Dorothy Dix Says—
 (Continued from page 2)
 why I need a baby to love and care for as my own. How could I get about getting one. MRS. J. E. W.

ANSWER—Every city has a Child Finding Association to which you could apply, and the management would tell you what steps to take about adopting a baby. Or perhaps you can find the solution of your problem in taking a child of two to four years of age, now the experiment is being made of putting children who are orphans, or whose parents cannot take care of them, to be reared in homes instead of institutions. This gives the youngsters the individual attention and affection the family experience, the sense of belonging and the mothering that every child needs, and that it cannot get in even the best run public institution in which it is only one of many.

I can think of no career that a woman with a mother heart and craving for the feel of little arms about her neck could dedicate to herself that would bring her so much happiness, or do so much good as taking in these little boarders and making a real home for them.

Western Cattle Markets
 A reduced cattle rate at WINNIPEG served to move prices into higher ground, with all killing classes fully 50 cents stronger, but the trade showed signs of turning up toward the close, with just a few more cattle coming forward, and late bids were down 25 cents or more from the high point. Best slaughter steers rated \$12 to \$12.25 and a few \$12.50. Replacement cattle were in small supply and suitable grades moved out at \$8.25 to \$9.25. CALGARY had an active market, with choice steers up to \$12 and several loads at \$11.75, while EDMONTON closed fully steady on good steers but lower plain kinds, with a low of around \$12 on choice. Good steers at PRINCE ALBERT moved up to \$10.75. MOOSE JAW mostly \$11.25. REGINA \$11.75. SASKATOON \$12 to \$12.25. \$11.75. YANCOUVER up to \$12, with late sales mostly \$11.50 to \$11.75.

Weekly Live Stock Market Report
 SUMMARY
 Western markets sold a smaller supply of cattle this week at enhanced values, especially in the north. The upturn amounted to 50 cent or more, notably at Winnipeg, and was attributed principally to the lighter volume of deliveries. However, there was a considerably slower movement and an early tendency toward the close of business. Best calves from the east, and part of the early gains were erased. Quality was the principal governing factor in the east where anything grading reasonably good, in quality moved readily at steady prices, but low grade material was slow to move and disposed at barely steady prices. A few hundred cattle were left in the pens at the close at Toronto. The volume of the offerings had a strong influence on the price structure and was responsible for a weakening effect toward the close of business. Best calves were good sellers on a firm market, with Montreal marking up a gain of 25 cents on grassers. Another heavy run of hogs was well taken care of by packing plants all over the country, and buying rates remained unchanged. Lambs and sheep also continued at the previous week's levels.
 Eastern Cattle Market—
 Cattle prices remained unchanged as a rule at TORONTO but the factor in the east where anything slaughter materials was scarce and sold readily with one load of heavy steers at \$13.15 and other down to \$12, and butcher steers and heifers at \$10.25 to \$11.85. Fairly active trading was expected at \$8.25 to \$9.25. Exports were the best of the steers offered which were no better than good, at \$12 to \$12.50, and good butcher cows at \$8.25 to \$9.25. Exports were fair in the MARITIMES, with more butcher cattle being offered but little or no choice quality in \$10.75; Regina \$11; Saskatoon \$10.50; and Vancouver \$12 to \$13.

Exports to United States
 Dairy cattle shipments to the United States were 217 head, as against 419 in the same week last year. The total export to date this year now stands at 1,100 head, as against 1,075 in the corresponding period last year. Exports were 1,047 head.

Firm Calf Market
 Calves were firm sellers, especially at Montreal where grassers were as much as 25 cents higher. Toronto paid \$18 to \$18 for choice veals, Montreal a similar range, Winnipeg \$14 to \$15.50. Calgary up to \$11.50, Edmonton up to \$13. Prince Albert \$13.50, Moose Jaw \$11, Regina \$12 and Saskatoon \$12 to \$12.50 and an extreme ton of \$13.

No Change in Hog Market
 Packing plants received another very heavy run of hogs but prices continued at last week's levels. The basic grade sold at Toronto at \$17.15, while Montreal paid a similar price and Winnipeg \$14 to \$15.50. Calgary reported a basic price of \$15.85, Edmonton \$15.85, Prince Albert \$15.90, Moose Jaw \$15.90 to \$16, Regina \$15.60 to \$16, Saskatoon \$15.90, and Vancouver \$16 to \$17.75 and Moncton \$17.15.

Lamb Prices Unchanged
 There was no change in the lamb price structure. Supplies were moderate, and while trading was slow in some instances, it did not affect the price at which lambs were bought. Toronto had best lambs at \$13 to \$13.50; Montreal had ungraded lots, mostly bucks, up to \$10.75; Winnipeg \$11.50; Calgary \$11.75; Edmonton \$12; Prince Albert \$11; Moose Jaw \$11; Regina \$11; Saskatoon \$10.50; and Vancouver \$12 to \$13.
