Sept. 3, 12. High Low Close. Shawana, Wis., September 2—Seven persons including nearly the entire train crew, were killed and twenty injured when a sleeping car train of the Chicago and North Western railroad was derailed in a washout caused by a cloudburst five miles south of this city.

SOURIS EAST AND MONTAGUE

"It pays to buy in this Province." Robert MacLean, foreman on the gravel train at Elmira, spent the week end at Souris.

"Her friends will learn with regret that Mrs. MacCormack, Souris East, had the misfortune of having her arm badly bruised by a fall last week."

"The vegetable crop around Souris is reported exceptionally good. Some potatoes dug by Joseph Bushey measured nine inches in length while it only took twelve of his turnips to fill a bushel."

"The following schoolers took shelter in Souris Harbor over Sunday.—Atheling, Petite, Arthur W. Captain Chapman from Halifax en route to Labrador, Electro, Medina, Myrtle Mack, Organ, Ella Mason, Ida M. Abacana, Cyril, Blakeard Agudilla."

"The friends of temperance were pleased to see that the new prosecutor has at last started to enforce the law when on Saturday a number of the violators of the Prohibition Act were convicted for a first offence by Stipendiary Magistrate. It is to be hoped that Prosecutor MacLean will follow up the good work and secure a second and third conviction, thereby putting the offenders out of their illegal business. The people do not want the fines, what they require is that the illegal sale of intoxicants, which is cursing the town and province, shall cease."

COCHRANE NEARING SYDNEY. OTTAWA, Sept. 2.—Hon. Frank Cochrane is expected to arrive at North Sydney tonight or tomorrow. The government steamer Stanley, on which the minister of railways is returning from Hudson Bay, is nearing home, a message from Indian Harbor having reached the department of railways and canals today.

AMUNDSEN'S RECORD. COPENHAGEN, September 2.—A commission is examining the records of Captain Paoli Amundsen's South Pole expedition, and will shortly publish its report. It is stated that there is possibly a slight error in Captain Amundsen's calculations, but that there is no doubt that he got within a quarter of a mile of the pole.

WOULD CHANGE VENUE. NEW YORK, August 31.—Falling in attempt to delay the trial of Police Lieutenant Becker for the murder of Herman Rosenthal, counsel for the accused lieutenant will ask that Becker be tried in another country. District Attorney Whitman plans to bring Becker to trial before Justice Goff on September 11, but John E. McIntyre, chief of counsel for the policeman, said today that he would fight to the limit to prevent his client from being taken to trial.

FIVE WERE KILLED. NORTH BAY, September 1.—Five are dead and ten injured, was the toll taken by an accident on the Canadian Pacific railway near Mattawa on Saturday morning when a work train engaged in ballasting the tracks while standing in caboose first collided with a fast thru freight train. The work train backed out of the Mattawa yard about 6 in the morning, with the engine behind, pushing cars and caboose ahead. One mile and a half from Mattawa, the two trains came together, the engineer and fireman of the fast freight just seeing the oncoming work train in time to jump from their engine and save their lives.

DUKE IN SASKATCHEWAN. PRINCE ALBERT, Sask., Sept. 2.—The vice-regal party arrived here this afternoon and departed for Edmonton after a busy day. At every stop on the line there were large crowds and his royal highness often spoke to farmers on the wayside. Saskatchewan gave a striking demonstration and the duke congratulated the city and said it was a real type of a western city, full of energy and self-confidence. In this city, he said he was glad to pay a short visit to the outposts of the Empire and to witness the success crowning efforts to establish agriculture on a sound basis in this northern latitude. He hoped they would maintain the balance between the financial conditions of the present, and confidence in the possibility of the future.

SEVEN WERE KILLED. SHAWANA, Wis., September 2.—Seven persons including nearly the entire train crew, were killed and twenty injured when a sleeping car train of the Chicago and North Western railroad was derailed in a washout caused by a cloudburst five miles south of this city. There were eight sleepers on the train but only one was derailed and the passengers there suffered only slight injury.

"Martin McKinnon, agent, will be glad to receive all news, advertising and subscriptions in Montague and vicinity. His office phone No. is 20."

"Subscribers should renew a week or two before the time they have paid for has expired and thus not miss an issue, as all papers are discontinued promptly on expiry date."

"Any person who can act as a guardian representative at Montague should write 'Mgr. Guardian, Charlottetown,' at once. This is a good position for a young lady or for any man who has some spare time."

CAB FELL FROM ENGINE. BRIDGEWATER, September 1.—A peculiar accident occurred in the workshop of the Halifax and South Western railway here yesterday afternoon. An engine was in for repairs and the cab in some way fell from it, striking Frank Crouse, causing a compound fracture of the right leg and wounding the head. Crouse is about 22 years of age. He will recover.

WHY NOT FIGHT. LONDON, September 2.—Norman Angell (Ralph Norman Angell), the author and newspaper correspondent, who has been the general manager of the Daily Mail in Paris since 1905, contributes to that paper a striking article on the Panama canal law entitled 'Why Not Fight?'

He starts out by suggesting hypothetically a series of offenses committed by Germany against England, which he says, would give an Anglo-German war infinitely greater justification than most of the wars of history, and would indeed make war inevitable. These offenses are intended as exact parallels of what the English regard as American offenses against England in the past ten years and whose logical method of settlement would be by war. But, says Mr. Angell, we have not gone to war; we shall not go to war; we are not even thinking of war. This, he argues, is not because blood is thicker than water for when the Americans were really of English blood, which they are now, we went to war with them twice, so it is not for that reason that we submit to the affronts of America. The reason is because war would be ineffective. We could not impose our will by war; America is not only impregnable, but is quite obviously impregnable. We could not destroy her navy, bombard her ports, and blockade her coasts, but we should thereby create a position far more serious for ourselves than for her. She would be embarrassed; we would starve. Nothing definitely is known here beyond the brief official announcement that the formal demand for arbitration would be made by Great Britain, but it is believed that instructions already are en route to the British embassy at Washington concerning the situation. The British demand will be made under the arbitration convention of 1898. Great Britain's contention will be that the question at issue does not affect the vital interests, independence or honor of the United States and that therefore it is clearly within the scope of the 1908 convention, since the matter to be arbitrated is not an act of congress but an interpretation of articles of the Hay-Panama treaty.

BRIDGEWATER, September 1.—J. H. Foreman, local manager of the Davison Lumber company, was struck by a piece of falling pulpwood at the Rossing mill here yesterday morning and badly injured. The blow fell on the top of the spine, inflicting serious injuries. Dr. Stewart was called and did everything that was possible. Mr. Foreman's condition is precarious, but there are hopes of recovery. Mr. Foreman came here from Pittsburg to take the position vacated by Mr. Teufel.

SOME FACTS. In 1891 The Morning Daily Guardian was established, and is still issued each morning with the latest local and foreign news, including the Canadian Press and a special telegraphic service. In 1887 The Weekly Guardian was established, but its issue proved too infrequent for readers here as the Province advanced, and from time to time was changed, first to a Semi-Weekly, then to a Tri-Weekly, and later to a Rural Daily, so that for years The Guardian has issued two dailies, as at present—one in the morning as a Morning Daily, and the other in the afternoon as a Rural Daily. As the name of the latter was never sufficiently clear as to what it implied and always required much explanation, it was in May last changed to Evening Daily, and continued as an afternoon paper. For some time past the management has felt that Prince Edward Island is justly entitled to a twenty-four hour telegraphic news service, as enjoyed by the other Provinces of Canada, rather than the night wire service only, as up to June 30th last supplied by The Morning Guardian and afterwards printed in The Evening Guardian. Accordingly, a representative visited St. John and arranged for a Canadian Press day service, which is appreciated by the general public. It is thus to The Guardian that the people of Prince Edward Island are indebted, first for a night Canadian Press service and now for the day Canadian Press and Special Telegrams well as a hundred for The Morning Daily. The friends of both The Morning Guardian and The Evening Guardian are quite expressive of their appreciation that their favorite paper contains the latest day and night, as well as night and day Canadian Press and Special Telegrams and local news, and thus a complete twenty-four hour service. Advertisers are also more than pleased with the rapid increase of fully two thousand readers already in the Evening Guardian's circulation, as well as several hundred for The Morning Daily. The Guardian ever realizes its obligation to furnish its readers with the latest and best news service obtainable, and to give to its advertisers the largest and most valuable circulation possible. The Guardian is now but issuing two dailies, one in the morning and the other in the afternoon, as it has been doing for years, but since July first its afternoon paper contains its own day's news in addition to that of The Morning Guardian, and in other words, the news of the twenty-four hours immediately before it goes to press. The Morning Guardian occupies a similar position.

CHICAGO, September 1.—In a bulletin issued by W. A. Garrett, chairman of the Association of Western Railroads, warning is given that the United States is face to face with the greatest car famine in the history of railroading. He estimates that there will be a shortage of 179,838 cars by October 25, provided that the roads are called upon to handle only the amount of traffic handled in 1909.

"YOU'LL SUFFER ALL YOUR LIFE"

That's what the Doctor told him "Fruit-a-Lives Cured Him"

CHRISTCHURCH, N.Z., Jan. 23rd 1911. "For over twenty years, I have been troubled with Kidney Disease, and the doctors told me they could do me no good, and that I would be a sufferer for the rest of my life. I tried many different medical men and tried many different remedies, but none of them suited my case. Nearly a year ago, I tried 'Fruit-a-Lives'. I have been using this fruit medicine nearly all the time since, and am glad to say that I am cured. I give 'Fruit-a-Lives' the credit of doing what the doctors said was impossible. I am now seventy-six years old, and in first class health."

GEO. W. BARKLEY. In all the world, there is no other remedy that has cured so many cases of incurable kidney disease, as 'Fruit-a-Lives'. This famous fruit medicine acts directly on the kidneys—beating and strengthening them—and ridding the system of the waste matter that poisons the blood. 50c. a box, 6 for \$2.50. Trial size, 25c. At dealer or sent on receipt of price by Fruit-a-Lives Limited, Ottawa.

PASSED COUNTERFEITS. ROME, August 31.—A profound sensation was caused by the arrest today of two prominent leaders of Roman society, with five accomplices, on a charge of alleged trafficking in counterfeit bank notes and government stock certificates. The chief accused are Count Palizzacappa and Count Barbellini, who are accused of having issued illicit securities on an extensive scale. The organization with which they are said to be connected is believed to have widespread ramifications. All the arrested men protested they were innocent, but they have been incarcerated in jail.

Eczema Always Burning and Itching. Used Box of Cuticura Ointment and it Completely Disappeared. "I have suffered from eczema for two years. The trouble began on one arm where there appeared a red spot of about a five-cent size, which always widened at the time itching and burning. The first day I didn't catch my breath, but seeing that it gained in size, I tried Cuticura Ointment and... Ointment, but both without success. It was always burning and itching. Having seen in the newspaper the advertisement of the Cuticura Remedies, I tried a little, and seeing that it improved, I bought a box of Cuticura Ointment. After having used one box, my eczema completely disappeared. The Cuticura Ointment should be kept in every home." (Signed) N. Ostiguy, Marville, Que., Jan. 14, 1911. A Generation of Success.
