

OR A LAPUS LINGUAE.

"That's a very handsome stone, Mrs. Whitney Avnoo. What kind is it?" "A lapis lazuli, I think."

Was a Victim of Bronchitis.

HAD TO BE PROPPED UP IN BED.

Bronchitis is an acute inflammation of the membranes lining the air tubes of the lungs, and begins with a tightness across the chest, and a difficulty of breathing accompanied by a hard dry cough which later develops into the raising of a greenish or yellowish phlegm.

On the first sign of bronchitis you should check it immediately by using Dr. Wood's Norway Pine Syrup, and thereby preventing it becoming chronic and perhaps turning into some serious lung trouble.

See you get "Dr. Wood's" when you ask for it. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

A FAMOUS VICTORY.

"I would have you to know, sir, we came over with William the Conqueror."

"It must have been some kind of a conqueror who could make you come over with anything."

DIPLOMACY FAILS.

Mother—"Tommy, if you're pretending to be an automobile, I wish you'd run over to the store and get me some butter."

EXACTLY.

"Pa, what are fortunes of war?" "The moving pictures rights, my boy."

QUALIFIED.

Uncle Ed—"Why, Johnnie you don't swear, do you?" "Johnnie—"No, I don't swear, but I know all the words."

SHE WASN'T INTERESTED

The newly married couple sat close together by the fire in the drawing-room. Her head was pillowed on his shoulder, and he was in a state of sentimental ecstasy.

I have just been trading a look, he said, the sincerity and beauty of which are ennobling. It is a work of love—so uplifting, so beautifully inspiring, so pure!

She looked at him with a far-away expression in her eyes. To him she seemed to be pondering every word. He was charmed. Then with a painful shock he was disillusioned. George she exclaimed, shall we have the beef for dinner today, or shall I hash it?

KOOTENAY STEEL RANGE

is easily controlled. That's why it is such a marvelous fuel-saver and so popular with thrifty housewives.

NOISY INFANT.

The automobile is only in its infancy, so there is hope that it may eventually become less noisy.

A PLACE FOR EVERYTHING.

It is hard to keep crowded quarters neat, as the girl of one room or the housekeeper of a small house sorrowfully knows. In days when there were great linen chests, huge closets and fewer belongings the problem was simpler.

If only in the interest of one's nerves a place for everything needed should be cultivated. It is not restful to hunt madly for gloves or over-shoes, to make hay in a drawer in desperate search for a missing article, to turn a household upside down with frantic cries, Mother, where is my hat? etc.

The girl who works must be neat and in order. Mere surface cleanliness will not do. If there is lack of mistakes and sharp reprimands. For her own sake a girl should be orderly. The time taken hunting one's belongings is that much time lost. Work in arrears is bad business.

The easiest way to be orderly is to learn that it is as easy to put an article in one place as another. It is not difficult to acquire a place for everything and to keep that thing placed. The easy-going girl does not realize until she has a reputation for being slovenly how far from nice she is.

Another cure for disorder is elimination. Cut down your belongings. If you live in cramped quarters make the elimination drastic. It is surprising how much we can get along without. To own no more things at one time than one needs means a more placid life.

JOHNSON'S ANODYNE LINIMENT

Used 102 years for internal and external ills.

A sure relief for coughs, colds, sore throat, cramps, cholera morbus, diarrhea, cuts, burns, bruises, sprains, etc.

25c and 50c everywhere

I. S. JOHNSON & CO. Boston, Mass.

If naturally careless and without early training in neatness a woman should take herself severely in hand. She should determine to be neat at any cost. This means living more slowly. Half the secret of misplaced belongings is planning more for the day than there are hours for accomplishment. The woman who rushes from one engagement to another leaves a trail of scattered belongings and upset rooms.

LACE DESIGNS FROM SPIDER WEBS.

(Harper's Weekly.)

Missionaries in Paraguay more than 200 years ago taught the native Indians to make lace by hand. Since that day the art has greatly developed, and in certain of the towns lace making is the chief occupation. Almost all the women, many children and not a few men are engaged in this industry.

A curious fact with reference to the Paraguayan laces is that the designs were borrowed from the strange webs woven by the semi-tropical spiders that abound in that country. Accordingly this lace is by the natives called nanduti, which means "spider web."

NUT CAKE.

One cup of butter, 2 cups of sugar, 3 cups of flour, 3 eggs, 1 cup of milk, 3 teaspoons yeast powder (scant), 1 pound of English walnuts. Use half of the meats of nuts for frosting and the rest break up quite small. This makes two loaves. It is not necessary to use a whole

It's Best To Have

ready to use at first sign of trouble the best corrective for any disorder of the organs of digestion. The earlier you seek relief the easier it will be to get it—and the more certain it will be that the trouble will not lead to something worse. It is universally admitted that

BEECHAM'S PILLS

are the safest preventive as well as the most reliable corrective of stomach, bowel, or liver troubles. They bring about regular, natural, healthful action. All through the body—in every organ, every nerve—in actions, vigor and spirits—you will feel the benefit of Beecham's Pills—and quickly, too. You will save yourself suffering if you have this matchless aid to health

"A" TANK

One pair of gloves will wear six MONTHS—or longer.

Another pair will wear six WEEKS—or less.

Why the difference?

How can you pick out the six months' kind?

This is why and how.

The wearing quality of a glove depends mostly, if not altogether, on how the leather is produced—how it is treated in tanning before being cut up into gloves.

It makes all the difference to you—in Service—whether the untanned Animal skin travels over Tank "A" route or Tank "B" route—so to speak.

Take a horsehide for example:—

Horsehide is unquestionably the best leather for hard service gloves. A Raw horsehide when cleaned, scraped and ready for tanning, measures, let us say, 20 square feet of surface.

Now—hides are bought by the POUND but sold by the FOOT. And this 20 square feet of raw hide may be either STRETCHED 10 per cent. in tanning or SHRUNK 10 per cent. according to the PROCESS employed and the chemicals used.

Most tanners think it good business to GAIN 10 per cent. on their hides—Naturally they want all the square feet of leather they can get out of each skin.

But this extra STRETCH is gained only at the expense of STRENGTH—wearing quality.

The fibres of the leather are WEAKENED in obtaining that extra 10 per cent. On the other hand, a 10 per cent. shrinkage would THICKEN and STRENGTHEN the leather by knitting the fibres together and closing the pores thus adding tensile strength—for WEAR.

"B" TANK

The greater the "stretch" in the hide, the thinner and weaker the leather. The more "shrink" in the tanning process the THICKER and TOUGHER and more ELASTIC the leather, hence LONGER WEAR. You can understand that.

Every glove carrying the H. B. K. trade mark is made from hides that are specially SHRUNK by the H. B. K. special process of tannage. For this reason H. B. K. gloves are more pliable, elastic, resilient and LONGER WEARING than ordinary heavy gloves.

You can put a H. B. K. horsehide glove to the hardest kind of usage and it will stand up and hold its own where a glove tanned by ORDINARY process would give way in a short time.

H. B. K. horsehide gloves are wet-proof, snow-proof, heat-proof, scorch-proof. They are tough and wiry and thick, yet soft and pliable enough to pick up a pin.

We are the ONLY Canada makers of gloves who absolutely GUARANTEE our gloves without reservation. The wearer must get full and complete satisfaction from a H. B. K. glove or he gets a new pair FREE.

Why buy doubtful gloves when you can get H. B. K. GUARANTEED gloves—the kind that MUST give satisfactory wear.

When you want EXTRA SERVICE from a glove and want a RESPONSIBLE guarantee from a RESPONSIBLE factory ask for and INSIST ON GETTING H. B. K. gloves identified by the diamond trade mark shown around this ad.

Every dealer having YOUR interests at heart should sell H. B. K. gloves. If not ask him why.

For YOUR OWN sake insist on getting H. B. K. GUARANTEED gloves.

The H. B. K. brand means SAFETY and SATISFACTION in glove buying. Get H. B. K. gloves and be SAFE.
