The St. John Telegraph has recently interviewed some of the Englishmen on the way from the North West to England to spend Xmas. One of these, a Mr. Dickson, says that he would not advise a man to go to Winnipeg with a view of staying there. The cost of living there, he says, is terribly high. Rents are all the way from \$25 a month for a four and five room house to \$45 and \$55 for a house of seven rooms. The question of fuel is a serious one, he continued, in the prairie capital, coal in the winter time easily selling for from \$15 to \$18 a ton. He also says that he would not advise a married man to take his family to the West, as he should go there alone. W. F. Fendall of Calgary, who is a farmer in the West, said that while there was a boom on in the west at present he fears that next year there will be a slump, as times have been exceedingly good there and he thinks now there are prospects for a change somewhat similar to that of twenty years ago.

GIVE YOUR STOMACH A NICE VACATION.

Don't Do It By Starving it Either—Let a Substitute Do The Work.

The old adage, "All work and no play makes Jack a dull boy," applies just as well to the stomach, one of the most important organs of the human system, as it does to the man himself.

If your stomach is worn out and rebels against being taxed beyond its limit, the only sensible thing you can do is to give it a rest. Employ a substitute for a short time and see if it will not more than repay you in results.

Stuart's Dyspepsia Tablets are a willing and most efficient substitute. They themselves digest every bit of food in the stomach in just the same way that the stomach itself would, were it well. They contain all the essential elements that the gastric juice and other digestive fluids of the stomach contain and actually act just the same and do just the same work as the natural fluids would do, were the stomach well and sound. They, therefore, relieve the stomach, just as one workman relieves another, and permit it to rest and recuperate and gain its normal health and strength.

This "vacation" idea was suggested by the letter of a prominent lawyer in Chicago. Read what he says: "I was engaged in the most momentous undertaking of my life in bringing about the coalition of certain great interests that meant much to me as well as my clients. It was not the work of days, but of months; I was working night and day almost, when at a very critical time my stomach went completely back on me. The undue mental strain brought it about and hurried up what would have happened later on.

"What I ate I had to literally force down and that was a source of misery, as I had a sour stomach much of the time. My head ached, I was sluggish and began to lose my ambition to carry out my undertaking. It looked pretty gloomy for me and I confided my plight to one of my clients. He had been cured by Stuart's Dyspepsia Tablets and at once went down to a drug store and brought a box up to the office.

"I had not taken a quarter of that box before I found that they would do all the work my stomach ever did; and as a rest or vacation was out of the question for me, I determined to give my stomach a vacation. I kept right on taking the tablets and braced up and went ahead with my work with renewed vigor, ate just so much as I ever did and carried out that undertaking to a successful issue. I feel that I have Stuart's Dyspepsia Tablets to thank for saving me the handsome fee I ever received as well as my reputation and last but not least my stomach."

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box.
