

WORLD TOUR TO SHOW EDUCATION'S VALUE

NEW YORK, Feb. 2—Herbert P. Baumer, a Columbia University student who was working his way through his entire course at that institution, will start soon on a trip around the world without a cent in order to demonstrate that an education is a greater asset than ready cash.

FILIPINOS END STORMY SESSION.

MANILA, Feb. 2—After a stormy all-night meeting the Legislative Assembly took final adjournment at 6 this morning, thus closing the second session of the second Legislature. Because of squabbles between the House and Senate over questions of privilege, only a few bills have been passed by the Assembly, and many important measures are still outstanding. Governor-General Forbes immediately called an extra five-days' session, to settle outstanding measures. A reputation of last year's deadlock over the appropriation bills seems likely.

CHOPPER KILLED BY A FALLING TREE.

CLINTON, Feb. 2—Jumping in the wrong direction when two trees crashed to the ground, Frank Pelkey of Lancaster was struck and pinned to the ground and died today in the Clinton Hospital without recovering consciousness. He, with David Zink, had cut a huge pine tree, which in falling lodged against a maple. The latter tree was then cut and the two fell together, and Pelkey was caught.

BIG CUSTOMS FRAUD LAD BARE AT REGINA.

REGINA, Sask., Jan. 31—The possibility of a gigantic plot to defeat the Customs was unearthed in Police Court today as a result of the prosecution of I.H. McDiarmid, yardmaster of the Canadian Pacific Railway at Regina, charged with allowing cut No. 74,026 in bond to pass through the local yards without paying duty to the Customs' officers. A conviction was secured and the railway company was also convicted on its own admission.

It is alleged that the practice has gone on for years, either with or without the collusion of the railway officials, and during recent months alone some 20 cars have thus escaped Customs. There is in force a Custom regulation which allows the free entry into Canada of rough lumber, but there is duty on all lumber which has been manufactured beyond the stage of lumping on one side. It is said that lumber is turned out of the mills in the States one side and manufactured on the other side, but afterwards roughed over by the machine with a view of making it appear as rough lumber and thus evade the duty in Canada.

NEW YORK GIRLS IN FIRE PANIC

NEW YORK, Feb. 2—One thousand girls and men in the eleven-story Quatt Building, extending from No. 19 to 25 West Eighteenth street to Nos. 22 and 20 West Nineteenth street, were thrown into a panic today by fire on the seventh story of the structure. Scores of persons were bruised in the rush down stairways and for elevators. The reserves from the West Twentieth street station quitted the hysterical girls.

A CURE FOR WRITER'S CRAMP.

The New York Medical Record tells about a paymaster who, after recovery from an operation, found his signature was no longer uniform, was exceedingly shaky, and was made with increasing difficulty as the day progressed. Any attempt to resume work necessitated a long-continued writing before he was in a proper state to do so and led to a tremulousness of the hand and arm similar to that which ensues excessive consumption of coffee or tobacco, or is caused by the toxin of some infectious or fatigue condition. The treatment consisted in explaining to the patient that the fear of making an improper stroke causes lack of freedom and cramping of the muscles. He was directed to make free arm movements with chalk on a blackboard, paying no attention to the forms he drew, then to pass to a slate, and later to pencil and paper, and then to gradually reduce the size of the writing. After performing these exercises for one month, the paymaster recovered his customary skill with the pen.

THE IDEAL KITCHEN.

Let your pocketbook save your strength and time by investing in every practical labor-saving device. Have a bread-mixer, a cake-mixer, a combination cream, egg, and mayonnaise beater, a meat-grinder, etc. Do not scorn the washing-machine, and test both the gas and the electric irons. They save numberless steps and much heat.

The death of the late Rev. John M. McLeod, Vancouver, formerly pastor of the Zion Church in this city, was learned with deep regret throughout this city yesterday. The deceased came to this city in 1871 as pastor of Zion Church and remained that congregation's pastor for twenty years. From here he proceeded to Vancouver and has been in charge of the Zion Church there since then. S. C. Nash, City, in his history of Zion Church, City, says in part referring to the deceased: He preached grand and faithful messages. He was of an exceedingly genial and gracious disposition, of a fine presence and commanding figure, of a handsome, manly countenance, of a character beyond all cavil, and greatly beloved the whole Island over. He was a fine classical scholar, and always took a prominent part in the examination of young candidates for the ministry; he was a clerical bon homie, and camaraderie made him a universal favorite with all creeds and churches. His excellent preaching made the congregation enlarge the Church's accommodation and widen her walls, to receive the crowd thronging to her doors. Two very notable revivals, one in 1874, and another some years later, occurred under his ministry, when nearly three hundred men and women professed conversion, and their names were added to the communion roll. The Church building was raised about eight feet, and two wings were added; the completion of the outside, with most of the inside finishing, the new basement and rooms in connection therewith; the church desk, platform and organ, are all among the material results of Mr. McLeod's effectual labors. He leaves to mourn a family of four sons and two daughters, to whom the sympathy of the deceased's many friends in this province will be extended.

A report was current in the city yesterday that the People's Theatre was closed on account of the prevalence of scarlet fever. The manager wishes to correct this statement and to further state, that the large auditorium is disinfected daily, thoroughly aired, and during the shows in the evening an electric fan is in constant operation.

Last night the teachers of West Kent Street School, City, waited upon their late principal, Mr. Campbell, now Chief Superintendent of Education and presented him with an engraved, as a slight token of esteem in which he was held by every member of his staff and of the cordial relations which had existed between principal and teachers during his tenure of office.

George and Mrs. Coombs, City, received the sad intelligence yesterday by telegram of the death of their son Irwin, which took place in Arizona yesterday. The wire contained only the fact that he passed away at 12.30 yesterday morning "as a result of injuries received in the wreck of a train, on which he was an engineer, near Benson, Arizona." The deceased leaves to mourn, besides his parents, one sister, Miss Gwendy at home, and three brothers, Wm. in Moncton; Heath, in Lynn, Mass and Lowman in this city. The Guardian extends sympathy to the bereaved in their sorrow. The deceased Irwin Garfield Coombs was the second son of Sheriff and Mrs. Coombs and had been in Arizona for the past twelve years. He was held in high esteem by his friends and acquaintances here and by the railway company in whose employ he was and by many friends there. He last visited his parents here about six years ago.

REFORMING THE CIVIL SERVICE

OTTAWA, Feb. 2—There is every reason to expect that the Borden government will at very early date bring down legislation placing the whole of the outside civil service under the civil service act. The present ministers favored this reform while in opposition and intend to carry their opinions into effect now that they have the power.
One of the strongest objections to the civil service legislation of the former government was that it did not touch the outside service and made no provision for improvements in the scores of offices maintained by the government in all parts of the country. There is a possibility that the bill bringing the outside service under the scope of the act may be introduced this session but in any event it will not be long delayed.
It will be necessary in connection with this departure to enlarge the civil service commission. That body consists now of two men whose hands are full in looking after the inside service at Ottawa. How many more commissioners will have to be provided for has not been definitely determined.

OTTAWA, Feb. 2—The public service commission next week receive a deputation of the civil service association and will hear what the inside service itself has to say on the subject of civil service reform. This is something that has not been done in previous investigations. The civil service association has appointed a committee of nine who will put their views before the commission. They of course favor superannuation and a more equitable scheme of salaries. The hearing of this branch of the inquiry will likely occupy most of the week.

Following the presentation of views by the inside service there will be another hearing at which a deputation of the civil service federation embracing the whole of the outside service from coast to coast will give their ideas to the commission. Chairman Morfe and his colleagues will then be in possession of first hand information on the working of the service from the standpoint of the officials themselves.

LIBERAL SENATORS NOT TO TAKE ACTION RE MARRIAGE LAW.

OTTAWA, Feb. 1—The story published in the Toronto Mail and Empire today that the Liberals in the Senate intend to adopt a uniform marriage law on the lines suggested in the Lancaster bill, is ridiculed by the Liberal leaders in the Upper House. In the first place there is a greater proportion of Roman Catholics in the Senate than in the Commons, and they would irrespective of party, unite against any such proposition.
So far as can be learned there is no intention on the part of the leaders of the Opposition in the Senate to unduly embarrass the Government. Some of the "back benchers" are inclined to make trouble, but there is every desire on the part of Richard Cartwright and Senator Dandurand to give the Government fair play until it brings forward some measure. Then the Senate will do its duty.
Its opportunity may come upon the matter of the demands of the Roman Catholic hierarchy for separate schools in the territory to be annexed, but taking things generally there Manitoba boundaries bill, and especially opposition on the part of the Senate.

TALKED FROM LONDON TO ROTTERDAM

LONDON, Feb. 1—Telephonic communication between England and the Continent is developing rapidly. Conversations took place last night between London and Amsterdam and Rotterdam.
The Postmaster-General hopes to be in a position to open an Anglo-Swiss telephonic service as soon as negotiations with the Swiss and French administrations have been completed.
STANDARD OIL PRICES ARE NOW UP AND WILL GO HIGHER.
NEW YORK, Feb. 1—Pleas of oil have been going up steadily since the dissolution of the oil trust by the decree of the U. S. Supreme Court and a representative of the Standard Oil Co., said today they will probably go higher. Three times this year the Standard Oil Co., of New Jersey, has advanced the price of crude oil, and there have been corresponding increases in the wholesale and retail quotations for kerosene, gasoline, and others of the refined products.
Gasoline has risen two cents a gallon in the New York market. Automobile dealers estimate the advance means an increase of more than \$200,000 a month in the cost of running the autos in New York State.
Since the first of the year there has been an advance of 2 cents per gallon in the price of the Standard Oil Company for petroleum products in this city not only in New York, but elsewhere throughout the country have prices been raised.
The increased cost of conducting the thirty-three companies into which the oil trust was divided as compared with the expenses of the compact organization which existed under the old regime has been advanced as a reason for the rise in prices. According to J. I. C. Clarke, the multi-millionaire of the Standard Oil Co., this theory is not correct. Mr. Clarke said that the higher prices were due to economic conditions.

FREDERICTON MAN YUKON COMMISSIONER.

OTTAWA, Feb. 2—The order in council was passed yesterday appointing George Black of Vancouver, commissioner of the Yukon Territory, in succession to Alex. Henderson, retired.
The commissioner receives a salary of \$6,000 a year, a living allowance of \$6,000 additional and a free residence.

MONTREAL TRAVELLER'S SUDDEN DEATH.

ST. JOHN, Feb. 1—After an illness of only day and a half H.H.S. Parkins of Montreal, a well known commercial traveller, passed away suddenly in his room in the Royal Hotel tonight. Mr. Parkins, who travelled for the Smith Manufacturing Co., of Montreal, arrived in this city on the 9.30 o'clock train on Wednesday evening in apparently good health and registered at the Royal. He retired soon after ten o'clock, without making any remark of feeling in ill health. At an early hour this morning, however, he was seized with an attack of apoplexy, and his groans attracted the attention of one of the guests, who notified T. Reynolds, the head clerk. Mr. Reynolds summoned Dr. Walker who did everything possible to relieve the man, but he soon lapsed into unconsciousness. He regained consciousness this morning, and his case was not considered serious until about six o'clock this evening, when he again became unconscious, from which state he never recovered. Parkins' widow, who lives in Montreal, was notified concerning his death, and she is expected to arrive in the city tomorrow at noon. He was about 55 years old.

GRAND TO LIVE

And the Last Laugh is Always the Best.
"Six months ago I would have laughed at the idea that there could be anything better for a table beverage than coffee," writes an Ohio woman, "now I laugh to know there is. (The effects of tea and coffee on the system are similar, because they both contain a drug—caffine.)
"Since childhood I drank coffee freely as did the other members of the family. The result was a puny, sickly girl; and as I grew into womanhood I did not gain in health, but was afflicted with heart trouble, a weak and disordered stomach, wrecked nerves and a general breaking down, till last winter, at the age of 38, I seemed to be on the verge of consumption.
" My friends greeted me with 'How bad you look! What a terrible color!' and this was not very comforting.
" The doctors and patent medicines did me absolutely no good. I was thoroughly discouraged.
" Then I gave up coffee and commenced Postum. At first I didn't like it, but after a few trials and following the directions exactly, it was grand. It was refreshing and satisfying. In a couple of weeks I noticed a great change.
" I became stronger, my brain grew clearer, I was not troubled with forgetfulness as in coffee times, my power of endurance was more than doubled.
" The heart trouble and indigestion disappeared and my nerves became steady and strong.
" I began to take an interest in things about me. Housework and home-making became a pleasure. My friends have marveled at the change and when they enquire what brought it about I answer 'Postum,' and nothing else in the world." Name given by Canadian Postum Co., Windsor, Ont.
