### BRITAIN AND FRANCE REACH AGREEMENT

#### On Naval Question—Both Governments Began a Search for an Acceptable Compromise After the Break-down of the Disarmament Conference at Geneva.

PARIS, Aug. 1.—The French Foreign Office tonight made public a note dealing with the naval compromise which has been reached between Great Britain and France. France and Great Britain have had occasional exchanges of views on naval policy during the last three years. The French government 12 months ago submitted a scheme of mutual understanding which the British rejected but it is understood the British on their part asked to have the question re-opened a few weeks ago.

Tonight's note explained that the French and British governments began a search for an acceptable compromise which they have now reached in order to continue the work that broke down when the powers found themselves out of harmony in discussions provoked by the League of Nations preparatory commission for disarmament.

"On the part of France," tonight's communique says, "the superior council of national defense assembled June 13, after having taken cognizance of the results of conversations wherein Foreign Minister Briand and M. Paul Boncour, (chairman of the foreign affairs committee of the chamber of deputies) participated as well as complementary propositions brought forward by Georges Leygues (Minister of Marine) to serve as a base for an eventual accord and the council issued the necessary instructions for the continuation of the negotiations. It is these negotiations which have ended under conditions fully safe-guarding our naval interests. France and England have the firm hope that their naval powers will be able to occur in this Geneva which is to be communicated to them."

The size of cruisers is understood to be an important part of the agreement. The size of guns is left out, although this question appears conditioned by the size of the cruisers.

The agreement in no way touches the size or length of life of capital ships. The negotiations were carried on partly in Paris, and partly in London between the naval authorities and their conversations at Geneva were carried on between the British and French delegates. The French superior Council of National Defence approved the final draft of the plan two weeks ago and it was initiated at London last Saturday.

There were no visible signs of mourning in the family of the late Ellen Terry. The great actress, who was buried with no display of pomp, had asked her daughter, Edith Craig, (above) to wear no black, not to mourn and to carry on bravely. In harmony with the request of her mother, Miss Craig, who has played many parts on the British stage, now faces the hardest role of her career.

### \$50,000 Gift Made By Lord Inchcape

(Special to The Guardian)  
LONDON, Aug. 1.—A gift of \$50,000 has been made by Lord Inchcape to provide for others who might suffer from the disaster in which his daughter, the Hon. Elsie MacKay, perished with Captain Walter Hinchliffe. These were lost on an attempt to fly the Atlantic from east to west. The money was put at the disposal of Right Hon. Winston Churchill, Chancellor of the Exchequer. He was given absolute discretion as to its use and he handed it to the public trustee for administration accordingly.

While Captain Hinchliffe's widow was not mentioned by name in the announcements, the sum is understood to have been given in response to her claims that there was a moral obligation on Lord Inchcape to provide for her because the whole scheme of the flight came from Miss MacKay.

### Bishop Temple Named Archbishop Of York

(Special to The Guardian)  
LONDON, Aug. 1.—The Right Rev. William Temple, Bishop of Manchester, has been named Archbishop of York to succeed the Most Rev. Cosmo Gordon Lang. Dr. Lang was recently elevated to the Archbishopric of Canterbury to succeed the Most Rev. Randall Davidson, whose resignation becomes effective on Nov. 12.

The new Archbishop of York is a sympathizer with the labor movement and has always taken a keen interest in social questions. He is also renowned as a preacher and has frequently spoken by the hour on the most abstruse theological questions without notes.

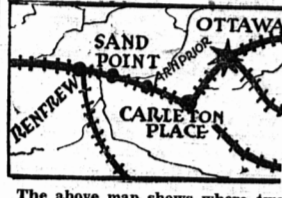

In the recent prayer book controversy he strongly favored the revised book and since its rejection has been one of the leaders in the movement to secure spiritual liberty for the church, without, however, disestablishment.

### I. O. D. E. GIVE BURSARIES

MONTREAL, Que., Aug. 1.—To encourage the study of agriculture in the province of Quebec, the Quebec provincial chapter of the Imperial Order Daughters of the Empire have decided to give two bursaries to students in agriculture, beginning with the academic year 1928-29. Impartiality towards the two races has marked the arrangements as one of the bursaries is set apart for MacDonald College, while the other goes to the agricultural college at St. Anne de la Procaterie, which is entirely French. It has been stipulated that the bursaries, which are for \$200 each, shall be awarded to the two students taking the highest marks in the final examinations of the second year of the degree course in agriculture. In both colleges, there are short courses, but the scholars are intended primarily to help students who wish to make a thorough study of the profession.

The Daughters of the Empire had found that very little was being done in Quebec to encourage the study of agriculture in an up-to-date and scientific manner. It was stated as their policy is patriotic and educational it seemed thoroughly fitting that the bursaries be given at the present time for agriculture, in order to show the interest of all phases of their country's welfare.

Crapaud Church of England tea party, next Saturday afternoon, 4th inst. New Canadian Legion band will be in attendance. If day is unfavorable will be held following but there are still a number of serious cases.

The above map shows where two persons and several horses were killed and five soldiers injured when a train carrying about 200 members of the 22nd Regiment of Quebec, and the Royal Canadian Dragoons of St. John's, Que., crashed with a C. E. freight train near Sand Point. The troops were on their way to Petawawa.

### ARTILLERY INSPECTED

#### Brig. W. W. Gibson, Accompanied by Lt. Col. A. C. Stewart Inspect Prince Edward Island Medium Brigade—Unit Leaves for Petawawa on Saturday Next.

Last night the Prince Edward Island Medium Artillery brigade, under the command of Lt. Col. J. Parker Hooper, M. C. V. D., was inspected by Brigadier W. W. Gibson, C. M. G., D. S. O., O. B. E., officer commanding military district number six who was accompanied by Lt. Col. A. C. Stewart, D. S. O., R. C. A.

After the general inspection by Brigadier Gibson, the officers were inspected in Battery Gun Drill by Lt. Col. Stewart. In the course of this inspection, lines of fire were laid out, and a test made of the abilities of the Signaller, B. G. A., etc., as well as the gun detachments.

No. 2 battery, Major Frank Tierney, commanding, was first inspected in this manner, followed by No. 8 battery, under the command of Major F. W. MacNeil, D. C. M.

Following this a muster parade of the brigade was held.

The batteries will entrain for Petawawa at 2 p. m. on Saturday next, there to carry out the annual firing practice.

They are scheduled to arrive at their destination about 5.50 o'clock on Monday morning. Ten officers and sixty eight other ranks are going, under the command of Major MacNeil.

At Petawawa these batteries will share in competition with all the batteries in Canada, with field and heavy, for general efficiency. In this connection it may be remembered that No. 8 Battery won first place in last year's firing practice.

The brigade will leave Petawawa on return to Charlottetown on the following Saturday night, arriving in Montreal on Sunday morning, where they will spend the day.

They will arrive in Charlottetown on Monday, August 13th on the late train.

### Swedens Ancient Dead Lovingly Provided For

Horses, Dogs, Food, Cooking And Other Things Provided In Old Graves Just Opened.

### Seaplane To Carry Sixty Passengers

(Special to The Guardian)  
NEW YORK, Aug. 1.—Completion of tests on a model of a seaplane designed to carry sixty passengers across the Atlantic ocean in twenty hours was announced today. The first plane probably will be completed in four months. The proposed plane will have a wing spread of 160 feet and will weigh 70,000 pounds under full load. Its power plant will consist of eight air-cooled motors.

### Mysterious Malady Hits London Bobbies

LONDON, Aug. 1.—A mysterious illness which has placed more than 100 London bobbies on the sick list in recent days, is being studied carefully by medical authorities here. The epidemic was responsible for the death of one Police Constable, Thomas Halloran.

The malady first attacked 46 bobbies attached to the famous Bow Street station, and then broke out at Harrow Road, where it put 25 men on the sick list and claimed victims at four or five other stations.

Police doctors are of the opinion that the sickness was caused by eating infected ham from the police canteens. It was officially stated that the epidemic is subsiding slowly but there are still a number of serious cases.

### PLEADS FOR UNIVERSAL DEVELOPMENT OF CANADA

#### Canadians Must Be Placed On An Equal Basis Of Competition With Competing Countries, The Conservative Leader Declares.—Capacity House Greeted Hon. Mr. Bennett At Truro.

TRURO, N. S., Aug. 1.—"How can Canada become a great economically independent country, how can we develop, unless we utilize the money we receive from the sale of our natural products for our own development."

In such words, Hon. R. B. Bennett, before an audience which filled the Capacity House to capacity, pleaded here tonight for a "universal development of this country from ocean to ocean." He proceeded to check and send this money to it that we have an equal opportunity, Czechoslovakia, New Zealand and other countries of the world, or that you must provide against the reduction of the standard of living of Canada, workers. You cannot compare Canadian workers in our factories with the workers in the factories in Czechoslovakia, Italy or Germany. Our workers, he said, must not only receive a living wage but must be afforded the opportunity for self expression and the education of their children.

Canadians never asked for a favor, Mr. Bennett said. "But" he continued, "now you are going to develop the industrial life of this country and meet the competition of Czechoslovakia, Italy and Germany. Our workers, he said, must not only receive a living wage but must be afforded the opportunity for self expression and the education of their children.

Canadians must be placed on an equal basis of competition with competing countries. "We Canadians," the Conservative leader added, "have the right to ask our government to place upon the statute books such laws, you may call them tariff laws or excise laws, that will give to every Canadian artisan, every Canadian farmer, every Canadian manufacturer an equal opportunity to compete with the world. We must at all hazards, at all costs become an economically independent unit as far as possible."

Miss Mildred Bennett spoke of her love and loyalty for the Maritime Provinces and of the pleasure year ended May 31, last, Canada limited to visit these provinces, valued \$31,000,000 worth of agricultural implements. What was now the situation, he asked. In the time of the pleasure year ended May 31, last, Canada limited to visit these provinces, valued \$31,000,000 worth of agricultural implements. What was now the situation, he asked. In the time of the pleasure year ended May 31, last, Canada limited to visit these provinces, valued \$31,000,000 worth of agricultural implements. What was now the situation, he asked.

#### Must Have Equal Opportunity

Canadians never asked for a favor, Mr. Bennett said. "But" he continued, "now you are going to develop the industrial life of this country and meet the competition of Czechoslovakia, Italy and Germany. Our workers, he said, must not only receive a living wage but must be afforded the opportunity for self expression and the education of their children.

#### Economic Laws Tinkered With

"During the last six years the government have tinkered with the economic laws of this country," Mr. Bennett declared, "making a change here and a change there. There has been a reduction in the duty on agricultural implements. What was now the situation, he asked. In the time of the pleasure year ended May 31, last, Canada limited to visit these provinces, valued \$31,000,000 worth of agricultural implements. What was now the situation, he asked.

### SWEDEN'S ANCIENT DEAD LOVINGLY PROVIDED FOR

Horses, Dogs, Food, Cooking And Other Things Provided In Old Graves Just Opened.

STOCKHOLM, Aug. 1.—How lovingly and elaborately the Swedes equipped their deceased for the last journey about 1,500 years ago is strikingly illustrated by unique discoveries just made at Tuna in the province of Uppland. Dr. T. J. Arne has been excavating the graves and has discovered a grave field which yielded remarkable finds. Two so-called boat-graves were found, both well preserved. In one of them was a skeleton of a man and the remains of the boat in which he had been buried and which was to serve for his last long voyage.

It was, like the other graves found, placed East and West and the traveller had been well provided for by the loving hands of his relatives. In the stern of the ship his horse and dog had been placed and as food for the journey he had, amongst other things, been given a killed bird. A round bronze buckle, evidently serving to fasten his mantle around his shoulders was also found, and a bunch of iron arrowheads showed that he had been well armed. In order to keep his arms sharp he had a small whetting stone, fastened in a ring, and his steed had been fully harnessed. Further a fine handle cut into the shape of a bear's head, and a number of well preserved earthenware pots were found in the grave.

The next grave also contained a similar boat, in which a man and his wife had started on their last journey together, each of them having a horse and a dog with them. The man had his sword and shield, and the wife had iron cooking pots.

### WOMEN CIVIL SERVANTS TO CELEBRATE

TORONTO, Ont., Aug. 1.—The women members of the Ontario Civil Service are giving consideration to the proper observance and celebration of the fiftieth anniversary of their entry into the Government service of this Province. The first woman was appointed to the Ontario service in the year 1878, and the appointment was made by Hon. T. B. Pardee, who was criticized for so doing.

SIR ALAN PROPHECIES

LONDON, Aug. 1.—The prediction was made today by Sir Alan Cobham, pioneer African aviator, that within twelve months there would be an air route carrying mails from London to Central Africa in seven days. Speaking at the British Empire League luncheon, Sir Alan said that the proposed air route from Alexandria to Kismumu, in Kenya Colony, would pass through Central Africa, with landing stages established there. Thus, he said, Kenya, Uganda, and Tanganyika Territories would be brought within four days' journey of Cairo.

times intends to visit other sections of the country and make personal inspection of the various classes of postoffices with a view to further improvements.

Differences among the members of the South African Labor party did not concern the government at all, declared Premier J. B. Hertzog (above) recently referring to the split in the Labor party, which involves two Labor cabinet ministers, the cabinet being a coalition of the Labor supporters and the Nationalists, Premier Hertzog's party.

### Favorable Weather For Take Off

(Canadian Press)  
HORTA, ISLAND OF AZORES, Aug. 1.—Captain Frank T. Courtney, British aviator, who has been waiting for a favorable opportunity to take off from the Azores on a trans-Atlantic flight to Canada, hopped off for Newfoundland late this afternoon. The British aviator, who made an unsuccessful effort to take off on July 26, had extremely favorable weather conditions. There was a bright sunshine and a moderate sea, the wind was at the north.

At the very time that Captain Courtney took off, the Spanish plane under the command of Major Ramon Franco was enroute to Horta on the first leg of a round-the-world flight. Major Franco left Cadiz, Spain this morning and was due in Horta several hours after the Courtney hop-off.

### Spanish Seaplane Reported Down

(Canadian Press)  
LISBONA, Aug. 1.—The seaplane Nuemacia in which four Spanish officers took off today from Cadiz for Horta is reported down off Praia Mont Cordero, according to reports reaching here. The dispatches indicated the plane was not injured in landing, saying the motors were working but the machine apparently was unable to leave the water. The landing point is given as in the Province of Algarve the southernmost province of Portugal, barely 150 miles from Cadiz.

### 10,000 Britishers To Help Harvest Can. Wheat Crop

(Canadian Press)  
LONDON, Aug. 1.—Arrangements have been finally concluded for 10,000 men to go from Britain to Canada to assist in this year's harvest, stated Right Hon. L. C. M. S. Amey, Secretary for the Dominions in the House of Commons this afternoon.

The Dominion Government especially wished that the men be recruited from mining areas and the British Government would carry out these wishes, the minister said. He concluded amid cheers, "The British Government is greatly indebted to the Canadian Government for the readiness with which they co-operated in this arrangement."

Lady Heath, noted British airwoman, has been engaged by the Royal Dutch Air Lines as a pilot for the passenger air service. She is the first woman to be so employed.

### Dentist Shot Wife And Two Children

(Canadian Press)  
ROSELLE PARK, N. J., Aug. 1.—Dr. Arthur M. Woolsey, a young dentist, today shot and killed his wife, Marguerite, and their two children five and seven years old, while they slept in their beds. The shooting occurred early this morning and Woolsey remained in the house with the bodies until afternoon when he telephoned police headquarters with a report of "trouble in the house."

### Arctic Star Won Goodwood Stakes

(Canadian Press)  
GOODWOOD, Eng., Aug. 1.—Sir Matthew Wilson's four year old "Arctic Star" won the Goodwood Stakes this afternoon by a length from "Smith Tubervilles "Steel Point" with Anthony De Rothschild's "Goodwin" in third place another length back. Nineteen horses ran the two miles and three furlongs of the race, one of the greatest long distance events of the turf.

### Oil Explosion At Refining Plant

(Special to The Guardian)  
VINCENNES, Ind., Aug. 1.—Between forty and fifty men suffered burns and four of them are in a serious condition as a result of an oil explosion early today at the plant of the Indiana Refining Co., at Lawrenceville, Ill., nine miles west of here. The blast followed first at one of the stills and extinguished the flames. The property damage was small, being estimated at approximately \$1,000.

### Lord Plumer Takes Leave Of Palestine

(Special to The Guardian)  
JERUSALEM, Aug. 1.—Lord Plumer, retiring high commissioner of Palestine, departed today by special train for Egypt. Lord Plumer accompanied by his wife, has taken a two months leave of absence, following which he will retire from the high commissionership. He will be succeeded by Sir John Chancellor.

### DRESS REGULATIONS BY CARDINAL BAN BARE KNEES, SHORT SKIRTS

TURIN, Aug. 1.—Dress regulations for all classes of people from adult women to boys in knee pants were issued today by Cardinal Gamba in an arch-diocesan circular.

The rules prescribe the proper forms of dress "for modest, honest persons" as—

1. Sleeves must be long enough to cover the elbows.
2. Boys' pants and girls' skirts must cover the knees.
3. Not more than two inches of adult women's necks should show.
4. Skirts for young women must reach below the knees, and those for adult women still lower.
5. Dress materials must not be transparent, so that nudeness or indecency could result, and must cover the figure.
6. If any woman violates these requirements for Christian modesty, priests will be under the painful necessity of refusing communion to her, and will not allow her to act as godmother at baptisms and confirmations.

### NINE KILLED IN ACCIDENT ON WELLSLAND

#### Many Were Also Badly Injured When Huge Lock Gate Collapsed on New Welland Canal.

(Special to The Guardian)  
THOROLD, Aug. 1.—At least nine men were killed and twelve were badly crushed and now in the general hospital as the result of the collapse of a 500 ton lock gate at Lock Number Six on the new Welland Canal half a mile from here this afternoon. The scene of the accident is one of the twin locks on the canal.

About forty men were in the vicinity of the lock when the collapse occurred and none is believed to have escaped death or injury. When the debris is cleared away it is feared that more bodies will be found.

The disaster occurred while two cranes were placing a huge 500 ton gate into position on the west side of the lock. The accident was caused by the boom of one of the cranes slipping. Two cranes were at work at the time, one handling each end of the heavy gate. The crane nearest to the head of the lock held, but the boom of the crane at the lower end slipped.

The operator is said to have endeavored to save the situation but the slip of the boom resulted in the gate crashing, carrying the crane to the bottom of the lock. The huge gate crashed into the steel fabric at the east side of the lock and smashing the steel work, fell to the bottom of the lock crushing the workmen as it fell.

### Revolvers Issued Payroll Men

(Special to The Guardian)  
TORONTO, Aug. 1.—"There are bad men to be ex-convicts and bad men in and around Toronto whose idea is to take your life and your money," declared Chief of Police D. C. Draper yesterday, when addressing guards of a local express company engaged in carrying payroll. The firm applied for permits for their men to carry revolvers when carrying out their duties.

Before issuing them the weapons the chief wanted to look over the men. Gen. Draper told the men he did not want them to be careful as to where they shot a man who attempted to hold them up and caution them to always have their revolvers loaded and be prepared to use them.
