AMERICAN WALLPAPERS Season 1925

The most attractive lines of cheap Wallpapers that will be shown in Canada—10 patterns and colorings of new popular styled goods.

F. S. PATILLO & CO. LTD., Toronto, N. E. exclusive factory agents.

SOME OF THE DECIDED ADVANTAGES IN BUYING THESE GOODS—

They are sold f.o.b. Truro—Saving Heavy Freight.

They are sold tax free—Saving Additional 10 per cent.

They are sold on Longer Terms and better discounts, giving a chance to get money before bill is due, which is not the case with Canadian goods.

But the Greatest Advantage that they offer is to 25-1-3 p. e. cheaper.

We are showing 19 Styles and Colorings, including at 4 1/2c, all below the Canadian Papers.

It is a Wonderful Line and every wallpaper dealer should have it. You can see well the small order houses, and get a satisfactory profit. You cannot do it with any Canadian line.

Our Travellers will cover the Maritime as usual Drop us a card if you wish.

The cheap line only goes in price up to 12 1/2c. The majority of general line in paper should not stop above that price, but depend upon factory stocks.

Year after year against us was, "couldn't deliver the goods"—and we were obtained by this statement. Deliver Every Roll and Promptly. We had to be persuaded to pass up had to come to the cheap paper line, stating they could not do it.

Do not know what new canvases we made this season, but the wise man will wait and see this line in placing orders—"Safety First" is Policy.

The groom was attended by Mr. J. Campbell. After the ceremony the happy couple motored to their home on Burn Street where a reception was held in the evening which was passed in games and dances. They received many presents of silver and cut glass.

**A NEW PATENT**—In the July member of the Canadian Patent Office Record a illustration and description is given of a device patented in Canada, United States and England by Mr. Harold A. Messervey, son of Mr. and Mrs. John A. Messervey, of this city. The device is called "A Liquid Dispenser," patent number 241,196. It is so constructed as to dispense a definite quantity of liquid on depositing a dime, quarter or half dollar in a slot in the machine. It is designed principally for the gasoline business, the idea being that the machine will automatically supply the travelling public with gasoline without the necessity of having an attendant on hand. The traveller drops his nickel in the slot and the machine does repeat engineers who have carefully examined the invention it is calculated to revolutionize the ever increasing gasoline business and also it is hoped will prove a mine of wealth to his inventor.

Marries In Canada; Can't Take His Wife

NIAGARA FALLS, Ont., July 7.—The new regulations regarding entrance to the United States are working hardship in many cases, that they would be able to cross, but are still being held waiting for the necessary visas.

A young Scotsman who holds a high position in a Massachusetts city came across and married a Scots girl at Chatham and was told he would have no difficulty in taking her across. When he reached the other side, however, he was informed that he could cross, but not his bride. No solution of the tangle has yet been found.

Some of the men seeking to enter the United States have reconsidered their decision and will now seek to settle in Canada.
