IN MEMORIAM

MAJOR M. A. ALLEN.

The flag flying at half-staff over the Post Office Building and the Forester's Hall yesterday proclaimed that Charlottetown had lost one of her most highly esteemed and respected citizens, in the person of Major Matthew A. Allen. His death occurred at 5 o'clock yesterday morning in his 42nd year, after an illness of some months borne with singular patience and resignation. From his youth up, Major Allen had been connected with the militia of P. E. Island, having joined when but 19 years of age, taking an active part in everything connected with militia affairs of the province right up to the time of his retirement from the 82nd Regiment with the rank of Major some years ago. As a marksman with the rifle, he was undoubtedly one of the best this province has produced. He attended all the meets, provincial and inter-maritime and his splendid work in these contests and at Ottawa will long remain a bright spot in the annals of P. E. Island rifle shooting. Even after his health began to fail, and owing to age being unable to take further part in active military work, he declared that he was proud to have a son to go to the front and take a share in the defence of the Empire and liberty. When the sad news came some weeks ago of the death in action of this gallant son (Frank) he stood the shock bravely, realizing that the lad had done all that mortal can do. For the last eighteen years Mr. Allen held a responsible position in the Dominion Savings Bank and was a faithful and valued employee. There are left to mourn besides his widow, three children and two step-children. A son, Blagay of the staff of the Bank of Nova Scotia in St. John's, Nfld., is expected to arrive home on Thursday night. The daughters, Winnifred and Jean, are at home, while the step-children are Mrs. L. H. Coffin of Montreal and Mrs. A. C. Sinclair of this City. Mr. Allen was a member of Court Mount Stephen, I. O. F., and when in his health took quite an interest in the affairs of the Society. He was also a prominent member of Zion Church, and some months ago was elected to eldership but owing to ill-health had not been ordained. He was a valued trustee of the church and for a time held the position of secretary of trustees discharging his duties faithfully and well. The time of the funeral will be announced later. The Guardian joins in extending sincere sympathy to those bereaved.

WITH THE 98TH SIEGE BATTERY

Graphic Account of Their Doings and News of the Wounded from Captain Temple Macdonald.

Major Bartlett has received the following interesting letter from Captain Temple Macdonald who is with the 98th Siege Battery (Major Prowse's) at the front:

France, July 25, 1916.

Dear Major Bartlett:— It is some time since I received your welcome and interesting letter and I have to apologise for my delay in answering it.

As you no doubt know we have been very busy since arriving in France. We went to one position and had to prepare for a big bombardment which came off on July 1st and keep our guns going every day besides. There was no shelter for anybody so we had to construct dugouts. One can hardly imagine what a lot of labor there is about even one of these. The first thing is to dig a hole in the ground 15 ft. x 8 ft. and 15 inches deep. It rained most of the time and every shovelful was a load and it simply had to be scraped off the shovel. There was always a lot of flint rock to be dug through and that used to dull the picks as fast as they could be sharpened.

However, we constructed 12 of these places framed them with round timber 8 inches at the small end and covered the roof with same kind of timber, lined them all round and on top with corrugated iron and filled in the hole with a load and it simply had to be scraped off the shovel. There was always a lot of flint rock to be dug through and that used to dull the picks as fast as they could be sharpened.

To get into these 15x8x7 rooms we had to construct a tunnel about 20 ft. long all timbered with 3x6 plank and sloping from the ground level to 15 ft. below. It was always tight there and candles were the only lights available. We made a pipe of corrugated iron and let it stand up through the roof as a ventilator, then built banks for 12 men in each dugout.

Just as we had finished that work we got word to move out and believe me there was some swearing. As usual it poured rain and there was mud 6 inches deep all over the place when we had to pack up and we had only eight hours notice to move.

The lorries could not be brought up until near dark and we had to load and get away by 9 p. m.

We did it but it was some scramble and we spent the night on the road. Four guns and nineteen lorries, one car and one side car, quite a procession on bad roads a dark night and no lights.

At 2:30 we halted and made out to get a little sleep. I spread my bed out on the side of the road and soon went to sleep. We got up and started at 6:30 and travelled all day and arrived at our stopping place at 4:30 p. m. We remained there until 6 p. m. and started for our new position where we arrived at about two p. m. and were in action by 4 p. m. We were placed out in an open field with no cover for anyone.

Next day we found an old trench near us and we camped in that until we were able to find and construct some dugouts. The men were not a bit anxious to dig new dugouts until a few shells fell around the guns, and poor Walter Lantz was killed then they took cover. We are to move up about 4000 yards some day soon and have been preparing the new position. It was there that Bob Nicholson, M. J. Campbell and E. Marshall were working when wounded, also young Dennis Marshall has a nasty wound but the others are only slight. Hooper got a cut on his left leg just below the knee the day before yesterday. He was observing fire and was perched up on a tree when a shell dropped near and a splinter hit him. It was little more than a scratch but as they are always afraid of infection from shell wounds and inoculate all wounded men he was shipped off.

I saw him yesterday and he was having the time of his life. "Mac I am having a fine time here." "They are awful good to me here." "Mac you had better get pipped too and come down here."

Some of his expressions when I saw him. We were served with bread, butter and jam with tea and real cream whilst I was with them.

He will be as good as ever in 10 days as it is a clean cut but he must not walk about until it heals a bit. He has often got worse cuts when playing football so his people need not worry about him. He is one of the lucky ones as they say here and may be sent to England for a couple of weeks holiday.

Must get to work, so will have to close. Yours very truly, TEMPLE W. MACDONALD.

FAMILY DOCTOR'S GOOD ADVICE

Go On Taking "Fruit-a-lives" because They Did Her Good

Rochester, P. Q., Jan. 14th, 1915. I suffered for many years with terrible indigestion and frequent attacks of headache and became nearly run down. A neighbor advised me to try "Fruit-a-lives". I had no other recourse, and to my surprise the doctor began to improve, and he advised me to go on with "Fruit-a-lives". I consider that I owe my life to "Fruit-a-lives" and I want to say to those who suffer from indigestion, constipation or headaches—try "Fruit-a-lives" and you will get well". COMMODORE CRESCENS WINS FROM USCITA

In many ways the match race in summer yesterday, between the three year olds, Commodore Cresceus and Uscita, owned and driven respectively by Dr. F. T. Jenkins, the veteran trainer of the island, and Dr. Christopher B. Moncton, was about the most interesting sporting event as has been witnessed in the province. Apart from the well-known speed of the two colts the owners were the drivers, one of them, Dr. Jenkins being years of age, elicited unusual interest. There was a large attendance of the race was a sports one from start to finish. Five heats being required to place the winner's laurels on Dr. J. T. Jenkins and his speedy Commodore Cresceus. Every heat was a clear race and the colts were handily driven. Cresceus won the first, third and fifth heats, the best time being 1:22, 1:17 and 1:18. Uscita led the second and fourth in 1:25 and 1:17 1/2, half mile heats. Both colts were very much admired and Dr. Jenkins received hearty congratulations as well as vociferous cheers, his victory, one of probably the greatest ever won by any horseman in Canada. Dr. Christopher also came in for hearty congratulations on his excellent driving as well as on the speed of his colts. It is expected that these two colts will meet again on the race track, probably at New Annan on August 23rd. The proceeds of the gate receipts will be donated to the Patriotic fund.

Man to Man---

"You say your heart is acting up, and that you don't sleep well nights, and yet you don't believe tea or coffee hurts you.

"There's a subtle, cumulative drug in tea and coffee—from 1-2 to 3 grains to the average cup. A little today—a little tomorrow, and so it goes on, irritating the nerves, interfering with digestion and working changes that very often lead to ill health and discomfort.

"Hard to quit, you say? Not if you have the pleasant, healthful, pure food-drink—

POSTUM

Made of whole wheat, roasted with a small amount of wholesome molasses, it contains only the goodness of the grain—no drug or harmful ingredient—no tea or coffee troubles.

Postum comes in two forms. The original Postum Cereal, which has to be boiled; and Instant Postum—soluble—made in the cup with hot water, instantly.

A delicious, economical, healthful table beverage.
