ANOTHER MURDER ON MONTREAL STREET.

MONTREAL, July 22—A young Italian was shot and killed on Ste. Genevieve street tonight at seven o'clock, by a man who has as yet not been arrested. The street was crowded at the time and several men made attempts as if to seize the murderer, but he flourished his revolver and escaped through a lane The police arrived almost at once and started after the man followed by hundreds of people, a long chase without a capture being effected.

A LOVELY BABY BOY

This Mother is quite Enthusiastic over a well Known Food.

Mrs. J. W Pateman, 34 Harriet St., Toronto, in writing about Neave's Food says "When I first knew one of my friends, her baby Jack was eight months old and dying by inches. She had tried three foods because her Jack could not digest milk. At last, I fetched her a tin of Neave's Food. At the end of a month, Jack was rapidly gaining flesh and was bright and happy. He is a lovely boy now and she declares Neave's Food saved his life. And it did.

Then I recommended it to a friend on Victoria Avenue. She had a baby 6 months old that was not thriving a bit. She put the baby on Neave's Food and at the end of three months, the baby was twice the size.

I have never seen two bigger, stronger boys than mine for their ages and we owe it all to Neave's Food. I have the utmost faith in Neave's Food."

Mothers and prospective mothers may obtain a free tin of Neave's Food and a valuable book "Hints About Baby" by writing Edwin Utley, 14 Front Street East, Toronto, who is the Canadian agent. (*Mention this paper.*) For sale by all druggists. 24A

SHOES GOING UP THE AUTO TO BLAME.

CHICAGO, July 19—Shoes of all grades are to be raised in price, and according to Chicago dealers the automobile is to blame for the increase. YThe advance will be about 20 per cent. it is said.

"Since January 1. 1908," said one dealer, "the price of leather has increased 72 per cent. The price of shoes has been raised from time to time to keep pace with the increased cost of production but now another good substantial boost must be made in the price and the principal cause of the advance is the popularity of the automobile. It is not generally known how many sides of leather are used daily in the manufacture of the automobile, but it is something enormour."

TIRED MOTHERS.

A little elbow leans upon your knee,
Your tired knee that has so much to bear;
A child's dear eyes are looking lovingly
From underneath a thatch of tangled hair.
Perhaps you do not heed the velvet touch
Of warm, moist fingers, folding yours so tight;
You do not prize this blessing overmuch,
You almost are too tired to pray tonight.

And if some night when you sit down to rest
You miss this elbow from your tired knee;
This restless, curly head from off your breast;
This lisping tongue that chatters constantly;
If from your own the dimpled hands had slipped,
And ne'er would nestle in your lap again;
If the white feet into their grave had tripped,
I could not blame you for your heartache then.

I wonder so that mothers ever fret
At little children clinging to their gown;
Or that the footprints when the days are wet
Are ever black enough to make them frown.
If I could find a little muddy boot,
Or cap or jacket on my chamber floor;
If I could kiss a rosy, restless foot,
And hear it patter in my house once more;

If I could mend a broken cart today,
Tomorrow make a kite to reach the sky—
There is no woman in God's world could say
She was more blissfully content than I.
But, ah! the dainty pillow next my own
Is never rumpled by a shining head—
My singing birdling from its nest is flown;
The little one I used to kiss is dead.

—Mary Louise Riley Smith.

SUMMER SCHOOL OF SCIENCE.

YARMOUTH, July 18—The Zoology class taught by Prof. Perry of Acadia University is proving a very fascinating one. Quite a collection of insects is being gathered and the class was enjoying (?) this morning, the little green grass snake, even though it was pronounced perfectly harmless, some slightly shivering students seemed uneasy. Caterpillars, preparing for sleep, were in their chalk-box caps.

Distinctions of insect families were illustrated by drawings which firmly fixed these distinctions on the minds of the students.

This afternoon field-work by the Geology and Zoology classes is being conducted at Markland, which is reached by a half-hour's motor boat ride.

Last evening a number of the school visited Bay View, some of whom indulged in dancing, being unable to resist the call of the violins.

A large number are looking forward to the promised trip to Tusket Islands. It is hoped that the fog will stay by some other shore, allowing the lovers of the sea to have their looked for voyage.

Yarmouth is making the school very complete and happy and the days are filled with enjoyment, though many of the Physical Drill students have aching limbs, it is not the fault of Yarmouth.

DOCTORS PROTRST AGAINST LLOYD GEORGE INSURANCE

NEW YORK, July 22—A London cable says: One of the hardest blows at David Lloyd George's new insurance ect was delivered on Saturday at the meeting of the British Medical Association, the delegates to which represent the entire medical profession throughout 200 divisions. The Chancellor has been negotiating with a guinea, but subsequently reduced the doctors in reference to the administration of medical benefits under for each insured person per annum. the act, offering them six shillings The doctors at first demanded half of this to eight shillings and six pence.

The meeting on Saturday carried by a large majority, amid scenes of enthusiasm, a recommendation to break off negotiations with the Chancellor, The recommendation needs confirmation by a later meeting, which seems likely to be given.

The Chancellor will thus be left to decide whether he will start a state medical service, or leave each local insurance committee to come to terms with the physicians or do what the act provides, namely, return six shillings to each insured contributor who makes his own arrangements for medical attendance.

The members of the British Medical Association declare that they feel no anxiety regarding the threat, that the insurance commissioner would gnore the association and appeal to local practitioners. They say that any doctor who, in face of the association's decision accepted "blackleg" rates, would be treated as a "blackleg" and would be ostracized socially and have his name removed from all respectable medical bodies.

CABLE STEAMER NOW IN PORT.

The cable steamer Robert P. Cloury from New York has arrived in Charlottetown. Owing to the exceedingly rough weather it is not known just when she will leave for Cape Traverse.

The cruiser Princess came into port last night and was taken by many for the Cloury. She is now, it is understood, out in the stream waiting for the weather to clear. The telegraph service from Charlottetown is now being carried on by wireless both ways. Messages are telegraphed to Cape Bear and then forwarded by wireless to Pictou and thence by regular wire.

THE BLESSING OF MOTHERHOOD

Healthy Mothers and Children Make Happy Homes

Motherhood is woman's highest sphere in life. It is the fruition of her dearest hopes and greatest desires; yet thousands of noble women through some derangement have been denied this blessing.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong. This is evidenced by the following letters which are genuine and truthful:

London, Ont.—"I wish to thank you for the benefit I received by taking your famous medicine, Lydia E. Pinkham's Vegetable Compound. Before my baby was born I was so ill I could not stand long or walk any distance. I had to lie down nearly all the time. After I took your medicine I felt like a new woman. I could work from morning till night and was happy and well. I certainly think it relieves pain at childbirth and recommend it to every woman who is pregnant. You may use this testimonial if you like. It may help some other woman."—Mrs. FRANK CORRIN, 132 Adelaide St., London, Ont.

Brooklyn, N.Y.—"I was ailing all the time and did not know what the matter was. I wanted a baby but my health would not permit it. I was nervous, my side ached and I was all run down. I heard that Lydia E. Pinkham's Vegetable Compound was good and took the medicine. I have now a beautiful baby and your Compound has helped me in every way."—Mrs. J. J. STEWART, 299 Humboldt St., Brooklyn, N.Y.
