When Kidneys Hurt Take Glass Of Salts

Eat Less Meat if you Feel Back-achy or Have Bladder Trouble

Too much meat may form uric acid, which excites and overworks the kidneys in their efforts to filter it from the system. Big meat eaters can flush the kidneys occasionally to relieve them like they relieve the bowels, removing all the acids, waste and poisons, also they may feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, the stomach sour, tongue is coated, and when the weather is bad they have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging one to get up two or three times during the night.

To help neutralize these irritating acids and flush out four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine and bladder disorders disappear.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to help clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia water drink which millions of men and women take now and then to help prevent serious kidney and bladder disorders.
