ANTIQUITY OF HYMNS.

While hymns as we know them today are a comparatively recent innovation in church services, they are very ancient institution, and existed long before the Christian era. Many important collections of hymns date to about five hundred years before Christ, though, of course, hymns existed long before that period. Among the collections which have come down to us from them are the Sanskirt, "Rig-Veda," a Chinese "Books of Odes," the "Buddhist Hymns," the Grecian "Homeric Hymns," and the "Odes of Pindar," "The Latin Hymns," or hymns of the western church, date from the fourth to the twentieth centuries, while the "Lutheran Chirales" date from the sixteenth century. The hymns which play so prominent a part in the services of the modern Protestant churches were not in wide general use until about 1860.—Etude.

CUT THIS OUT AND PASTE IT UP

Almost every day The Guardian receives orders by mail to insert news matter of an advertising nature. In most of these cases the senders, who are frequently not known to any member of the staff and who have no account in the advertising department, write "Please insert the following and oblige," thus apparently implying that they think the items will be inserted free. Only a few weeks ago a reader wrote asking that his advertisement of Farm for Sale be inserted free from day to day until he cancelled it, as he is a subscriber to The Guardian. In this connection it may be said that the subscription price is not sufficient to even pay the actual cost of paper, ink, presswork, mailing, bookkeeping and other expenses of the Circulation department proper, and thus subscribers have no privileges of free advertising and are on the same footing as non subscribers. Seldom ever does the sender state whether the item is to appear in the Morning Daily or the Rural Daily, whether for one or more times in either Daily, or in both, whether as a display advertisement, announcement, business local, classified ad or otherwise, When for church or charitable purnoses they seldom ever say so, or do not enclose sufficient money to pay for same all of which will be returned by first mail in the event of the item not being chargeable, or if more money is sent than necessary to pay for the item the surplus will be returned at once, there being a greater discount for cash with order for advertising of churches &c than for regular business. In all such cases the Advertising department communicates with the sender as quickly as possible by mail or phone, often paying the messenger service to get them to the telephone if not too far distant, thus saving all possible time. People write this office to know if News, Letters to Editor, etc., are charged for, and to all such there is but one reply—all items etc, of a money making nature, even though they be somewhat of a news nature, are chargeable. For instance, the advance notice or notices of a concert, lecture, pie social, picnic, etc., are chargeable if an admission fee, silver collection, sale of pies or sale of food or refreshments, etc. Advance notices of purely religious services, even tho a silver collection is to be taken up, are not chargeable. The particulars of any of the above, after they have been held, are, however, news and thus not chargeable. The news of any past, present or future business, which is still being conducted, is chargeable, if it is apparent that the object is to make the business more widely known and thus increase it. Verses accompanying death notices are also chargeable- Even items which are actual news and not chargeable but once in either morning Daily or Rural Daily or both are chargeable for more than one insertion, as they are thus not news.

The above facts are given for the purpose of assisting persons who have items, etc., to mail to this office, so that delay and disappointment will be advoided. 3-16drtf.
