A PRAYER FOR PEACE

God of all worlds! We cry to Thee From depths of sore distress— Look down in pity on this earth, And give the nations rest; Rest from the toils and tears of wars, From the cannon's deadly power— Breathe now Thy mercy from above In this decisive hour.

God of all worlds! Be with our troops, Encompass them around— Divide the seas as Israel's hosts Marched through on safe, dry ground. Legions of angels, Lord, send down To stay aggression's might; Whether on land, or sea, or air— Oh Lord defend the right, God of all worlds! Protect our King, And all his royal home, Oh guard us all, may faith be strong In Thee and Thee alone, Give grace and wisdom to all men Who uphold our country's word; Give courage, strength and victory, Through Jesus Christ our Lord.

Forgive us while we pray to Thee For Peace—Peace—Peace.
Grace MacPhee McLure.

OUR DOMINION IN A NEW PEACE ERA

Tremendous strides were made after the last war when the League of Nations was established to promote peace and international understanding and goodwill for all time. Much was accomplished. Although the League did not come up to all expectations to establish a central world court, house for national disputes, why did it fail? Principally because of unfaithfulness on the part of its members. Lack of faith! But what is faith? In answering this question, our first thought is "faith in God"—that seems to be the basic meaning of the word in our minds. If the individual is not faithful to God, how can the Nation be? If nations are not faithful to God, how can they be to each other? Is it any wonder, when nations are putting God aside that there is such turmoil?

In the new era may God have first place in our individual hearts, then the verse chosen in the days of Confederation to designate our country, will indeed become a reality.

"He shall have dominion from sea to sea, and from the river unto the ends of the earth."

How can that be but by an earnest spreading of the Gospel of Christ within and without such as has never been attempted before, for no action can live to itself.

When He has dominion, when we love our neighbor as ourselves, then envy, hatred, suspicion, greedy competition, wealth at the expense of others, as is evidenced by the solicitation and traffic in those things detrimental to life such as drugs, liquor, etc., will be outlawed. Greater calamities are inflicted on mankind by intemperance than by the three great historical scourges—war, pestilence, and famine."

The economic and political ills can only be eliminated when Christ is supreme in the home, in business, and in politics. Many changes in the past have come about through the love of Christ overflowing the heart of the individual in practical Christianity as shown by such men as John Howard and the Earl of Shaftesbury who sought "first the Kingdom of God and His righteousness."

In the new peace area for our Dominion may "the fatherhood of God and the brotherhood of man" be uppermost in our hearts for that Golden Age which is ahead, not behind, my we, in the days to come, bend our energies to wards strengthening the machinery of the League, as set up, so that out of its failures and success of the past, will emerge a better and more effective organization for the welfare of mankind, that nations may live and let live; in so strengthening the League we shall improve our own national status. Grace Fulton, Unecade "Y," of B. C.

WHO PAYS THE REVENUE?

No country ever has made a profit out of the sale of liquor. The fact that the liquor trade pays into the State coffers is nothing. It all depends upon what it costs to mop up the slops—crime, poverty, inefficiency, loss of business, home life, health, character, etc.

Eight sailors were in a public-house paying the revenue, and left the worse for liquor. The policeman moved them on. One of the men felled him to the ground.

The eight men were arrested and sentenced to two months' imprisonment. The policeman was in hospital eight weeks. The men were kept for 16 weeks each—128 weeks in all—at, say, £2 a week.

Who paid for all this? The revenue gained by the men drinking certainly, but the country lost much more than it received. The loss, of course, came out of the pockets of the taxpayers.

Drinking is a costly business, and no revenue meets its demands. —(The Leicester Leader).

DRINKING IN BRITISH COLUMBIA—Rev. R. J. McIntyre

Crime. The total prosecutions under the Liquor Act for all offences were: In 1939-3,308. In 1938-2,973. Persons sent to jail for violation of the Liquor Act, in 1939-1,350. In 1938-1,090. Arrested for drunkenness in a public place, in 1939-2,812; in 1938-2,524. Who paid for lodging and food for these sent to jail because they drank freely? Her cause demands the assistance of your throats. We all can swallow and she asks no more.

Social diseases threatening the health of this Province find in liquor their chief ally. The beer sifons have been revealed as the hunting ground of street women. Recently the B. C. Branch of the Canadian Institute of Sanitary Inspectors, have voted to ask the

Ship's Engineer Tells Of B. E. F. Quitting France

AN EASTERN CANADIAN PORT, July 11—(CP)—Removal of the last unit of the British expeditionary force from the war-torn French port of St. Nazaire, under the menace of Nazi aircraft and submarines, was described today by the chief engineer of a British freighter.

Swarms of German planes raided the port 14 times in one day, the engineer said, but his ship escaped serious damage. One Dornier plane, struck by fire from the freighter, retaliated by diving and spraying the vessel with machine-gun bullets. No one was hurt.

The engineer said Italian bombers sank one of the ships in St. Nazaire harbor which was engaged in removing members of the B. E. F.

The freighter took on 400 soldiers representing 11 British units. The troops had been fighting a rearguard action from Radon, Lille and Boulogne.

Swims aboard they set up machine-guns and anti-aircraft weapons to repulse further attacks on the way home. Tidal conditions forced them to wait four hours, and in that time they were attacked from the air.

Besides German planes, a captured French plane manned by a German crew flew over the port but was sent crashing into the sea by anti-aircraft fire.

Three miles out of St. Nazaire, an enemy submarine was sighted, but the freighter manoeuvred safely out of its reach.

The engineer spoke in tribute to the courage and fighting spirit of the B. E. F. fighters. "I tell you it's going to take something to beat those fellows," he said.

Intercommunity School Closing

On Friday, June 28th, there took place at Tyne Valley an Inter-Community School Closing, comprising Tyne Valley, Port Hill, Birch Hill, and Northam School Districts. This is the second of these closings for the neighbouring districts, and, needless to say, has met with the same unqualified approval as did last year's meet.

The day was perfect for the occasion, and upwards of 200 children and 100 parents and ratepayers gathered for the sports in the afternoon, held in the Presbyterian Church grounds. Rev. Mr. Buntain was the official starter, and was assisted by the various teachers, viz: J. A. S. Williams and Donald F. MacLean, Tyne Valley; J. Woodcock, Port Hill; George Burrell, Birch Hill, and Hazel Stewart, Northam.

After the conclusion of the sports, lunch was served by the ladies of the different Institutes, to whom the thanks of all teachers and pupils is due.

Following the bountiful lunch, group games were conducted for the pupils, each teacher taking charge of a certain age group.

Just before going to the hall for the evening program, a sing-song and bonfire was enjoyed by all.

The evening program, which was ably assisted by the Consolidated District Chorus for the school year, was carried out in the Tyne Valley Hall, which was very tastefully and aptly decorated for the occasion by the teachers and others.

On the walls were displayed writing, drawing (crayon, water-colors and map), and portfolios from each school represented.

The winter ensemble of Port Hill acted as the fitting introduction, which was as follows: "Chorus—Tyne Valley School—'The Maple Leaf'"; Northam School, School Dance, June Strongman, Port Hill.

Girls' Chorus, Port Hill School, School Days.

Dialogue, Birch Hill, Waitin' For the Doctor, Tyne Valley School, Chorus, Tyne Valley School, O Canada.

Intermission and sing-song. Presentation of Diplomas, etc.: Birch Hill School, Northam School, Tyne Valley School, The King.

Following the presentations to the pupils, gifts were presented to the teachers on behalf of the pupils.

After the singing of the National Anthem, all retired to their homes, being convinced that this type of school closing is much more worthwhile than the old-fashioned, which does not bring the pupils of the adjoining districts together in friendly competition and fellowship. Let us only trust that more and more school districts will adopt this very profitable and enjoyable interscholastic meet.

The Journal Publishing Company, under the direction of its representative, Mr. Albert Walker, very generously donated prizes to five pupils coming first in each of three sport sections: Three-legged race for girls 14 and over; three-legged race for boys 14 and over; and free-for-all running.

A list of the various sports will at an early date appear in the press.—S.

G-MEN WATCH HIM

Sen. Gerald Nye, North Dakota Republican, says that G-men had been investigating him because of an alleged pro-Nazi tie-up. Nye confirmed reports the F.B.I. had compiled a dossier about him. He said he would have access to the report as soon as he could visit the department of justice.

The Health League Of Canada

"TYPHOID FEVER"

By J. W. S. McCallough, M.D., D.P.H.

One of the dangers of drinking impure water or milk is infection from typhoid fever. The disease varies in severity from mild cases that may be missed to fatal attacks. It occurs all over the world and in this country is seen from June or July to October. It is sometimes picked up at health resorts and is therefore called a "vacation disease". It respects neither rich nor poor, those of rugged or indifferent health and may attack persons of any age or sex.

Hygienic measures, such as the protection of water and milk supplies have caused typhoid fever in well-protected cities to be an almost disappearing disease. The older generation of doctors saw lots of it in their student days when the wards of hospitals were filled with cases at the end of summer in the autumn. Nowadays teachers in the medical schools find it difficult to round up sufficient cases to demonstrate the disease to their classes.

Man is always the source of the infection either by direct or indirect contact—indirect through water, milk, milk products, oysters and other foods as well as through the medium of flies, fingers, clothing and bedding. The commonest source is contaminated water. Faecal matter ultimately finds its way to water and most water courses draining inhabited areas are thus contaminated.

No single measure in reducing typhoid fever on a large scale approaches the effect of substituting a safe for a polluted water supply. Fresh milk, typhoid is always due to the use of raw milk and there is no other single measure which acts as so sure a preventive as pasteurization when properly carried out. There is no recorded instance of the occurrence of typhoid coming from properly pasteurized milk. The milk is usually contaminated on the farm from a case or a carrier of the germ. Fresh milk products such as cream, butter, ice-cream, buttermilk or fresh cheese, may contain the germ and spread the disease.

The common house fly lives, breeds and feeds on faecal matter and is a common spreader of typhoid. The infection may come from soiled linen, blankets and other objects. It may be gained from close association with persons ill of the disease.

Typhoid vaccine is a useful preventive. The soldiers in the last War were successfully vaccinated against typhoid. Very few cases were found amongst them. The vaccine is a valuable measure of protection to vacationers, travellers and others who may be exposed to the disease.

into the Presidency by a 5-to-1 majority in the counting of Sunday's election ballots. Gen. Juan Andres Almazan, however, issued a statement that he himself would take the oath of office as Mexico's next president Dec. 1 when President Iazaro Cardenas leaves the post.

PHILADELPHIA, July 12—(AP)—Police of the United States first and third cities disagreed yesterday over a report that bombs had been planted close to Philadelphia's \$5,000,000 convention hall while the Republican party was meeting there two weeks ago. Police Commissioner Lewis Valentine of New York told 675 detectives "several" bombs had been found during the convention in the Pennsylvania metropolis. Another New York police source reported seven eight bombs were discovered. Mayor Robert E. Lambertson and Philadelphia police officials insisted, however, that no bombs had been found in the auditorium area.

OTTAWA, July 12—(CP)—Conditions affecting salmon fishermen on the Pacific coast "must and will receive immediate attention," Prime Minister Mackenzie King told the House of Commons yesterday. A. W. Nell (Ind. Comox-Alberni) raised the question and threatened to move the adjournment of the House to debate it. He said some 9,000 fishermen were threatening to go on strike and were only held back by their leaders, including some members of Parliament, on the assurance the matter would be dealt with.

RECEIVE SISTER AMBULANCE

HAIFAX, July 11—(CP)—The Red Cross of Nova Scotia announced today the donation of the sister ambulance for use in the British war effort. It was a gift of W. C. Smith and Company, Ltd., Lunenburg, N. S.

Government to enact legislation for compulsory sterilization by a safe and satisfactory method of all glasses used by the public in these seasons. The Daily Province, Jan. 15th, 1940, reported that the inspectors of these glasses say "what they believe that many communicable diseases are caused by widespread use of glasses in the public taverns."

Duffin — McLaren Nuptials

On Friday, July 5, at 7 P. M. in Central United Church, Calgary, Mildred Hammett, younger daughter of Mr. and Mrs. E. B. McLaren, of Georgetown, P. E. I., became the bride of Mr. Charles Malcolm Stark Duffin, son of Mr. and Mrs. W. F. Duffin, of Thorncliffe, Ontario.

Poem, gladioli and ferns placed in the church for the occasion made a lovely background for the ceremony, which was performed by Rev. E. Maitland Aitken. Dainty white bows and flowers marked the guest pews and Mrs. Phyllis Chapman Clarke played the wedding music. During the signing of the register, Mrs. Dalton Jeffrey sang "Oh Promise Me."

The bride, who was given in marriage by her cousin, Mr. A. R. Dauncey, wore a gown of white lace over satin fashioned on principle. Her floor-length veil was caught to her head with orange blossoms, and she wore white mittens and a string of pearls, the gift of the bridegroom. Her bouquet was of Tailsman roses.

Her bridesmaids were Miss Jean Cruickshank and Miss Mildred Aitken, wearing taffeta frocks fashioned on similar lines with the bride. Her bridesmaids wore pink and white sweaters and roses, while Miss Aitken was dressed in blue and carried sweetpeas and carnations.

Mr. David McClure attended the bridegroom, and the ushers were Mr. G. E. Bennett, Mr. J. E. Fletcher, Mr. L. G. Chaoston and Mr. D. G. Smith.

Peonies were used to decorate the home of Rev. and Mrs. Melville Aitken, where the wedding reception was held. Mrs. Aitken, the sister of the bride, received with the bridal couple, wearing a floor-length gown of pink chiffon with a cascade of roses and gardenias.

The tea table was laid with a white hand-made lace cloth, a wedding gift to the bridal couple, and lighted with white tapers. A three-tiered wedding cake formed the centerpiece.

Mrs. Thomas Swann and Mrs. H. W. Kingerly presided at the urns, while Mrs. Glen Elder and Mrs. Gordon each cut the loaves. Assisting in the dining room were Mrs. W. V. Moore, Mrs. J. A. Mather, Mrs. George Stephens and Mrs. Gladys Macpherson.

Those asked to serve were Miss Sybil Fumfelt, Miss Linnie Aitken, Miss Wilma Munde, Miss "Bunny" Fraser, Miss Hazel Black, Miss Margaret Dargoch, Mrs. Patrick Freeman, Mrs. Jack Fletcher, Mrs. Stuart Topley, Mrs. A. W. Hobbs, Miss Frances Jackson and Mrs. Fred Hicken.

Mr. Thomas Swann proposed the toast to the bride.

The bride and bridegroom left by motor for a honeymoon in the mountains, the bride wearing a frock of crushed rose lace over taffeta with a white picture hat and accessories. On their return they will reside at 211 Scarborough avenue.

FAREWELL GATHERING

The hall at Hunter River was well filled on Monday evening, July 1st, the occasion being a farewell gathering in honor of our much-loved and highly respected pastor, Rev. W. A. MacQuarrie, his wife and family. Mr. Clifford Carew was appointed chairman, and on behalf of the Official Board, expressed the regret of the gathering. He called on Mr. Edson Easter, who read an address to Rev. Mr. MacQuarrie and his wife. This address outlined briefly the many fine qualities that have been manifest in his life of love among the four congregations under his charge. At the close of the address he was presented with a gift, merely as a kindly remembrance from the many true friends which he is leaving behind him. Mr. MacQuarrie replied in his own kindly manner, assuring every one that he and Mrs. MacQuarrie would carry with them many kind memories of their work on the Hunter River charge. At this same gathering, Mrs. MacQuarrie was presented with a very appreciative address and a gift from the Women's Association of the Hunter River Church, and both Mr. and Mrs. MacQuarrie were presented with an address and a gift from the Young People's Union of the church. Both addresses spoke very highly of the work done by Mr. and Mrs. MacQuarrie in those organizations. At this time an opportunity was

News Briefs

WASHINGTON, July 12—(AP)—The United States Justice Department announced yesterday that it would file in Philadelphia Federal District Court today a civil action against the Pullman companies and 31 individuals, including outstanding financial leaders, in an effort to divorce control of sleeping car manufacture from operation of the equipment. Among those whom the Department said would be named are P. Pierpont Morgan, Richard K. Mellon, Sewell Avery, Alfred P. Sloan, Jr., Harold S. Vanderbilt, George Whitney, C. W. Seabury, H. S. Morgan, all directors of one or more of the companies.

STOCKHOLM, July 12—(AP)—An annual increase of 1,200,000 tons of coal in Sweden's imports from Germany was provided in a new trade agreement announced yesterday. Sweden's increased exports to Germany will include cellulose, paper, iron, steel and machinery.

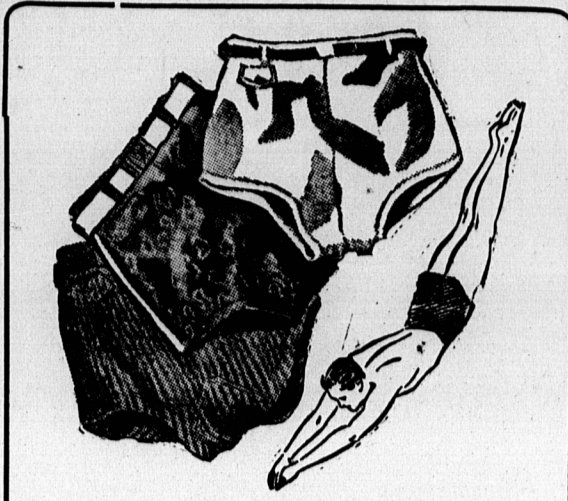

MEXICO CITY, July 12—(AP)—Supporters of Gen. Manuel Avila Camacho, administration candidate, declared last night he had swept given to the gathering at large to speak a few words of appreciation. Each congregation of the charge gladly responded to this opportunity, all expressing deep regret on the removal of Mr. MacQuarrie and family to Souris, but wishing them God-speed and health in their new field of labor in the name of our Master.

Following this a hearty sing song was much enjoyed, while the ladies were preparing lunch. After singing "For They are Jolly Good Fellows" and God Save the King, the gathering dispersed with a tinge of sadness, but with hope for the future of the Hunter River charge. (Patriot please copy)

TIPPIE AND "CAP" STUBBS

BRINGING UP FATHER

"The Water's Fine!"
Jantzen Swim Trunks
\$2.95 ... \$3.95
