—The Kelsey Kids are in Summerside and registered at the Clifton. They started from Charlottetown Saturday and when as far as Milton Howard Brothers and thought it a wonderful business. They spent Saturday night at Fredericton where they were treated to a partridge supper by Mrs. John A. Cutcliffe, the partridge being shot by Benj. Weeks, Thos. Gass, Golden Weeks, Rufus Stevenson and Allie Cutcliffe. They started for Summerside bright and early Sunday morning and when within about eight miles of Summerside called in at the farm house of John Robert Glover where they were given a fine lunch, after which they said they were hardly able to get into Summerside. The Kelsey Kids intend remaining here until this morning. They intended visiting some of the fox ranches but on account of the rain were unable to do much. Last night Mr. Humphries appeared at Happyland and gave a lecture on his previous experiences. They leave by the Empress this morning to continue their trip around the world. It may be mentioned that the Kelsey Kids thought the Island a beautiful spot. They say they never struck such nice weather since the 1st of August. They also wish to thank the Island people for the very kind and generous treatment shown them.—S.

Market Review.—The Canadian market has shown considerable activity during the course of the week. Towards the end of last week a number of standard issues made sharp gains, but during the past few days there has been rather a reactionary tendency in the market. Some of the stocks had made such big gains that lower prices were almost to be expected in view of some general profit-taking. Besides, the unforeseen developments in connection with the Montreal Street Railway deal have caused a good deal of unrest, and in view of its importance to the local market, prices have been adversely affected.

Big Drop in Montreal Street.—Montreal Street Railway stock dropped very rapidly on Monday and Tuesday, going as low as 222 as compared with 230, the price at which it was selling at the time the Company announced its reorganization plans. The new Transway common stock, which had been quoted nominally around 40, also dropped to 32.

Another development, however, occurred on Tuesday when the City of Montreal applied to the Public Utilities Commission not to accept the plans for the reorganization of the Montreal Transway Company until such time as it was able to protect its interests more fully than it is at the present time. At the same time one of the largest individual holders of Street Railway notified the Utilities Commission that he had applied before the Courts for an injunction restraining the Company from putting through the proposed plan of reorganization on the ground that it was not in the interest of the shareholders.

Gains in Low-price Stocks.—The arrival in Canada of Sir Max Aitken, the promoter of the Steel Company of Canada and Canada Cement Company, was attended by considerable activity and a sharp advance in the

worthless policies, is the conclusion of the provincial police after an investigation into a number of cases arising from the recent fire in Cochrane.

Six merchants appeared before superintendent of police Rogers, at Cochrane, on Tuesday to press charges against William Douglas, a local agent of the Cosmopolitan and the Metropolitan insurance companies of Philadelphia. Douglas escaped with a fine of \$20 and costs in each case.

**PIRE IN GERMAN WARSHIP HOLD.**

KIEL, Oct. 22.—Fire broke out today on the German cruiser Von Der Tann. It started in the tow, oil and alcohol storeroom and burned furiously for half an hour. The crew worked heroically in extinguishing the flames and the damage to the cruiser is not great. It is supposed that the fire was due to spontaneous combustion. A fire similar to that on the Von Der Tann, and being its origin also in the storeroom, is believed to have been responsible for the explosion
