

# PRINCE EDWARD ISLAND AS A SUMMER RESORT

## THE LAND OF PURE DELIGHT FOR TOURISTS AND HEALTH SEEKERS

### SOME OF P. E. I. ATTRACTION

Prince Edward Island is the best spot on earth in which to spend a vacation. It is more, it is the ideal land we've all heard and sung about in the halcyon days of childhood and youth, "The Land of Pure Delight." Some of its outstanding features are:

#### A LAND OF BEAUTY.

Three hundred and seventy-eight years ago Jacques Cartier wrote:—"All this land is low and the most beautiful. . . . This is a land of the best temperature which it is possible to see." Thousands of tourist visitors attest that it is more beautiful today, and the most attractive summer resort in the entire Dominion of Canada.

#### A DELIGHTFUL SUMMER CLIMATE.

Gentle breezes laden with the breath of the sea blow from the south and the west all through the long summer days, dying with the red and gold amber and green of a gorgeous sunset. The nights are always cool and bright, refreshing rest and sleep. There are no fogs.

#### A LAND OF HEALTH.

In no country does so large a proportion of the people live to a green old age. Only about one per cent of the population dies each year. The report of the Registrar of Vital Statistics for the year 1911, in which year the mortality was larger than usual, shows that of a total of 1,114 deaths there were

566 over 60 years of age;  
411 over 70 years of age;  
214 over 80 years of age;  
42 over 90 years of age;

The infant mortality of other countries is almost unknown here. There is no other land under the sun where 40 per cent of the population live to pass the seventy year span of life!

#### A LAND OF ABUNDANCE.

In no other country is there greater abundance of the best food and of clear, sparkling water in town and rural districts alike. Lamb of the finest flavor; Eggs, milk, butter and cheese; The most luscious oysters in the world; Lobsters in great abundance; Sea and brook trout, mackerel, cod, etc.; Wild geese, brant, plover, duck and partridge in their season; Strawberries, raspberries, blueberries, cranberries;

Apples and plums of rare excellence; cherries and small fruit are plentifully produced.

#### AGREEABLE SOCIAL CONDITIONS.

The Island is socially a land of the golden mean. Few are very rich and almost none are poor. The great majority enjoy comfort and prosperity. Sobriety and order everywhere prevail. In no part of the American Continent is there proportionately so little serious crime. There are no tramps and beggars are unknown. Churches and schools are abundant.

#### POSTAL AND OTHER FACILITIES.

There are 468 post offices—one to every 4½ square miles. Throughout a large part of the Province there is free delivery of the mails daily at the farmers' road gates. The Prince Edward Island Railway intersects the Island in every direction, bringing four-fifths of its area within five miles of the rails. Telephone lines all over the Island connect 175 towns, villages and settlements.

#### SOME SPECIAL ATTRACTIONS FOR TOURISTS

##### ON THE NORTH SHORE.

The rampart of sand dunes, fifty miles long, thrown up by the waves. The long shallow lagoons inside the dunes, the haunts of fish and bathers. Scores of miles of broad, clean, hard sand beaches, the delight of bathers.

##### IN GENERAL.

Surf bathing and sheltered sea bathing; Shooting wild geese, duck, brant, partridge and plover in their season. Fishing brook and sea trout, mackerel and other sea fish. Clam baking, picnicking, oyster digging. Boat sailing and rowing. Hundreds of motor boats.

##### IN CHARLOTTETOWN.

Victoria Park, 60 acres within ten minutes' walk of the Post Office. Beautiful walks and drives, tennis courts, cricket and baseball. The Belvidere Golf Links. Amateur Athletic Grounds. An excellent Free Public Library. The Legislative Building, seat of a Legislative Assembly older than the United States Congress. The Micmac Encampment at Rocky Point. The old French Fort at the Harbor's mouth. Seventy miles of land-locked waters for boating, bathing, oyster fishing and clam digging.

##### THE FOX RANCHES.

Tourist visitors and investors will find great interest in seeing the scores of fox ranches that are thickly dotted over the western and central portions of the Island. There are upwards of 150 of these ranches. There are hundreds of these black and silver beauties, each with a present selling price of \$5,000 upwards. A single black fox represents the value of a good farm, with all its buildings, fences and live stock. The total value of all the black foxes on the Island is believed to be over \$7,000,000. The Island is the recognized headquarters of this important industry. Eighty-five per cent of all the valuable foxes in captivity throughout the world are within P. E. Island.

## A Tip To Stock-Raisers

If you are fattening up your cattle for the market you cannot use anything better than Molassine Meal to get best results in shortest time.

It gives the animal better blood, increases weight quickly, builds firm flesh and healthy fat and cuts your feeding bill in two. Try it.

### DAILY SELECTIONS FOR GUARDIAN READERS

Published by W.S. Louison

#### MIZPAH.

(Published by request.)

Go thou thy way, and I go mine,  
Apart yet not afar.  
Only a thin veil hangs between  
The pathways where we are.  
And "God keep watch 'tween thee  
and me"  
This is my prayer,  
He looks thy way, He looketh mine,  
And keeps us near.

Should wealth and fame perchance be  
thine,  
And my lot lonely lie;  
Or you be sad and sorrowful,  
And glory be for me;  
Yet "God keep watch 'tween thee  
and me,"  
Both be His care.  
One arm round thee, and one round  
me,  
Will keep us near.

I'll sigh sometimes to see thy face,  
But since this may not be;  
I'll leave thee to the care to Him,  
Who cares for thee and me;  
'I'll keep you both beneath my  
wings."  
This comforts, dear;  
One wing o'er thee, and one o'er me,  
So we are near.

And though our paths be separate,  
And thy way is not mine;  
Yet coming to the merciful seat,  
My soul shall meet with thine;  
And "God keep watch 'tween thee  
and me,"  
I'll whisper there;  
He bleaseth thee, He bleaseth me,  
And we are near.

#### TO AVOID CRACKING FRUIT JARS

My fruit jars never crack during the filling process, although I dip the fruit into them from the boiling fruit kettle. After lifting a jar from the hot water in which it has been sterilized, I wipe it quickly and then stand it on a deep pie-plate in which is nearly a cupful of very hot water. This keeps the jar hot while filling and sealing, and catches any overflow.—F.A.F.

#### BY BURNING GARBAGE.

With a coal stove or furnace, burning the garbage is a threefold economy—coal, labor and material. It saves coal because there is a large amount of latent heat in all refuse; labor in bringing up an equivalent of coal, emptying ashes, sweeping and dusting coal dirt; material, because every time that a fire is made from cabbage leaves, nutshells, old paper, boxes and other refuse coal and its price is saved. When only a "flash" fire is needed, the dried garbage is

#### CANNING CAN ON THE COB.

Corn is regarded as many as an unlicky vegetable for canning. But if picked while very tender, cut from the cob at once with a keen knife that leaves no ragged kernels, packed tightly into jars, which are then filled with cold water and cooked by steam there should be no difficulty. Another way is to take extra large jars, say, of the 4-quart size, and can the corn on the cob. To do this it is necessary to select very tender ears of a small cob variety. They should be subjected to the boiling process for an hour and a half on each of three days.

#### WORKMEN ALLEGED TO FAKE INJURIES.

MILWAUKEE, Wis., July 24.—Representatives of the liability insurance companies met in conference here today with the Wisconsin industrial commission to discuss the workings of the employers' liability and workmen's compensation law. The men who underwrite the industrial hazards believe there is some room for improvement in the statute. Cause for complaint is found in the alleged practice of employees to fake injuries in order to lay off on part pay. While the faking is not practised to any large extent it is said to have already caused the employers and insurance companies considerable financial loss.

#### ON TRIAL FOR KILLING POLICEMAN.

FORT WORTH, Texas, July 24.—The case of Tom Lee, the negro under indictment for killing Policeman Ogletree last May, was called in court today for trial. The killing of the policeman aroused public feeling to a high pitch, and the lynching of the negro was narrowly averted. Lee's trial has been several times postponed on account of his condition, he having been seriously wounded the day the policeman was killed.

#### GERMAN SHIP IS GIVEN UP AS LOST.

HAMBURG, July 23.—The German sailing ship Klio, with her crew of 20 men, has been given up as lost by her owners here. She sailed from Talehuano on May 11 for Mejillones and as she has not since been reported, is believed to have gone down on the coast of Chile. She was a vessel of 1571 tons net, built in Glasgow in 1888.

## Foxes For Sale

Just arrived an extra fine lot of black and patched foxes which will be sold at lowest possible prices. The above are mostly females. Don't miss this snap. Write or phone

THE TYNE VALLEY FOX EXCHANGE,  
Tyne Valley, P. E. I.

### TRIAL PROMISES TO BE SENSATIONAL

ATLANTA, Ga., July 24.—With the case of Leo M. Frank, the wealthy manufacturer and society man, who is charged with the slaying of pretty 14-year-old Mary Phagan, scheduled for trial next Monday, Atlanta is on the edge in anticipation of the most sensational trial that has ever taken place in this city. The solution of the mystery that surrounds the death of the child, whose beauty is believed to have led to her sad end, is not all that is involved in the case. It is alleged that stories of police corruption and the employment of methods for "framing up" cases, rivaling the exposures in the Becker case in New York, will play a prominent part in the trial.

Developments have come thick and fast since the mutilated body of Mary Phagan was found on Sunday morning, April 27, on a rubbish heap in the basement of the pencil factory building where she was employed. Within a few days after the discovery of the crime Leo M. Frank, the superintendent of the pencil company, together with two negroes, Newt Lee and James Connally, were taken into custody on suspicion of having some knowledge of the case. Leo was the night watchman at the factory and Connally was an employe.

The first big sensation in the case came when Frank was indicted by the Fulton County grand jury on a charge of having murdered the girl. It is understood that the indictment was based principally upon the testimony of the negro Connally. The latter, it is said, made affidavit, that on the day preceding the girl's murder, Frank called him into his office in the pencil factory and asked him to write several notes "to get a sample of handwriting." Connally stated that he wrote at Frank's dictation, and that he believed later the notes he wrote were the same that were found beside the slain girl's body and which evidently were intended to throw suspicion on a negro as the perpetrator of the crime.

At the coroner's inquest G. W. Epps, a 15-year-old newsboy who was a friend of the murdered girl, testified that she had requested him to call by the pencil factory on several occasions because, she said, Mr. Frank had sometimes rushed out of the factory ahead of her and winked at her as she went past.

That the best legal talent in Georgia, which is represented in the opposing forces of lawyers, will be on its mettle in the coming trial there is not the slightest question. Neither side has considered expense in the collection of evidence. The prosecution claims to have secured circumstantial evidence so convincing that it regards the accused safely enmeshed. On the other hand the defense lets fall insinuations that it can show that a negro is responsible for strangling the child.

Frank acknowledges that he was in the factory when the girl came for her pay, when the plant was closed for a holiday, but that he had no reason to think that the child had not left the building immediately on receiving her envelope.

So far as is known Frank and the two negroes were the only ones in the building during the afternoon and evening of the day on which the crime was committed. The negro watchman, who found the body, declares that he had seen nothing suspicious about the place until he ran into the body on a trash pile in the cellar. The negro Connally, after various tales, declared he was telling the truth when he confessed to having helped Frank dispose of the body.

While there are many things which Frank has not explained satisfactorily to his family and many friends are standing squarely by him. He also has a large measure of public sympathy. A majority of the people look upon the crime as typical of the lower negro element and many express the belief that it will be fastened on a member of the black race when all the evidence is brought out.

The political end of the case is extremely interesting, though the effect it will have on the acquittal or conviction of the accused man is altogether problematical. At the bottom of this phase of the case is the political feud between Mayor "Jim" Woodward and the police department. Leaders of the political element seek to oust the present chief of police and chief of detectives have seized upon the Phagan case as an opportunity to make charges of corrupt methods against the police. The dictatorship has been brought into play and charges of bribery, manufacturing evidence and attempts to shield the slayer or slayers of the Phagan girl have been freely indulged in by those on both sides of the political feud.

# Mid Summer Sale of Dress Goods 39c yd

Now is your chance to secure a pretty summer dress at a remarkably low price.

All of the materials are from regular stock and are good value at from 48c to 85c yd. We want to make room for our fall stock.
