexico City after news of the murder had reached here that ransom had been demanded and that it was planned to send money. Soldiers were posted to capture the bandits when they appeared but the ruse failed. It is possible that the criminals, angered by this attempt viciously killed Rosenthal rather than allow him to be rescued.

The body of the dead man was found in the jungle bearing many stab wounds. It was taken to Cuernavaca by his son-in-law, Ruff and Mr. and Mrs. Dahler. The body will be brought to Mexico City, to await the arrival of his wife, who is now on her way here from New York.

The troops have been ordered to redouble their efforts to exterminate the bandits. The United States officials are convinced that the Mexico government made every effort possible to rescue Rosenthal and capture the outlaws.

Italo-Rumanian Pact Signed

ROME, Sept. 17.—Premier Mussolini and Premier Averescu of Rumania, today signed a treaty of friendship at the Chigi Palace, the Rumanian minister to the Quirinal, and high officials of the Foreign Office were present. After the ceremony, Mussolini entertained Averescu at lunch.

The text of the treaty was not published immediately. It was understood to include a preface and five or six articles. The preface outlined the moral and political considerations forming the basis of the treaty and recalled the common Roman origin of the two peoples. It emphasized Italo-Rumanian identity of interests as well as the necessity of solving important post-war problems in a spirit of collaboration. Such collaboration, according to the treaty was inspired by the Locarno agreements, just made effective at Geneva.

It was believed that the treaty would result next spring in a visit to Rome by King Ferdinand and Queen Marie.

Averescu was expected to depart for San Rossore last night to pay his respects to King Victor Emmanuel.

Cluny Castle is Damaged by Fire

ABERDEEN, Scotland, Sept. 17.—Cluny Castle, belonging to Lady Emily Eliza Cathcart, and one of the largest and most palatial mansions in the north of Scotland, was visited by a disastrous fire last night. The Aberdeen fire brigade succeeded in saving the main part of the structure, but two wings and the beautiful chapel were blackened and ruined this morning. The loss is estimated at \$240,000.

When the fire broke out, supposedly from a defective fuse, Lady Cathcart, and members of a house party, at which she was hostess, and the servants, hurriedly carried the family treasures to the lawn.

Lady Cathcart is the widow of Captain Cathcart, sixth baronet, on whose death the title became extinct.

Lady Emily Eliza Cathcart, De Brit's Peerage indicates, is no relation to Countess Vera Cathcart, divorced wife of Earl Cathcart.

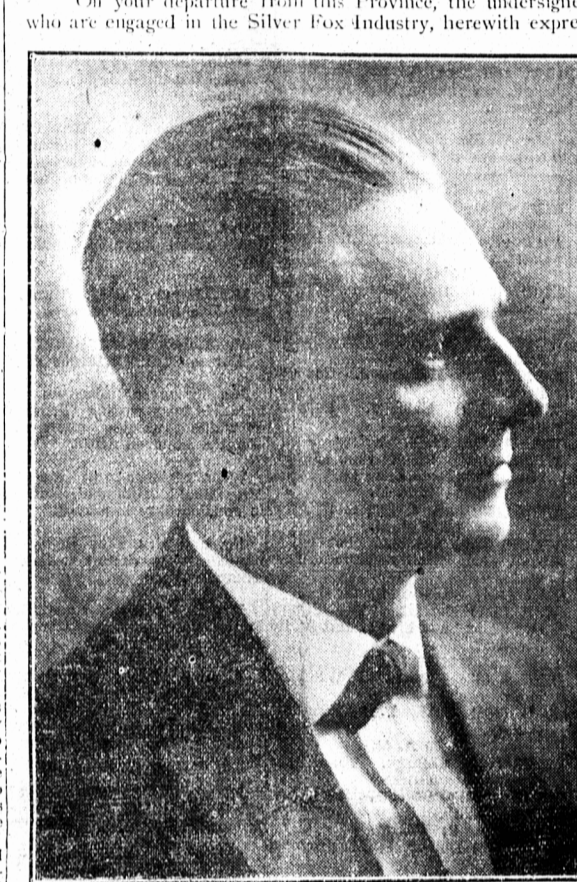

The earldom was created in 1814, while the Scotch baronet, which ended with the death of Lady Emily's husband in 1916, was created in 1704.

PRESENTATION TO DOCTOR J. A. ALLEN, V. S., B. V. SC.

A number of friends and well-wishers of Dr. J. A. Allen, V.S., B.V.Sc., waited upon him on Thursday evening, prior to his departure yesterday morning for Winnipeg, and presented him with a handsome purse of money, accompanied by the following complimentary address:—

Dear Doctor,—

On your departure from this Province, the undersigned, who are engaged in the Silver Fox Industry, herewith express

Dr. J. A. Allen, V.S., B.V.Sc.

our deep appreciation of the valuable services which you have rendered this industry, and also express our keen regret at losing a warm personal friend.

Since you came here eight years ago as Pathologist in charge of the Research Station, you have ever been alert, faithful and enthusiastic in the performance of your duties, for which by training and inclination you were especially fitted. You have been indefatigable in your endeavors to reach a solution of the many perplexing problems associated with the breeding of silver foxes in captivity.

In what is comparatively a new field for the scientist your research work has resulted in the discovery of preventive measures which have meant a saving of hundreds of thousands of dollars to an industry which has made Prince Edward Island famous throughout the world, and your name will be intimately identified with that of Sir Charles Dalton and others in connection with a rapidly expanding business.

You will not only be missed in a professional way but also as a citizen of Charlottetown, where your ability as an entertainer has frequently been demonstrated. You have given generously and freely of your time and talent to help many a worthy cause, and in other ways your generosity and kindness have been manifested.

It is indeed regrettable that a man of your splendid gifts should be lost to us, but we recognize that the change will be for your material gain and it would be selfish on our part to do anything to interfere with your personal advancement.

We feel sure that in your new and wider field of labor you will achieve a highly gratifying measure of success, and enjoy a well deserved popularity.

It is quite obvious that our loss will be a gain to any community of which you will become a member, but we want to assure you that any time you return here you will receive a hearty welcome from your old friends in the "Cradle of the Silver Fox Industry."

In token of our regard for you, not only as a scientist, but a most genial fellow worker, we ask you to accept this gift accompanied by our most sincere wishes for prosperity and happiness for Mrs. Allen and yours in your new home.

To Keep Cuba From Joining League Council

LONDON, Sept. 17.—An Exchange Telegraph despatch from Geneva today said the United States had applied pressure to Cuba, to prevent the latter country from being a candidate for the League of Nations Council.

Foreign Ministers Lunch Together

GENEVA, Sept. 17.—M. Briand and Dr. Stresemann, the French and German foreign ministers, motored together outside Geneva today for lunch, after which a conversation was to be held covering all the outstanding problems between the two countries. The place of meeting was kept secret.

MILLIONAIRE CLASS SHOWS INCREASE

It is Estimated That There are Now 11, 000 Millionaires in the United States, a Result of the Wond- erful Prosperity of Corporate Business.

(Canadian Press)
NEW YORK, Sept. 17.—There are 11,000 millionaires in the United States today, it is estimated by Joseph S. McCoy, Government actuary, United States Treasury, in an article in the current American Bankers Association Journal, which points out that this means that one person out of every 10,450 Americans has accumulated a fortune of a million dollars. Mr. McCoy declares that the nation now has its first billionaire. The article says:—

"Latest preliminary figures by the Bureau of Internal Revenue indicate that for 1924 seventy-four individuals made returns for income tax whose net income was acknowledged to be in excess of \$1,000,000. This means their entire income, less all allowable deductions. The total net income of these seventy-four was returned at \$154,852,709, an average of something over \$2,000,000 each. Thirty-six had incomes not in excess of \$1,500,000. Incomes in excess of \$2,000,000, numbered thirteen. Incomes over \$2,000,000, but not over \$3,000,000, were fifteen. There were four incomes between \$3,000,000 and \$4,000,000, three with between \$4,000,000 and \$5,000,000, while three individuals returned incomes in excess of \$5,000,000. These three returned a total income of \$27,355,319, an average over \$9,118,463 each."

"In addition to those with annual incomes in excess of a million dollars are the people who are actually worth a million dollars or more, although their income may be much less than a million. Americans with over a million dollars cash capital invested in government bonds at par, paying the Liberty Loan rate of interest of 4 1/4 per cent, would have an income of only \$42,500. The individual who receives an annual net income of \$50,000 exclusive of personal services it would seem safe to say, is a millionaire."

"The Internal Revenue report for 1923 shows that, of 7,698,321 returns, \$590 were made by individuals whose wealth was probably in excess of \$1,000,000. In 1914 there were probably about 4500 millionaires in the United States. This number increased to about 6600 in 1915, to about 10,900 in 1916 and to about 11,800 in 1917, the maximum number of American millionaires at any one time due probably to war conditions. At the present time there are probably about 11,000 American millionaires."

"The increase in number from 1923 has been caused by the wonderful prosperity of corporate business. This has occurred since the removal of burdensome excess profits tax that was levied upon corporations as a war measure. This tax produced the largest revenue ever derived from a single source of taxation in a single year of which the world has any record. During 1918 over \$2,505,000,000 accrued from corporations on account of this tax."

"The statistics show the squeezing out of many of our war-made millionaires. By 1923 some 2800 of these were no longer in the millionaire class, many have totally disappeared from the list making income tax returns, while others made returns of comparatively small incomes. In 1914 the number of American millionaires was about 45.44 per each 1,000,000 of population. In 1923 it was about 77.30 while today it is about 85.22."

British Government Will Use Force

(Canadian Press)
LONDON, Sept. 17.—The British government is prepared to take steps to recover by force the two merchant vessels held by General Vang Sen's men on the Yangtze River unless they are immediately surrendered, it is intimated in unofficial quarters.

Danger Lurks In The Salt Cellar

PARIS, Sept. 17.—Danger both to the mind and the body lurks in the salt cellar. So says Dr. Jean Bouchon, an eminent French surgeon.

In an article in the Nouvelle Revue, Dr. Bouchon says salt is one of the worst of modern social poisons. Because of it surgeons constantly are operating for appendicitis, gastric ulcer, and liver and renal calculus. It atrophies, dries up or hardens muscular tissues and causes persons with tendencies to arthritis to become stout and those of lymphatic temperament to become thin.

According to Dr. Bouchon salt also has a deleterious effect on the intelligence.

Governor-General Will Sail Sept. 25.

LONDON, Sept. 17.—Lord Willingdon, Canada's Governor-General, is to be, will sail from England on the Empress of Scotland on September 25th, arriving at Quebec on October 2nd.

"The statistics show the squeezing out of many of our war-made millionaires. By 1923 some 2800 of these were no longer in the millionaire class, many have totally disappeared from the list making income tax returns, while others made returns of comparatively small incomes. In 1914 the number of American millionaires was about 45.44 per each 1,000,000 of population. In 1923 it was about 77.30 while today it is about 85.22."

Kindersley Again in Doubtful Column

(Canadian Press)
TORONTO, Sept. 17.—Despatches this afternoon indicate there had been asked to the Liberal Candidate, J. A. Dowd, the Progressive nominee A. M. Carmichael is now leading by 83 votes with several polls still to report. This necessitates the transfer of this seat from the Liberal to the doubtful column.

Founder of Famous Choir is Dead

(Canadian Press)
TORONTO, Sept. 17.—Augustus Stephen Vogt, founder of the Mendelssohn Choir, died here this afternoon. He was 66 years of age and was born in Washington, Oxford County, Ont. He conducted the famous choir from 1894 to 1917 and was one of Canada's outstanding musicians.

Warrants Issued For Arrest Of Mrs. McPherson

(Canadian Press)
LOS ANGELES, Sept. 17.—Warrants for the arrest of Mrs. Alice Scapple McPherson, Evangelist, and four associates involved in her recent disappearance case were formally issued today when municipal Judge Samuel Blake in the presence of District Attorney Keyes, signed the papers calling for the five arrests.

The warrants were handed to Ben Cohen, chief of the district attorneys detectives who left the court room at once.

Liberal Government Will Take Office Next Week

(Canadian Press)
OTTAWA, Sept. 17.—The Liberal government of Right Hon. W. L. Mackenzie King will probably take over the reins of office next week. Former Premier King has made no announcement since election day but Premier Meighen has declared his intention of resigning after a final meeting of his cabinet slated for Monday next.

It is probable that very little time will intervene between the resignation of Mr. Meighen and the calling of Mr. King to the post of Prime Minister.

British Government Will Use Force

HUNDREDS ON LINER SEE STEAMER SINK

Italian Freighter Col- lides With Induna Which Sails on, Da- maged.

LONDON, Sept. 17.—The Italian steamer Ellena sank to the bottom of the ocean yesterday off the British coast, but what has become of her crew remains a mystery.

The first report to Lloyd's that all hands were lost appears to have been premature, for the steamer Homeric, which rushed to the rescue of the sinking steamer, reports the possibility that the crew were picked up as numerous fishing craft were in the vicinity, but no word has been heard of them as yet.

The Belgian steamer Indier reports finding an empty lifeboat.

The disaster was due to a collision between the Ellena and the British steamer Induna, which, although damaged was able to continue.

Hundreds Look On

LONDON, Sept. 17.—While hundreds of American tourists returning home aboard the White Star Liner Homeric looked on, the Italian freighter Ellena, sank in the Atlantic ocean Thursday, a wireless message from the Homeric stated.

The Homeric, which left Southampton Wednesday from New York, the Olympic and various small craft answered an S. O. S. call from the Ellena Thursday. From a distance of five miles the Homeric saw the craft sink. Proceeding closer to the scene of the disaster it found wreckage but no sign of any members of the crew.

Brilliant Islander Reelected in Sask.

Mr. Ewen Campbell, New Wiltshire, received a telegram yesterday from Pelly, Sask., informing him that his son, Mr. Milton N. Campbell, Progressive member for Mackenzie, Sask., in the last parliament was elected last Tuesday with a majority of 1100 over the Liberal candidate.

This is a distinct triumph for Mr. Campbell as all the artillery of the Liberal party, including both Mr. Dunning and the present Premier of Saskatchewan, was turned against him. It is worth noting that Mr. Campbell's former Progressive friends endorsed his action in the last parliament and stood by him during the recent election.

The Guardian heartily congratulates this brilliant young Prince Edward Islander who has on more than one occasion shown that he had and has the courage of his convictions.
