Holman's Improved **SILVER MOON** Base Burner with Automatic Cover Lift **\$19.00**

This Offer is Good for a Short Time Only

Freight Paid To Your Station SATISFACTION GUARANTEED

This is a decided saving in the price of the Improved style SILVER MOON HEATER with reversible flue. There is no doubt but there will be an increase in the cost of these stoves as well as all stoves next year, on account of the rapidly increasing cost of raw materials, due to the phenomenal demand for such materials for the manufacture of munitions of war.

For a short time only we will prepay the Silver Moon Base Burner to your nearest railway station on cash orders at the prices specified in this advertisement—but this offer will be for a short time only.

The Holman Silver Moon Base Burner is the most improved and economical heating stove of its kind on the market—possesses distinctive features, such as a automatic cover lifting device, eliminating the necessity of using a lifter as in the case with old style stoves.

By consulting page 104 of Holman's Winter Catalog, you will learn much regarding this improved style heating stove. If you can use one of these stoves now or in the near future, do not hesitate in sending your order as this special price may be withdrawn at any time.

Complete with length of pipe, freight paid to your nearest railway station. No. 11—Complete \$19.00. No. 12 for 23.00.
