CANADA NOT YET CONSULTED

(Canadian Press)
OTTAWA, November 27.—Although the Canadian Ministry has been in receipt of cabled intelligence with respect to Great Britain's action in Egypt, there has been so far no consultation or exchange of views between Canada and Great Britain, and it is not believed that the situation has yet been formally discussed in Cabinet Council. In the matter of the action taken, the Dominion is a sort of accessory after the fact, but, so far, nothing more than that. The question, it is however realized, may reach a stage where an interchange of views may be considered necessary, but it has not yet, in the opinion of the authorities, reached the stage for a definite formulation of opinion.

BIG STRUGGLE PREDICTED IN OLD COUNTRY

Mine Workers Propose to Make New Demands of the Operators.

LONDON, Nov. 27.—A great struggle between the miners and the mine owners in the near future is predicted by A. J. Cook, General Secretary of the Miners' Federation. Secretary Cook says the struggle will come either in connection with the mine owners' demand for a reversion to the eight hour day, or on the definite refusal of the mine workers to ratify further agreements unless a living wage is assured thereby.
The present agreements between the mine owners and the workers will not expire until next June, but two weeks hence the mine owners will meet for their periodical business, and it is anticipated that the occasion will not be allowed to pass without some talk concerning the trouble that is undoubtedly brewing.
Checla collapsed in court when his sentence was pronounced and was carried from the court room. All of the youths will begin today serving their sentences, which, in the case of those receiving consecutive sentences on the two counts of 20 to 20 and 10 to 15 will amount to 30 to 45 years in prison.
