WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go
The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food will not digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.
A marvelous movement down takes place on the liver as well. It takes those good, old pounds of bile flowing freely and makes you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work that nature has intended for the liver. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else, 25c.

PARLIAMENT CANADIANS IN NOT LIKELY TO MEET SOON TRAINING HARD

Premier King Sees Nothing in U. S.-Canada Defence Move to Necessitate Early Session.
Load of "Headaches" For Hitler if he Contacts Brawny Canucks.

(By Edwin S. Johnson, Canadian Press Staff Writer)
SOMEWHERE IN ENGLAND, AUG. 20—(CP)—Units of the 1st Canadian Division made it patently clear Hitler is in for a "load of headaches" if he attempts to break through their sector.
Pursuing tactics employed before launching a major assault in the First Great War, the Canadians went through yet another rehearsal under conditions approximating as closely as possible those they expect to face in case of a actual invasion.
When the exercises were completed, Major General G. R. Pearkes, V.C., commanding the 1st Division, remarked to his men: "You've made good use of the pause. It has afforded us and we intend to take advantage every moment at our disposal to prepare ourselves for the task assigned us."
If he comes tomorrow we shall be ready for him. And once we have driven the enemy from England we shall chase him and defeat him on his own soil. Some of you may yet realize the hope of "near future" simultaneously with Washington's personnel announcements.

The Prime Minister told a press conference the government was considering the Canadian composition of the board and its personnel would probably be announced in the "near future" simultaneously with Washington's personnel announcements.
"Almost at the same time, President Roosevelt told a press conference he hoped to announce the American members of the board on Thursday.
The Prime Minister declined, despite numerous questions, to go further into possible courses of action which might result from the election of the joint defence board.
"Everything I have to say at present in that regard was said in my statement," he said, referring to the announcement he issued jointly with President Roosevelt at Ogdensburg after their meeting there. "It was complete statement, the whole truth and nothing but the truth."
"Later in the conference he said: "The board speaks for itself and all that is done under it will speak for it."
Mr. King stated that during the afternoon he had talked over the matter with Conservative leader Mackenzie King and Hon. Grose Durning (Cons. Yale). He said he had given them approximately the same particulars as he had given the cabinet itself, feeling the subject was one that should be imparted to the opposition leader.

The Prime Minister said he was just taking steps to invite Mr. Hanson to confer with him when he learned that Mr. Hanson had already arranged to come in and discuss the identical question. "Apparently our minds were tending in the same direction," Mr. King observed.

As zero hour fell, defenders found the "enemy" firmly established well behind the foremost defended areas, with light armored units and motorized infantry spreading fanwise into the interior. They were advance guards of the invading hordes pushing towards London while reinforcements were brought to their support by sea and air.
Once contact was made with the enemy, the defenders unloaded their packet of surprises which popped off over a wide range of battlefields like display fireworks.
The operation was scored as a clearcut victory for the defenders and was witnessed by representative groups of officers and men of every unit of the division. It will be repeated daily by other units as tactical training for the real thing, should Hitler decide to carry out his threat.

Jews, Negroes Entertainers Jobless In France Now

PARIS, (Via Berlin), written Aug. 21—(AP)—No longer does Josephine Baker, American singer and dancer, headline Paris cabaret revues and many other American negro entertainers are jobless because of the French theatre and entertainment work has been banned from the city by French managers, impresarios and owners have come to the fore in the French theatre and night club world in the wake of regulations issued by German and French authorities.
As a sign of new newspaper specialising in anti-semitism have printed lists purporting to show that France's theatrical and motion picture industry was dominated by Jews. They have campaigned for a "purge" of the entertainment world and have mentioned several well-known stars as Jews.
As a sign of the times, one theatre showing a modern comedy displayed in its advertisements:—"Pure French by pure Frenchmen."
Sacha Guitry just has completed a revival of his play "Pasteur." He is the only first-rate French star who has appeared since the war.

120 Truckmen Strike On Sydney Project

SYDNEY, N.S., Aug. 20—(CP)—One hundred and twenty truck drivers, hauling slag for construction work at a national defence airport near here, went on strike today in protest against the hiring of outside drivers.
Officers of the truck drivers' union said there were enough trucks in the district to handle the hauling work. They said also the eight new men were no members of the union.
The truckmen were bringing the slag to the airport from Sydney, where it is produced at the steel plant.

Concern For U. S. Refugee Ship Subsidies

WASHINGTON, Aug. 20—(AP)—Official concern for the refugee ship American Legion subsidized tonight, indicated a vessel had passed safely through the waters off Scotland which Germany had warned were mine-infested and highly dangerous.

The States navy officials declined to comment on the ship's whereabouts, but at the State Department it was said that in the absence of any news to the contrary, the vessel was assumed to be safe.
On the basis of unofficial calculations, the ship was believed to have passed through the "danger zone" during the night and morning.
A German Embassy spokesman, asserting he had no official information, expressed "hope" that the vessel was safely through the area described by the embassy as "infested with uncontrolled mines that constituted a "grave danger."
Navy officials indicated a statement might be issued later when the ship was known to be well out of danger. She is bound for New York with 897 passengers, including Crown Princess Martha of Norway, her three children, and Mrs. J. Borden Harriman, United States Minister to Norway. The ship left Petsamo, Finland last Friday.

Amid the tension over the American Legion's course, Sumner Welles, acting Secretary of State, disclosed that conversations had been under way with Great Britain regarding the possible evacuation of British children to the United States in American ships.
He told reporters after his talk with the President that he had come to the United States to place his information at the disposal of the American people. Dr. Nicholas Murray Butler, head of Columbia University, had written both President Roosevelt and Wendell Willkie, the Republican presidential candidate, asking them to see him.
He said there was no question of the United States taking in soldiers to Europe, but that he was pretty sure Britain could hold out with "reasonable" assistance.
Asked how Britain could hold out against such mass attacks from the air as the Nazis have made in the last few days, Sir George said:—"We're doing more damage to them than they are doing to us. England is prepared for air raids. They won't shake our morale; the people are determined to win."
He said he had not discussed with President Roosevelt the proposal that the United States sell 60 destroyers to Britain, but he expressed the personal opinion that such destroyers would be "immensely valuable to Britain to convoy ships."

Convinced Britain Can "Hold Out"

WASHINGTON, Aug. 21—(AP)—Sir George Paish, British economist, told President Roosevelt today he was convinced that Great Britain could hold out against German attacks in the United States gave her "reasonable" assistance.

Italy's Entrance Into Conflict Is Analyzed

GENEVA PARK, Ont., Aug. 20.—(CP)—Italy's "slow-motion" entrance into the present war was analyzed by Vera Michele Dean, author and director of the Research Department of the Foreign Policy Association of New York, in an address tonight before the Canadian Institute on Economics and Politics.
Mrs. Dean's paper topped a program which ranged through domestic affairs as touched on by the Rowell-Sirois report on Canada's constitutional and economic problems. Main contributors to these discussions were Prof. F. R. Scott, of McGill University, Montreal, and R. M. Fowler, Toronto lawyer-lecturer to the Rowell-Sirois Royal Commission. Foreign affairs were discussed tonight.
Mrs. Dean recounted a particularly sore point for the Italians was the fact that the Mediterranean—"nostrum" (our sea)—should have become subject to the dominion not only of France which is itself a Mediterranean power, but also of Britain.
"What they resented most was that the British had acquired control of the exits and entrances of the Mediterranean at Gibraltar and Suez."
Imposition of sanctions, under British pressure, by the League of Nations for Italy's Ethiopian adventure had added fuel to the flames and Italy had turned to Nazi Germany in a friendship first tested by Italo-German intervention in Spain and cemented by the "pact of steel" in May, 1939.
Prof. Scott based his criticism of Dominion-Provincial relations on a report on the grounds it had failed to give Canadians "in a general conception at least, a national objective." Otherwise, he favored

164 Children Land At East Coast Port

AN EAST COAST CANADIAN PORT, Aug. 17—(CP)—One hundred and sixty-four children, the second group of British government evacuees to be landed at this port under the children's overseas reception committee, arrived here today aboard a British liner.
The children and their escorts reported a rough crossing with "plenty" of seasickness but nothing unusual in the way of submarines or the like. They did, however, see "porpoises and flying fish."
All the children are going to homes in Canada for the duration of the war. Some will visit relatives, while others don't know where they're going. A large percentage of the group is Ontario-bound while some have to cross the Prairies to Calgary, Regina and other western points.
Returning Canadians included 14-year-old Jean Kelleher, who is going back to her home in Toronto and 13-year-old John French, also Toronto-bound after spending the last three years in England.
These recommendations were not enough inasmuch as they tended to create a social service state, "is not enough that we relegate casualties to the poor-house."
Instead, the report should have attempted to create a national spirit "that will instill in democracy a dynamic force" such as that which in totalitarian countries makes youth believe in Fascism and Communism.
Mr. Fowler, who spoke earlier in favor of adopting the report as a "war measure," replied that "although the report is not everything it is decidedly better to have half a loaf than no bread."

MEADOW BANK W. I.

On August 5th the Meadow Bank Women's Institute was held at the home of Mrs. Gordon MacLean with an attendance of twelve members and five visitors. The president presided and the meeting opened by singing the Ode and repeating the Creed in unison.
The minutes of the last meeting were read and approved. Correspondence was read and it was moved and seconded that we give \$5.00 to the Save The Children Fund.
The Red Cross Committee reported that several pairs of pyjamas had been completed and that some of the members are busy knitting. The sick committee remembered two people in the district. The school committee was reported by singing the Ode and repeating the Creed in unison.
It was moved and seconded that we invite another Institute to attend our September meeting. It was also moved and seconded that we make a quilt to donate to a worthy cause.
A canning outfit was purchased and Mrs. MacSwain gave an interesting demonstration on how to use it.
It was moved and seconded that we have a cake sale in Charlottetown. The collection amounted to 85c.
The next meeting is to be held at the home of Mrs. Harry Hyde, roll call to be answered with a pickling or preserving recipe.
The following committees were appointed: Lunch, Mrs. Harry Hyde, Mrs. Charles Hyde, Mrs. W. W. Crosby, and Mrs. Colie MacPhail. Programme, Miss Laura Crosby and Mrs. Peter Scott.
The meeting closed by singing God Save the King. A dainty punch was served by the hostess assisted by Mrs. L. H. Drake and Miss Laura Crosby.

Grand Piece Of News, Daily Herald Says

LONDON, Aug. 20—(CP Cable)—The Daily Herald said today of Prime Minister Churchill's announcement of the Government's offer to lease to the United States defence bases on Britain's trans-Atlantic territories that it was "a grand piece of news."

"Now those territories become something more than 'possessions' of Great Britain," the newspaper said. "They'll be the strong points of democracy."
The Daily Mail said the nation welcomed the announcement "as the proper development of inevitably increasing co-operation between ourselves and the United States, not only in defence of common liberties of mankind but in that wider sphere of action where we can jointly secure the new world order."
French Oceania may relax its restrictions on American motor vehicles.
