Customs Trim Post Office Second Game 7-3 Saturday night at the Arena the second game between the Post Office and Customs staffs was played and witnessed by quite a number of Post Office boys were minus a number of players which weakened their team work considerably, while the Customs had strengthened their team, which made the game after the first few minutes somewhat rugged. Dougan of the Post Office and Casey of the Customs were not playing up to usual form, the latter being only on the ice for a few minutes of each period. This was, disappointing to the boys, who have heard so much about his splendid showing in the previous game.

Peake redeemed himself last night, making some brilliant stops, especially in the last period when he did not seem to care who their rubber came with a high of low duty.

George Beers, of the Post Office, made his first appearance last night on local ice, but owing to his lack of skate parting company early in the game, he was obliged to retire much to the regret of the lovers of good, fast hockey who happened to be present.

The first period was fairly even, the Office staff scoring two goals shortly after the period opened, Large and Landrigan doing the trick. The Customs then opened and did not stop till Craig and Hobbs landed four goals past Hunter, the period ending 4-2.

In the second period the Customs added three more while the Post Office failed to count.

In the third period the Post boys came back strong and kept the play the greater part of the game on the Customs territory, Large finally scoring before the gong sounded, with the Customs on the long end of a 7-3 score.

Acorns may grow on trees, but you would think "Bobby" grew up on skates.

The big race after the match did not materialize, Casey forgetting the sticks to Sam Doyle.

The Post Office intend putting the "Hobbs" on Hobbs for the play-off game.

George got a cracker two.

Hunter didn't go hunting around, they came right to him, until he got to look like a letter with no street number on it.

Joe says he will play Besst next time.

Billy Stewart was right there with the sleigh when the game was over and quickly reached the "males" to the Post Office, Mr. McCarey ordering them all sent to the dead letter office.

Physical Conditions

The annual meeting of the Dunstaffnage Cheese and Butter Co. was held at the Creamery on Wednesday the 18th day of January, last, with a very large attendance of shareholders, patrons and others.

That there is need for more attention to be given to the physical and moral also, demands attention. Formerly it was thought that all that a school was for was to enable the pupil to get some book knowledge. Today it is realized that book knowledge forms but a small part of a pupil's education. The physical and the moral also, demands attention.

There are many districts where comfortable school buildings have been provided, but there are far too many in which the buildings are not at all suitable for school purposes. In many of these some or all of the following defects exist: No proper means for ventilation; ill-fitting doors and windows, so that pupils are exposed to draughts; seats and desks not adapted to the size of the pupils; no care to arrange the light so that

LIBERAL RESPONSE TO "SAVE CHILDREN FUND"

OTTAWA, Feb. 11.—Sir George Bunn, treasurer of the Canadian Committee of the Save the Children Fund, stated tonight that he was impressed with the spontaneous response of the Canadian people to the appeal for aid to famine-stricken Russia. It is just a week since the Canadian Press sent out a statement of the organization of the national committee and subscriptions to the fund have already been received at Ottawa headquarters from as far West as Saskatchewan and Englefield, Sask., and so far east as Fredericton, N. B. It is stated that Montreal, Toronto, Ottawa, Hamilton and London were among the first cities to respond, but the smaller towns are also responsive. Subscriptions have come in from many points in Western Ontario. The amounts vary from \$5.00 and \$10.00 to \$5.00 and \$1.00. One lady in St. Catharines sent in a diamond ring valued at \$90.00 to be sold for the fund. As it is possible to feed one child for a month for one dollar, under the efficient staff of the British Relief works in Russia, the Canadian response will save the lives of many starving children.
