

DYSENTERY IS DANGEROUS CHECK IT AT ONCE

It is the remedy you should use. It is not an experiment, but a tried and proven preparation that has been used in Canada for the past eighty years for all bowel complaints.

11-16-18-21-23-25-28-30.

PRIVATE SALE OF FARM

Beautiful farm, almost in city limits for sale, consisting of 60 acres of land. Good for dairying or market gardening. Cannot be excelled. City water within 50 feet of house.

AUCTION SALE

I am instructed by Mrs. Murdoch McLeod to sell by auction on her farm at Hunter River on Saturday, August 18th at 1 o'clock sharp, the following crop, stock and implements.

FOR SALE

Farm of 170 acres, of which 150 is clear, balance covered with hardwood and timber. Three streams of water run through this property.

FOR SALE VALUABLE FARM PROPERTY

"Newstead" situated at Winsloe 82 acres of the best soil on the Island, in a high state of cultivation. Buildings consist of an excellent Stone Residence, Wooden Bungalow for hired help, large barns, Cold Storage Plant, Electric Light and Water Plant.

SMILES

"Stretching the back exercises economy—if it's a greenback."

IT SEEMS MUCH LARGER "You think a square yard is three square feet, eh?"

THEY'RE ALL PACKERS "Most of Chicago's citizens are in the packing business, aren't they?"

A MEAN TRICK Miss Lady Bug: I think you ought to be ashamed of yourself, Willie Locust, to make love to me and then leave me for seventeen years!

"Jack said he didn't like my bathing suit." "Yes?" "But he added that he liked me, outside of that."

FALLING HAIR Minard's rubbed into the scalp four times a week arrests falling hair, removes dandruff and promotes growth.

A SUITOR TOO MANY MILDRED BARBOUR

"You didn't have a son who was killed in the war?" CHAPTER 37

A GOOD YARN WASTED

One of the qualities on which Herbert prided himself was his perfect composure under the most trying circumstances. He was convinced that he knew how to carry off any situation.

"So, on this occasion, he regarded the strange man who proclaimed himself to be Lila's uncle from South America, with an air of polite interest and concealed his natural amazement. This was not at all the sort of person whom he would have selected, as a relative of his wife; nor could he reconcile the appearance of his caller with the negligent gesture that had given ten thousand dollars to charity.

"I am very happy to meet you, sir," he said, as he extended his hand cordially. "Will you come up to the smoking-room for a cigar and a glass of something that need not necessarily be ginger ale?"

"I have no objection," Herbert said, and he followed the caller to the smoking-room. "You've been here before?" "Once too often," his caller nodded ruefully. "I didn't think the board of governors meant what they said until I hit the sidewalk."

"I'm afraid I don't understand you." "In plain words, then, I was kicked out." Herbert's horrified expression made him smile grimly. "But I'd like to talk to you—somewhere else."

Herbert fetched his hat and coat, bade the hall porter summon a taxi, and bunched his caller into it with as much speed as was consistent with dignity. His head was in a whirl. He was resentful, too. Why hadn't Lila ever mentioned this blot on her 'scutcheon?"

Arriving at his home, Herbert strove to be the polite host. He ushered his relative by marriage into the library and piled him with cigars. "Lila will be home presently." His caller sighed contentedly. "Meanwhile, you and I can have a chat. My, my, it seems only yesterday I left this town, and it's well, Lila wasn't born then, and now she's married. Figure it out for yourself."

"You like South America?" asked Herbert politely. "You've been very successful there, I understand." "Not so you'd notice it. About all you can say is that I've kept my head above water." Herbert was puzzled. To make conversation, he said: "Your wife is with you, Mr. er—Condon, isn't it?"

Ceylon's Choicest Cup KING COLE TEA Hon. R. B. Bennet

Continued From Page 1

Conservative Achievements. Another of our problems has been the inadequacy of the federal grants to enable this Province to carry on; and it was through a Conservative Government that we received an increased subsidy of \$100,000.

Our Canadian Citizenship. With this heritage go correspondingly great obligations upon every citizen. The one thought that should be in all our minds on every occasion, and especially in the minds of the younger men and women of this country, is not only for the welfare of the Island—not only to make it easier and better for another generation on this Island—but of Canada as a whole.

Mr. Bennett was aware that we have our own problems here, that touch the life and welfare of the Island. These naturally should be the most important matters with which we have to deal. But there are other problems as well; problems of a national character upon which we decide by our votes at every federal election. We should remember the absolute equality which we enjoy in this respect under democracy. All men are equal before God, for they have but one soul to save. And they are equal at the polls. The most powerful man in Canada has no power at the ballot box that the poorest citizen does not possess.

Every young man and woman who casts a vote for a federal candidate in Charlottetown is casting a ballot that has something to do with the destinies of British Columbia, Alberta, of Saskatchewan, and of every other province in Canada. That vote at a federal election is not a vote for a member who represents Charlottetown alone. Every young man and woman who casts a vote for a federal candidate in Charlottetown is casting a ballot that has something to do with the destinies of British Columbia, Alberta, of Saskatchewan, and of every other province in Canada.

Two Phases of Government. The government of a country may be considered from two standpoints. There is the administrative side of government, the gathering in of taxes, the spending of money, the building of piers and wharves and railways, the expenditure generally of the revenues. On the other hand there is that side of government which has to do with the shaping of great policies, with the formulation of plans, with putting in the statute books measures not only affecting today but tomorrow. It is because we are prosperous today, it is because on this Island we are enjoying a measure of prosperity as great if not greater than any part of the country, that there is thrust upon us larger and greater responsibilities. President Coolidge has pointed out that many people can stand adversity, because it tries the fibres and sinews of their souls; but few people can stand prosperity. It is important, then, that with prosperity sweeping over us we should consider not only the administrative side of government—not only how money is spent, not whether taxes are high or low—but those larger policies that affect the welfare of tomorrow; those vaster tendencies in our public life that are shaping and moulding, consciously and unconsciously, the national fabric of this country.

we must not forget that it was the genius of the Conservative party that brought this Province into Confederation. Mr. Bennett trusted there were some Liberals among his hearers; to them he would draw attention to this fact, not in a narrow partisan sense, but purely as a matter of history. We came into Confederation with very definite promises given with respect to continuous service for the conveyance of mails and passengers between the Island and the mainland, and to the placing of the Island in continuous communication with the Intercolonial Railway. Up to 1896 certain efforts had been made in that direction, but it was not until 1911 that we were able to overcome the difficulties to our trade and commerce which the narrow gauge railway imposed upon us. In that long period of Liberal rule at Ottawa we struggled along under this handicap, and when the day came that that administration ceased to be, we were still without a car ferry. We recall the promise which Sir Robert Borden made with respect to the car ferry, and the manner in which it was carried out. But do we realize that if that promise had not been promptly kept by the Borden Government, with the War that followed, we should have had no car ferry here until 1922 or 1923? (Applause.)

Had ample opportunity of learning today? An American commission comes down to Prince Edward Island to find out how much it is costing us to grow our potatoes; and if they find that we are growing potatoes cheaper than they are in Maine and other parts of their country, the 30 cent duty already on the statute book will not be high enough for them. It is not through any ill-will to the American people, if they find our competition in potato production is interfering with American producers, the duty will be raised high enough to shut us out. The tariff rates on hay, butter, eggs and...

My farm of 45 acres, all cleared and with good buildings. Situated on Loyalist Road, near station, church and school. Will sell with or without standing crop. Cheap for quick sale. HAROLD W. PROUDE New Wiltshire 31-eod.
