

It's there!
You could never mistake it. Blindfolded, you can tell Kellogg's Corn Flakes by the marvelous flavor. There is no other like it.

The world's easiest breakfast! A package of Kellogg's, a bowl and milk or cream. Add fruit, too, as an extra warm-weather treat. No pots, no pans. For sale at all grocers. Served by all restaurants and hotels.

Kellogg's
CORN FLAKES

Oven-fresh ALWAYS
 Kellogg's waxlike wrapper preserves the flavor and keeps the flakes flaky-crisp. An exclusive Kellogg feature!

We challenge the World!
 Try any ready-to-eat cereal. You won't find another that even approaches the marvelous flavor found only in Kellogg's Corn Flakes.

 - Fact. You don't know what this means unless you see our National game in action.
 - Stop.
 - Pale.
 - What you open a lock with.
 - Anger.
 - The cave of a wild beast.
 - Part of a circle.

There is a difference in raisins
 Make sure of the finest results this way:

There is a difference in raisins, just as there is in other fruits—a difference in flavor, sweetness, size, color and cleanliness.
 But in buying raisins you do not have to pick and choose to get the finest. You merely ask for Sun-Maids.
 You merely look for the smiling Sun-Maid girl upon the package—then you are sure of getting the choicest.
 For Sun-Maid Raisins are made from the tenderest and sweetest of grapes—large, plump, juicy and full of delicate flavor, every one.
 They come to you in sanitary packages, so thoroughly cleaned and sterilized that they do not require washing before use. Buy a package today. You will note the difference!

Sun-Maid Raisins

12. Pianoforte Solo—"To the Rising Sun" (Torjussen)—Miss Myriah Kendall.
 13. Violin Solos (a) "Salut d'Amour" (Elgar). (b) "Minuet" (Beethoven)—Miss Edythe Young.
 14. Soprano Solo—"Perfect Day" (Carrie Jacobs-Bond)—Mrs. J. D. Robertson, Miss Edythe Young, Miss Christine Williams, Miss Myriah Kendall.
 15. There was a young salesman named Phipps, who married on one of his trips. A widow named Block, but he got quite a shock when he found there were six little chips!

QUESTIONS AND ANSWERS COVERING SOILGRO

What is Soilgro? It is a scientific culture of various soil bacteria.
 What does it do? It changes the elements in or added to the soil into available plant food.
 What effect has it on the plants? By increasing the available plant food, it promotes a sturdier and faster growth, better root development, more extensive yield and quicker maturity.
 Can it injure or burn the plants? No, it merely increases the natural functions. You cannot use too much.
 Can it be used on all kinds of plants? Yes, it may be used with advantage on trees, grains, vegetables, shrubs, flowers, lawns and pastures.
 Must fertilizer be used with Soilgro? Not necessarily, but the function of Soilgro is to supply the bacteria necessary to make the plant food now in the soil available for use by the plant and the more added, in the way of fertilizer or manure, the better.
 How often should it be applied? It cannot be applied too often. Once a season, but successive applications will tend to increase growth and hasten maturity.
 Is humus necessary when Soilgro is used? Yes, humus is necessary as this provides sponginess in the soil which retains moisture and no plant life will exist without moisture.
 Must it be applied every year? It can be with advantage. Under favorable conditions the bacteria build a reserve supply of plant food but if the plants are assimilating it and increasing their productivity rapidly, it is advisable to provide all the food they may require.
 How should Soilgro be mixed? Empty the bacteria food first and pour contents of Soilgro can onto it and then add five times the amount of the Soilgro can, of clear water, (rain water preferable, but not necessary.) Stir well and cover with cheese cloth or mosquito netting. Let stand in a warm shady spot for five days. Do not expose to the direct rays of the sun as sun rays affect the life of bacteria.
 Why do you have to mix it as directed? This releases the bacteria from captivity in air tight cans and provides food on which they thrive and multiply.
 Can part of contents only be mixed? Yes, but it is better to mix it all at one time as it keeps better in that form.
 Does Soilgro have a disagreeable smell? Only when first opened. As soon as the harmless gases that have formed in the can come in contact with the air, this odor immediately disperses.
 Does it smell when applied to a lawn? No.
 How long will it keep after mixing? From six to eight months.
 Will mixture evaporate? Not to any great extent.
 Why should the mixture be covered with cheese cloth? Because mosquitos and other insects eat the bacteria.
 Why should Soilgro be applied in the evening or on a cloudy day? Because the direct rays of the sun will kill the bacteria before they have a chance to work into the soil.
 Who discovered Soilgro? Dr. J. E. Davis, Ph.B., Oph.D., a Canadian chemist and bacteriologist.
 Is it a new principle? No, it is rather a perfected method. Bacteria cultures have been used on legumes such as alfalfa, clover, vetches, beans, etc., for the past 15 or more years.
 What is the advantage of Soilgro over other culture? It is cheaper, easier to apply and is adaptable to all kinds of crops, while other cultures are for specific crops only.
 Is there more than one kind of bacteria in Soilgro? Yes, numerous others serving a specific purpose.
 What are the different kinds of bacteria in Soilgro? Different groups of nitrogen fixing, ammonifying, nitrifying and decomposition bacteria.
 Is Soilgro poisonous? No, it is not injurious to any living thing.
 Can Soilgro be used on all kinds of soil? Yes, it improves any soil.
 How much Soilgro should be used to inoculate seed? Enough to thoroughly moisten it.
 Where may Soilgro be obtained? From the Soilgro Selling Agency, 176 Kent Street, Charlottetown; Murdoch MacKinnon, Manager.

WHAT A DIFFERENCE
 Did you ever have your wife lock you in the eye when you came home, and ask you if you had not forgotten something? The English have adopted the eye shade worn by Helen Willis, the American woman tennis while abroad, and made a hat of it. That is, they have taken the band with its wide band and supplemented it with a series of straps passing over the top of the head so that the visor cannot fall too low over the eyes.

Latex-treated Web Cord Means More Mileage
 IN Dominion Royal Cord Tires, mileage is not limited by friction in the cords.
 In Dominion Royal Cords the causes of internal friction are entirely removed by latex-treated web cord. That is why Dominion Royal Cords actually can, and do give more mileage.
 Perfect insulation of every fibre of every cord is assured by saturation with rubber in its pure, natural liquid form (latex).
 Absolute regularity of every cord is made possible by the elimination of cross-tie threads. After saturation the cords unite to form a perfectly flat even web. Every cord lies uniformly, bears even strains. No friction. No heat!
 Dominion Royal Cords alone, in Canada, are made by this process which ensures greater mileage at no additional cost.

 11. Cello Solo—Romance (Van Coens)—Miss Christine Williams.

Watch your tongue
 The tongue is the mirror of the digestive tract and upon its surface is reflected the result of digestive disorders. Examine your tongue frequently and when you find it coated with "fur", or unnatural in appearance, heed Nature's signal.
 Indigestion, biliousness, dyspepsia and constipation are responsible for most of the ills of mankind. Sleeplessness, headaches, nervousness and many ills follow in their train. Restore your digestion by using Beecham's Pills.
 They clear the tongue, remove the bad taste, strengthen the stomach and bowels, activate the liver, promote the digestion and assimilation of food and make you feel strong and well.
