Everyone interested is asked to send contributions. 9-21d31.

-A very pretty event took place on Wednesday, Sept. 13th, at 6.30 p.m., at the home of James and Mrs. Horne, Kimsdale, when their daughter, Miss Myrtle, was united in marriage to Robert B. Jeffrey of Alma. The ceremony was performed by the Rev. J. H. McHattie in the presence of a large company of friends of the bride and groom. To the strains of the wedding march beautifully rendered by Miss Hazel Weeks, the bride entered the parlor, accompanied by her father, who gave her away. She was very becomingly attired in white silk, and was attended by her sister, Miss Minerva Horne, who wore a white gown with pale blue trimmings. The groom was supported by David Gordon of Alma. After the ceremony and congratulations the guests partook of a bountiful wedding supper and a very pleasant evening was spent. The bride was the recipient of many handsome and useful presents, including a beautiful organ, the gift of her father. The happy couple will reside in Alma.

CARE OF THE WATCH. Here are a few rules about a watch that a woman should commit to memory. Wind a watch at nearly the same time each day. It is just as bad to wind too often as to let a watch run down. Do not wind your watch too tight. This is responsible for many a visit to the jeweller. Do not hold the watch by the stem and wind the watch, as some women thoughtlessly do. Do not carry a watch in a bag or purse. If you cannot wear it outside your gown faster it to your blouse on the inside. Don't bag a watch down on table or bureau. If you will put it on its back, see that it has a soft berth. Far better to hang a watch when not in use. Fastening watch stands, with convenient hooks, are now sold for this purpose. They are ornamental and lengthen the life of a watch. Do not subject your watch to intense heat or freezing. It is injurious, though the works be of the best. Do not attempt to clean your own watch. When it is dirty or needs regulating, send it to the jeweller. And be sure that you find one that understands the mechanism of watches. There is as big a difference between watch repairers as there is in doctors and not all can cure.

DYSPEPTIC PHILOSOPHY. If angels play the harp, as we are led to suppose, let us hope they play it better than the average amateur. There are only two ways to check the extravagance of the girl you are engaged to. Either break off the engagement or marry her. A woman is a woman for a' that. Even a suffragette may retain her appetite for ice cream soda. Ever notice that when a girl marries a man to reform him she always picks out a rich one? Any kid would rather be a live boy than a dead angel. When a man is cornered it doesn't necessarily mean that he is square. You don't have to be an athlete to throw bouquets at yourself. When a fellow is afraid he can't live without a certain girl, he might marry her and find out how easy it is. Don't always discount the man who knows it all. He may really know a little something, after all. Of course the pen is mightier than the sword. You can't sign cheques with a sword. The disadvantage about building a castle in the air is that you can't raise anything on a mortgage.

THE OLD CALL. The brown road close to the road that pays is fringed with the wild, wild flowers; And each of them mocks me as I saze. Why It Pays to buy Inverness Coal. Inverness Screened Coal is the most economical because of the entire absence of cinders, slate and foreign substances that weigh heavier than coal and destroy the heat-producing qualities. INVERNESS is scientifically screened coal every particle that does not contain the highest standard heat-producing element is entirely eliminated. It pays to buy INVERNESS because its ALL COAL. Ask your dealer for INVERNESS and save dollars. 8-25d1mwtf
