He gave examples of many of the great deeds of history that were either accomplished with a medical objective or only made possible after medical problems had been conquered. In his concluding remarks he warned the audience against being taken in by charlatans and medical fakers and pointed out that much money is spent on medical fads that are of no value. Your doctor is the proper one to advise on these matters, he said. Roy Johnson was the chairman of the meeting and extended the thanks of the club for an interesting talk. 'SEA OF GRASS' SURGING DRAMA OF GREAT LAND RUSH INTO NEW MEXICO

'The Sea of Grass' Conral Richter's adventurous story of the great land rush into the territory of New Mexico at the turn of the century, has been brought up to the Capitol screen by M-G-M. With its dynamic characters portrayed by such outstanding stars as Spencer Tracy, Katharine Hepburn, Robert Walker and Melvyn Douglas, to say nothing of a host of knowing supporting players, this action-filled photoplay emerges as one of the finest productions to come from Hollywood in a long time.

Both Tracy and Miss Hepburn can well set a mark for any aspiring player to reach. Tracy makes his cattle baron a flesh-and-blood, living man, while Miss Hepburn gives a glowing warmth and sympathy to the role of the woman who cannot fathom her husband's unrelenting love for the 'sea of grass.'
