## Double Murder Temiskaming, Que.

(Special to The Guardian.)  
OTTAWA, July 29.—A double murder in which the victims, two Russian Poles, were shot as they lay prone on the ground after being beaten into a state of insensibility has been brought to light at Temiskaming, Que., following an investigation by Provisional detectives and an enquiry conducted by Dr. T. E. Davies, coroner of Hull District, at the request of the Quebec Provincial Attorney General's Department.

The victims A. Kustman, 24 years and T. Kolodricky, 30 years were done to death last Friday afternoon in the woods near Temiskaming Village and a short distance from the pulp and paper plant of the Riordan Co. A thorough search has failed to reveal the identity of the murdered or bring about arrests. Kustman was seen by his brother in company with two compatriots whose names he did not know a few hours before the double murder was committed. The bodies of the victims when discovered by fire ranger Hemmingway were lying face downwards and were hid under a pile of brush and leaves.

Both bodies were covered with bruises and punctures which appear to have been inflicted with a spike or long nail. A close examination of Kustman's body revealed a small hole in the back of the head as if a bullet had been fired through Kolodricky's neck from behind. When last seen by his brother, Kustman was talking to two strangers in the outskirts of the village. All engaged in a game of cards the supposition is that the murder followed disputes over the game.

The firemen worked heroically but they had a heavy handicap in a stiff breeze and the inflammable nature of some of the material.
