Simon's Views Are Upheld By Cabinet

German Chancellor Is Defiant On Arms Stand Ministers Hold Session At No. 10 Downing St.

WILL NOT TAKE PART IN ANY CONFERENCE

Demands Equality With Other Nations As Only Inducement For Negotiations.

(By John A. Bouman)
(Associated Press Staff Writer)
BERLIN, Oct. 18.—(A.P.)—Chancellor Hitler proclaimed today that Germany will participate in no conference or agree to no convention "as long as she is not treated equally."

And if to still report abroad that the Reich may return to the Disarmament Conference and the League of Nations, the Chancellor in a speech to his followers maintained:

"Germany is determined in the future to attend no conference, enter no league, agree to no convention and sign nothing as long as she is not treated equally"

ELECTION SLOGAN

He bid for the conciliation of his enemies at home today and issued a slogan for the Reichstag election campaign the sentence, "We solemnly refuse to be treated as a second class nation."

He offered his opponents an all-round reconciliation in return for their support in the plebiscite Nov. 12, announced last Saturday—along with Germany's withdrawal from the League of Nations and the

RAILWAY DISPUTES BELIEVED SETTLED

Premier Bennett Expected To Make Public Announcement Shortly.

(Canadian Press)
MONTREAL, Oct. 18.—A joint statement of the Canadian railways and the railway running trades announcing settlement of their differences over the second 10 percent cut was awaited in well-informed railway circles tonight. The opinion prevails the statement will be made public by Premier R. B. Bennett, probably upon his return from the west.
Meanwhile it was understood the men and their employers continued today to discuss details of the agreement which according to widely published but unconfirmed reports has been reached. As both parties have agreed to refrain from announcing progress of the negotiations, nothing further was available.

EMPTY CABINS REVEAL FATE OF CREW

Searchers Find Little When Exploring Hull of Ill-fated Ena F. Parsons.

(Canadian Press)
WEST PORT, N. S., Oct. 18.—Empty cabins in the shattered hull of the Ena F. Parsons tonight grimly indicated the fate of five Nova Scotians who ventured to sea aboard the big schooner in the face of an Atlantic hurricane.
Searchers cut through the hull of the derelict three-master today after she had been beached here, but they found no trace of the four men and one woman who set out from Weymouth, N. S., for Boston, on Oct. 7. A water-soaked fur coat lay in the after-cabin—it belonged to mate Richard Desmond's wife.
The cabin door was open, and she had evidently been on deck when the hurricane dismantled the schooner and overturned it 34 miles off the Nova Scotia coast, where a passing vessel found the lumbering craft after the storm. Captain Daniel Desmond and his crew had apparently been swept overboard when the schooner turned over without giving them a chance to take to the boat.
An empty life boat was found washed ashore on Long Island but its condition indicated it had been ripped from the ship during the storm. There were no signs that it had been occupied.

Four Power Peace Pact Dealt A Death Blow?

By Melvin K. Whiteleather, Associated Press Staff Writer.
PARIS, Oct. 18.—The French Foreign Affairs Commission came to the conclusion today that the four-power western European Peace Pact was killed in its first test, Germany's withdrawal from the Arms Conference.
When Premier Daladier told the Chamber of Deputies yesterday that France was ready to resume arms discussions and challenged Germany's action, he significantly avoided mentioning the agreement that Great Britain, France, Germany and Italy signed in July.
French leaders believed that Chancellor Hitler's explosion on Saturday, when he announced the withdrawal and termed the Disarmament Conference a failure, definitely rendered the four-power accord useless.
Its opponents added that the commission's stand was the first step toward a "first class funeral."

STRONG WARNING ISSUED AUSTRIA BY CZECHOSLOVAKIA

(By Wade Werner, Associated Press Staff Writer)
VIENNA, Oct. 18.—Foreign Minister Edouard Benes of Czechoslovakia departed for home tonight after conferences with Chancellor Dollfuss, leaving his host and the Austrian public seriously pondering one of the strongest warnings this republic has received in post-war years.
This injunction was not to permit "extreme tendencies such as have been so loudly proclaimed recently" to get the upper hand.
Benes personally brought no ultimatum to Dollfuss—at least a communique issued after the meeting mentioned only that they had discussed negotiations regarding a supplementary trade treaty and various political and economic questions "interesting to both countries."
On every Vienna newsstand, however, and in every Vienna cafe lay original or reprinted copies of Benes' own newspaper, the Prager Presse, which warned that "friendly relations of Austria and Czechoslovakia can be effectively furthered only if no extreme tendencies win the upper hand in Austria."
In quarters close to Chancellor Dollfuss it was believed that the Czechoslovakian Minister either orally or in writing did not repeat the warning to go slow, possibly preferring the more effective method of gesturing strongly and publicly through the newspaper.
No Ultimatum
Benes personally brought no ultimatum to Dollfuss—at least a communique issued after the meeting mentioned only that they had

Sir John Simon's Speech Criticized

German Press Say Attempt Made To Shift Blame For Withdrawal From Parley.

BERLIN, Oct. 18.—(A.P.)—With one accord today German newspapers criticized Sir John Simon, the British Foreign Secretary, for what they called his attempt to shift the responsibility for Germany's withdrawal from the Disarmament Conference to other shoulders.
To Sir John's reference to "sample weapons" from Germany, newspapers reported that the idea did not originate in Germany, which had never budged from the claim to an immediate concession of equality.
(In an address in London last night Sir John declared: "I most emphatically say that the question which seemed likely to give the most trouble was whether Germany should have from the beginning what were called 'samples' of types of weapons now prohibited her." He added he had asked for information on the point but that Germany, instead of defining what was meant by samples claimed a substantial rearmament.)
"By an inescapable logic it follows," said the Diplomatisch Politische Korrespondenz, that arms allowed others must be conceded to Germany.
"The German Government from the beginning emphasized it would be ready to negotiate on the equality thereof."

Recommend That Recovery Plan Be Supported

(Associated Press)
NEW YORK, Oct. 18.—The New York Clearing House Association today passed a resolution recommending to its members that they enlarge their capital structure in support of President Roosevelt's bank programme and co-operate in carrying out his recovery policy.
A statement issued by Percy H. Johnston, Chairman of the Clearing House Committee said: "The President of the United States has publicly stated his belief that banks of the nation should strengthen their capital structure."

SERIOUS ACCIDENTS IN PRINCE CO.

Messrs. Michael McEntee, Emerald, and Leonard Duffy in Serious Condition.

(Special to the Guardian)
SUMMERSIDE, Oct. 18.—Mr. Michael McEntee of Emerald was brought to the Prince County Hospital about 11.30 yesterday morning in an unconscious condition suffering from injuries to his spine. He remained in this condition until about 9 o'clock last night, when he recovered consciousness and his condition was a little improved.

Mr. McEntee about nine o'clock Wednesday morning was fixing some machinery in an old shed which was half tumbling down, when the building collapsed, part of it falling across his neck. Dr. Jardine of Kensington was called and rendered first aid. Mr. H. A. Monaghan of Kinkora then brought him in an ambulance to the hospital. His condition is very serious and little hopes are held out for his recovery.

Mr. Leonard Duffy of County Line Road, who was brought to Prince County Hospital on Tuesday suffering from injuries sustained when he was thrown off the wagon he was driving, was X-rayed yesterday afternoon and it was found that he has a broken back and other internal injuries. His condition is very critical.

Mr. Duffy was leaving the potato field after his day's work when the accident happened. The horses took fright suspecting the wagon and the wheel fell across Mr. Duffy's back. He is a man in his early forties.

Negro Dragged From Jail And Lynched By Mob

(Associated Press)
PRINCESS ANNE, Md., Oct. 18.—A Negro accused of attacking an 81-year-old white woman was dragged from the Somerset County Jail tonight by a mob of more than 1,000 men, women and children and was lynched.
He was hanged to an oak tree just outside the town after the mob had stripped him of part of his clothing, attached a rope around his neck, and pulled him behind an automobile through the main streets of the town.
As the mob made its slow progress toward the scene of the hanging, various members leaped at the Negro, screaming and cursing, and repeatedly knocked him down. He apparently was dead when the crowd finally reached the oak tree.

Urge Amendment To Shipping Act

(Canadian Press)
MONTREAL, Oct. 18.—The portion of the Canada Shipping Act stating that no cargo shall be transported between two Canadian ports in other than a British vessel, should be amended, representatives of Canadian Lake Steamer Companies urged here today. While the slice in transportation rates has reduced competition from United States interests, it was pointed out that as rates firm there will be a potential menace to Canadian interests from United States ships unless an amendment to the Shipping Act is made effective.

Allays Fears Re Navy's Strength

SHEFFIELD, England, Oct. 18.—(C. P. Cable)—Admiral Sir Ernie Chatfield, first Sea Lord and Chief of Naval Staff, told an audience here tonight "the nation must take stock of its defence position and consider whether, on its present naval expenditure, it is maintaining naval strength in accordance with its policy."
Referring to apprehension in some quarters regarding the navy's strength, Sir Ernie said the personnel of that arm was never more efficient or zealous than at present.

Low Water Level In St. Lawrence

(Canadian Press)
OTTAWA, Oct. 18.—Owing to the low water levels in the St. Lawrence River, particularly at the port of Montreal and in the lower lakes, the Marine Department engineers have recommended that the Dominion Government appoint a commission of engineers to investigate the situation. In some points the water is the lowest in 30 years.

MUSSOLINI ATTEMPTS TO UNITE POWERS

Takes Role of Arbitrator As European Situation Continues Serious.

(By Joseph P. Sharkey Associated Press Staff Writer)
GENEVA, Oct. 18.—Premier Mussolini of Italy was credited with indefatigable efforts today to unite four European powers, including Germany in a discussion of disarmament at Stresa, Italy.
At the same time information from Berne, the Swiss Capital, indicated a determination to safeguard Swiss neutrality in the event the peace of Europe was threatened.
It was learned that the War Department will ask extraordinary credit of \$5,000,000 gold francs (about \$23,000,000) to increase armaments.

Further Discussions
The report reached here that the Italian leader had asked other powers regarding the feasibility of further conversations on disarmament.

Poland was said to have been asked whether she would approve such a project and to have replied that she wants all the problems considered at Geneva.

The impression prevailed that France would make disarmament concessions to Germany on the condition the Reich would remain in the League.

Urge Amendment To Shipping Act

(Canadian Press)
MONTREAL, Oct. 18.—The portion of the Canada Shipping Act stating that no cargo shall be transported between two Canadian ports in other than a British vessel, should be amended, representatives of Canadian Lake Steamer Companies urged here today. While the slice in transportation rates has reduced competition from United States interests, it was pointed out that as rates firm there will be a potential menace to Canadian interests from United States ships unless an amendment to the Shipping Act is made effective.

Raid Havana Hospital To Curb Communism

HAVANA, Oct. 18.—(A. P.)—Drawing the line between socialism and communism, the Cuban Government tonight mustered its forces for a final attack on its island-wide labor problem.
A raid on the emergency hospital in Havana started the fire-works. Approximately 71 policemen and soldiers in personal command of Chief of Police Franco, arrested all the hospital's employees, including 34 men and six women, and charged them with having com-

Session At No. 10 Downing St.

No Decision In Respect To Future Policy, Or Stand At Arms Conference Reached.

(Canadian Press and Associated Press Cable)
LONDON, Oct. 18.—The full cabinet of 19 ministers deliberated for two hours today in the white and gold cabinet room at No. 10 Downing Street over the situation arising from Germany's precipitate abandonment of the World Disarmament Conference.

It was understood the ministers reached no decision on the subject of future policy and the stand to be taken when the arms conference resumes at Geneva Oct. 26. The necessary conversations with other powers are still in progress.
It was learned however the Cabinet was in full agreement with the stand taken by Sir John Simon, Secretary for Foreign Affairs, in his controversy with Baron Konstantin Von Neurath, the German Foreign Minister who charged Sir John misrepresented Germany's arms demands to the United States.

Upholds Statements
Sir John met this charge with the reply his statements had been perfectly and absolutely right. He charged Germany had jeopardized, if not completely wrecked, the arms parley by her last-moment attitude which he insisted was in effect a demand for substantial re-armament; something that France and the United States, along with the British, oppose.

At the request of His Majesty, who throughout the disarmament discussion has been kept in closest touch with events, Sir John went to Sandringham in Norfolk tonight to give the King a first-hand account of the crisis.
LIVERPOOL, England, Oct. 18.—Viscount Hallsham, Secretary of War, said tonight the government fully supports Sir John Simon in the stand the Secretary for Foreign Affairs took on disarmament last week in Geneva.

"There is one thing I ought to say because the Foreign Secretary is hardly able to say it for himself," Viscount Hallsham said in a speech.
"The Foreign Secretary in what he did at Geneva was not speaking personally or individually but as a representative of the British Government with the assent of his colleagues."

STRAFORD, Ont., Oct. 18.—An announcement was made late today that all differences between employers and employees of the Preston-Noelting Furniture Company, closed a month ago when employees went on strike for higher wages, had been amicably settled. The striking employees will return to the plant at 7 a. m. tomorrow.

The announcement was made by A. W. Polley, chairman of the Shop Committee at the Preston-Noelting Plant. Neither employees of the firm or executives however would reveal the terms of the "amicable settlement."

It is understood the settlement at the plant has no bearing on the strike situation affecting the other five plants and their 700 odd employees. The strike is now approaching its sixth week.

Preston-Noelting is one of the largest of the six factories closed by the strike. It employs approximately 150 men and women.

Not Satisfied With NRA Results

WASHINGTON, Oct. 18.—(A.P.)—Administration circles, continuing today a check-up to ascertain how the United States Recovery Program is proceeding, said they were pleased but not satisfied. President Roosevelt feels that although farm prices have increased 32 percent up to September over the average for the year that ended in March, they are not high enough.
The increase was not met, because figures furnished the President by an interpreting economist for the Executive Council showed that while the farmer's yield for what he sold was increasing almost a third, the cost of products he purchased had also increased by 11 percent. Despite the abridgement of the gap by 21 percent, the farmer's return was listed as far below the pre-war parity.

The Weather, Etc

Nothing is more tiring than sitting up with a 'thick' friend!
