

Today's Probabilities

TORONTO, September 27.—(Special)—Increasing easterly winds, fair most of day, showery by night.

To cure a headache in ten minute use Kumfort Headache Powders.

ALL COFFEE

Is not alike, that is why so many people on getting a trial of low grade coffee with nearly half chicory give up its use. We guarantee to give you absolutely pure coffee, of the highest grade we can buy, put up especially for ourselves with not an ounce of chicory. A sample trial will convince you that we have the highest grade of coffee in town.

40 Cents per lb.

CANCER MYSTERY.

Those who are looking to the results of special investigations now in progress in Europe in the hope that they will solve the dread mystery of the cancer have not much to encourage them in what has already been accomplished. In England, the Middlesex Hospital has a fine record for practical charity in making as comfortable as possible the last days of those who have passed beyond hope of relief from surgery, but its clinical researches have unfortunately contributed very little to the sum of human knowledge concerning this malady. During the century of its existence there has been a considerable extension of knowledge respecting the nature and structure of the morbid conditions collectively termed cancer, but that is practically all. Paget and Virchow, by exact pathological work, laid the basis for a scientific study of the

A RIGHT TO JUDGE,

Persons who have used Dr. Chase's Ointment have the best right to judge of its merits and there is no preparation on the market today which is backed by such a mass of unimpeached testimony. It cures eczema, salt rheum and piles so promptly and thoroughly that people feel it a pleasure to recommend it to other sufferers. See testimonials in the newspapers.

structures themselves, while the statistical work in various countries, notably in England, has rendered it possible to formulate some tentative conclusions with regard to the prevalence of the disease and its geographic distribution. The microscope has revealed the fact that cancerous tissues are composed of the same elements as normal tissues but why these normal tissues grow in an abnormal way and in abnormal places is as much a mystery as ever. The work of the research laboratories of the Middlesex Hospital consists chiefly in the refutation of theories which have been advanced to explain the phenomena of cancer. This has its value, no doubt, but it is really very little in proportion to that which would attach to one affirmative demonstration. The net conclusion to be drawn from this mass of data is that everything pertaining to the cancer is abnormal and that "in no case can any single examination be found to show any special characteristic that can be regarded as specific or of the slightest diagnostic value."

On the Continent, Prof. Von Leyden of Berlin has just published an account of the first three experiments made by him on human beings with the new cancer serum. He has not succeeded any more than experimenters before him in transferring cancer from human beings to animals, but has effected such transmission from one dog to another, and claims to have used the serum obtained from rabbits with marked benefit upon a dog. Encouraged by this experience, Prof. Von Leyden determined to make experiments upon human beings. Of three cases thus treated two died and one "showed no ill-effects." In making a report of his work up to this point the professor says, with becoming modesty: "We do not conceal from ourselves that the results are incomplete; but think that their therapeutic nature is justifiable and rational." This is distinctly disappointing. Practically, it leaves the subject where it has been since the beginning of medical and surgical science. The man who solves the cancer mystery will win for himself while living and for his memory when dead a measure of honor which few have attained and still fewer so well deserved. 11

Church Services.

METHODIST.
Prince Street.—Prayer and Praise Service at 10.15. Rev. J. W. McConnell at 11 and Rev. G. M. Young at 7. Sunday School at 2.30 p. m. Strangers welcome. Attentive ushers.

E. E. Prior and Mrs. Prior, Boston, have been in the City during Exhibition week, after having spent a most enjoyable summer at Mrs. Prior's old home in Ocean View.

A Prominent Clergyman Says:

"Paine's Celery Compound Purifies the Blood and Revives the System."

No Other Medicine in the World Has Ever Achieved Such Wonderful Victories Over Disease and Suffering.

Paine's Celery Compound has wrought marvellous cures for suffering men and women in every section of the Dominion. It has the indorsement of the best men and women in Canada, because they have found the great remedy to be exactly what was claimed for it. Scores of prominent clergymen have gratefully written in its praise, and recommend it when they have opportunity. Rev. J. D. Lelshman, of Angus, Ont., gives his own personal experience as follows:

"I have always found Paine's Celery Compound an excellent nerve tonic, and have frequently recommended it to persons suffering from nervous debility and sleeplessness. I believe it to be a most powerful medicine. It also purifies the blood and revives the system. Give it a fair trial and it will in these cases be found helpful."

Underwear, Sweaters, Hats and Caps at Weeks & Co's. 11

Extra choice cooking apples 10 cents the peck, at J. D. MacLeod & Co's. 27 21.
